Jacqueline Dembar Greene

**Slavery and Dependence in Ancient Egypt** Roger S. Bagnall, Jane L. Rowlandson, Dorothy J. Thompson, 2024-03-21  
Translated ancient sources from over 3000 years of Egyptian history reveal the complex story of slavery in the Nile valley.

**Slavery in Ancient Egypt and Mesopotamia** Jacqueline Dembar Greene, 2000  
Follows the course of slavery in Mesopotamia and Egypt, examining how this practice began and spread, the work slaves did, and the impact of slavery on ancient societies.

**Slavery and Dependence in Ancient Egypt** Jane L. Rowlandson, Roger S. Bagnall, Dorothy J. Thompson, 2024-03-21  
Ancient Egypt offers rich sources of documentary evidence for the study of the experiences of dependent people, particularly enslaved persons, and how they changed over almost four millennia from the Old Kingdom to the early Islamic period. This volume, the work of a team of scholars spanning the full range of disciplines and languages involved, provides nearly three hundred primary sources in translation, arranged both chronologically and thematically, and is aimed principally at students, instructors and general readers. The documents reveal how people became slaves and ceased to be slaves and how they were traded and exchanged in different periods. They also detail the various kinds of work slaves undertook, whether in the household, in agriculture or in mines and quarries. Introductions explain and contextualise the sources, and particularly address the problems of varying terminology in several different languages. The book shows Egypt's place in the world history of slavery.

**State and Economy in Ancient Egypt** David Warburton,1997 Combining philological investigation and theoretical reasoning, this book offers a completely new interpretation of the economic role of the state in ancient Egypt. The first part provides background outlining the relevance of Keynes General Theory to the ancient Egyptian economy. The central part uses ancient Egyptian texts as the foundation of an analysis of words commonly assumed to relate to taxation during the New Kingdom (c. 1540-1070 B.C.E.). The conclusions summarize the philological results and explore the role of the temples in the ancient Egyptian state during the New Kingdom. The result places ancient Egyptian taxation and state economic activity in a market context, opening a new path to the understanding of the ancient Egyptian economy based on an analysis of primary sources.

*A Confederate Soldier in Egypt* William Wing Loring,1884 General Loring was one of many Confederate officers who after the close of the War of the Rebellion offered their services to foreign rulers. A number of these officers took their way to Egypt, and the author of this book was one of the most successful of them all. He was made Pasha by the Khedive, and he rendered that ruler honorable and efficient service. It was natural that Loring Pasha should have been led to give his Egyptian experiences durable shape, and his book gives a clear and agreeably written account of the country. Such a writer has much more authority than the mere traveler. General Loring lived long in the country, and in intimate relations with persons at the centre of affairs; being withal a man of thought and intelligence he could not, with his opportunities, fail to acquire and retain impressions and facts of interest and value.
