*Surimi and Surimi Seafood* Jae W. Park, 2013-11-12 Originating in Japan in the twelfth century, surimi is refined fish myofibrillar proteins produced through various processes. The development of the surimi product crabstick in Japan in the 1970s played a major role in globalizing surimi and expanding surimi seafood consumption to the United States, Europe, and Russia. Commercial surimi production has also changed significantly. *Surimi and Surimi Seafood*, Third Edition covers the resources, production, technology, and nutrition of surimi and surimi seafood. Like the previous editions, this reference serves as a global surimi and surimi seafood industry guide. Revised and expanded, this new edition adds the most up-to-date information on the science of surimi and surimi seafood, with an increase from 17 to 23 chapters coauthored by 63 scientists and industry leaders. Presenting broader, more in-depth content, highlights include historical reviews of the surimi technology and industry, comminution technology and application, coproduct utilization, and nutrition and health benefits. The text examines topics related to surimi and fish proteins, including gelation chemistry, proteolytic enzymes, and stabilization of proteins. This edition covers the production of various surimi seafood products: seafood paste, crabsticks, kamaboko, chikuwa, tempura, fish balls, and fish sausage. It discusses quality and production aspects, such as waste management, microbiology and pasteurization, ingredient technology, color measurement and colorants, seafood flavors, and sensory science applications. It also contains a chapter on research and development that can serve as a tool for insights on new product development.

*Strategic Management: Competitiveness and Globalisation* Dallas Hanson, Michael A. Hitt, R. Duane Ireland, Robert E. Hoskisson, 2016-09-29 With an emphasis on global advantage, the text offers a comprehensive examination of regional and international issues to provide a complete, accurate and up-to-date explanation of the strategic management process. New coverage on environmental concerns and emerging technologies as well as examples and cases from Australia, New Zealand and Asia-Pacific serve to engage students while updated international content demonstrates how strategic management is used in the global economy. The text takes a 'resource-based' approach, which requires the examining of a firm's unique bundling of its internal resources. This text is appropriate for upper-level undergrad, usually third year; post grad in Masters courses.

**The Influence of Economic Interdependence on US-China Relations** Frank Mouritz, 2021-04-19 In den letzten

Jahren hat die Rivalität zwischen den USA und China zugenommen und ein Konflikt um die globale politische Vorherrschaft zeichnet sich ab. Aufgrund der starken ökonomischen Vernetzung der beiden Staaten hätte ein offen geführter Konflikt jedoch hohe wirtschaftliche Verluste für beide Seiten zur Folge. Vor diesem Hintergrund untersucht das Buch wie hoch die Anreize für beide Seiten sind, aufgrund wirtschaftlicher Überlegungen einen Konflikt zu vermeiden und auch zukünftig auf Kooperation zu setzen.

The Wall Street Journal ,2008

Strategic Management John A. Parnell,2013-01-15 Balancing theory with practice, this fully updated fourth edition of John A. Parnell's acclaimed text continues to provide detailed, accessible coverage of the strategic management field. Taking a global perspective, the text addresses concepts sequentially, from external and internal analysis to strategy formulation, strategy execution, and strategic control. To help readers build their analytic skills as they master course concepts, Parnell aligns each chapter's key concepts with 25 case analysis steps. Current examples and high interest cases, largely drawn from The Wall Street Journal and Financial Times, illustrate the key role of strategic management in the United States and around the world. Ideal for the capstone strategic management course, Strategic Management is appropriate for a range of undergraduate and graduate courses.
