**The Bhagavad- Pyhäkaavat** Pia Piironen, 2023-06-19 The historical Bhagavad -Pyhäkaavat (Bhagavad Gita) is a collection of letters mostly written by Achaemenids' vassals dating back to the pre-Roman Iron Age of Northern Europe. Letter writing begins in Greek Anatolia in 480 B.C.E. and continues in North Europe. Ancient Veda texts are astonishing, historical first-hand information about northern kingdoms established by the Achaemenid dynasty. Previously, it was not known that the Persian sphere of influence even extended to the territory of present-day Finland. Cyrus the Great was aptly titled 'King of the Four Corners of the Earth'. The Achaemenids were a common factor between Vedic India and Vedic North Europe. Their power also extended to Caria and Ionia in Anatolia. These people spoke and wrote in the Carian or Arian

language, the language that is called the Finnish Karelian dialect nowadays. The Bhagavad Gita letters also provide valuable information about their ancient Baptist religion. Many of its features were transferred to modern religions.

**What Is Moderate Islam?** Richard L. Benkin,2017-04-12 Radical Islam is a major affliction of the contemporary world. Each year, radical Islamists carry out terrorist attacks that result in a massive death toll, almost all involving noncombatants and innocents. Estimates of how many Muslims could be considered followers of radical Islam vary widely, and there are few guides to help determine moderates versus radicals. Observers often sit at the extremes, either seeing all Muslims as open or closeted jihadis or recoiling from any attempt to link Islam with international terror. Both positions are overly simplistic, and the lack of rational principles to absolve the innocent and identify the accomplices of terror has led to governments and individuals mistakenly accepting jihadis as moderate. What is Moderate Islam? brings together an array of scholars—Muslims and non-Muslims—to provide this missing insight. This wide-ranging collection examines the relationship among Islam, civil society, and the state. The contributors—including both Muslims and non-Muslims—investigate how radical Islamists can be distinguished from moderate Muslims, analyze the potential for moderate Islamic governance, and challenge monolithic conceptions of Islam.

Abraham's Children Jon Entine,2025-05-01 A riveting scientific detective story crossed with a provocative and controversial re-examination of the meaning of race, ethnicity, and religion. Could our sense of who we are really turn on a sliver of DNA? In our multiethnic world, questions of individual identity are becoming increasingly unclear. Now in Abraham's Children bestselling author Jon Entine vividly brings to life the profound human implications of the Age of Genetics while illuminating one of today's most controversial topics: the connection between genetics and who we are, and specifically the question Who is a Jew? Entine weaves a fascinating narrative, using breakthroughs in genetic genealogy to reconstruct the Jewish biblical tradition of the chosen people and the hereditary Israelite priestly caste of Cohanim. Synagogues in the mountains of India and China and Catholic churches with a Jewish identity in New Mexico and Colorado provide different patterns of connection within the tangled history of the Jewish diaspora. Legendary accounts of the Hebrew lineage of Ethiopian tribesmen, the building of Africa's Great Zimbabwe fortress, and even the so-called Lost Tribes are reexamined in light of advanced DNA technology. Entine also reveals the shared ancestry of Israelites and Christians. As people from across the world discover their Israelite roots, their riveting stories unveil exciting new approaches to defining one's identity. Not least, Entine addresses possible connections between DNA and Jewish intelligence and the controversial notion that Jews are a race apart. Abraham's Children is a compelling reinterpretation of biblical history and a challenging and exciting illustration of the promise and power of genetic research.

**A CHRISTIAN PERSPECTIVE ON ISLAM'S ORIGINS** Gabriel Aryeh,2024-01-24 A BRIEF SYNOPSIS OF A CHRISTIAN PERSPECTIVE ON ISLAM After several interactions with Muslims of distinct sects in the Bronx community, NYC schools, and the workplace through the decades, Aryeh observed how some professing Christians were led to believe in the Islamic claim of Muhammad's legitimacy as a prophet. Although a few maintained the belief that Jesus remained holy as a prophet, they suggested he was a mere man and abandoned their past confessions regarding his divinity. Nevertheless, the more astounding claim many ex-Christians and Muslims made suggested that the Jewish and Christian God found in the Bible

identified as the same deity of the Qur'an. Hence, these claims above initiated the primary reasons for delving deep into the study of Islam and writing this book for the sake of not only reaching many believers who erred from Christianity but the Muslims who believed that Allah identified as the God of the Jews and Christians. Indeed, the enormous task of disproving Islam as an extension of the Abrahamic faith required many investigations into the questions raised by such astonishing claims. This book makes deep inquiries into the historical and theological assertions found in the Islamic faith concerning Allah, Muhammad, and the religious practices observed today, which have survived for little over fourteen centuries. Consequentially, the unfortunate misconceptions taught about Islam in many church pulpits since the early days of this researcher's youth stemmed from books found in academia and some Christian libraries, which promoted a worldwide narrative by selective, favorable historical accounts based on political ideologies instead of rigorous theological investigation. The Christian perspective on Islam examines the theological origins of the Islamic faith by first investigating the geographical locations alleged as the nascent religion's early beginnings by exploring the historical and societal development of the Arab peoples. Second, this book probes the legitimacy of Muhammad as a divinely ordered prophet by consulting the Judaic traditions derived from the Jewish Scriptures explaining the qualifications of authentic prophethood. Finally, the sequential order of inquiry laid out above will highlight the emergence of the theology and residual religious rituals observed today in the Islamic world, and therefore, conclusively demonstrate that Islam remains unaligned with its Jewish and Christian predecessors.
