The Devil in the White City: Murder, Magic, and Madness at the Fair that Changed America by Erik Larson, published in 2002, is an historical work centered on the Chicago World's Fair of 1893. More specifically, the focus of the author centers on two men and their accomplishments during this pivotal moment in the history of America's new modern era. The first is the chief architect of the fair, Daniel Burnham, whose vision shaped the fair, and by extension, the architectural aesthetic of modern cities more broadly speaking for the generations that followed. His story is one of the power of creation fueled by persistence in the face of obstacles. The second focus of the book is America's first known serial killer, Dr. H. H. Holmes, whose acts of evil during the time of the World's Fair would manifest a destructive power that lived in the shadows of metropolitan anonymity. This review offers a detailed summary of the main themes raised in this historical work. In general the summary follows the structure of the book, which is largely presented in chronological order, alternating between the main historical figures central to the story. However, parts of the summary are

presented in an order that deviates slightly from that of the book in order to preserve the continuity and readability of the facts presented. The summary is followed by an analysis. Larson is both an accomplished journalist and historical novelist. He has written four New York Times bestselling books. He has written for The Wall Street Journal and Time Magazine as a staff journalist. He has been a contributing author to The Atlantic, Harper's, and The New Yorker. Shadows in the White City Robert W. Walker, 2009-10-06 The nation and the world gaze in awe at Chicago's magnificent White City in this summer of 1893. But Inspector Alastair Ransom sees the rot beneath the splendor of the great Exposition—and he is consumed with an over-powering need for vengeance. The Phantom of the Fair, a blood-thirsty fiend who nearly added Ransom to his ever-growing list of slaughtered victims, is still lurking somewhere in the shadows of

Ferris's gargantuan Wheel. And to end the maniac's reign, Ransom refuses to play by the rules established by the police brass and the corrupt politicians—appointing himself judge, jury . . . and executioner. But white-hot hatred and zealous fury can blind a determined manhunter to a more terrible truth. And dangerous missteps may lead to even greater bloodshed . . .

The Electrifying Fall of Rainbow City Margaret Creighton, 2016-10-18 A marvelous recounting of the 1901 World's Fair. Every chapter sparkles...The Buffalo-Niagara Falls extravaganza comes alive in these pages. Highly recommended! —Douglas Brinkley, author of *American Moonshot* The Pan-American Exposition in Buffalo, New York, dazzled with its new rainbow-colored electric lights. It showcased an array of wonders, like daredevils attempting to go over Niagara Falls in a barrel, or the Animal King putting the smallest woman in the world and also terrifying animals on display. But the thrill-seeking spectators little suspected that an assassin walked the fairgrounds, waiting for President William McKinley to arrive. In Margaret Creighton's hands, the result is a persuasive case that the fair was a microcosm of some momentous facets of the United States, good and bad, at the onset of the American Century (Howard Schneider, *Wall Street Journal*).

The Zoning of America Michael Allan Wolf, 2008 Revisits the landmark case *Euclid v. Ambler*, in which the Supreme Court surprisingly upheld the constitutionality of local zoning laws protecting residential neighborhoods from real and perceived disturbances, a decision that forever changed the way American cities and their suburbs were organized.

New York City 1964 Lawrence R. Samuel, 2014-04-02 Five seminal events occurred in New York City in the pivotal year 1964: the British Invasion, the arrival of the Beatles in February; the murder of Kitty Genovese in Queens in March; the World's Fair that ran in Queens between April and October; the race riots in Brooklyn and Harlem in July; and the World Series in the Bronx between the New York Yankees and the St. Louis Cardinals. Through an exploration of these landmark events—the biggest thing in pop culture since Elvis's appearance on *The Ed Sullivan Show*, a shocking crime that reportedly went ignored, the last great world's fair, a key moment in the Civil Rights Movement, and a legendary championship game that marked the end of an era—readers will have a better understanding of the social turbulence in New York City and the United States in the mid-1960s.

George Westinghouse William R. Huber, 2022-02-03 While most know Thomas Edison for his invention of the light bulb, his counterpart, George Westinghouse, is too often overlooked. Westinghouse, however, became known as one of the most

prolific inventors and businessmen of the Industrial Revolution. This biography reveals the man whose teachers suspected was mentally disabled and who quit college after one semester, yet founded more than 60 different companies employing 50,000 people, and received 361 U.S. patents. He later fought the Battle of the Currents (AC vs. DC) with Thomas Edison and won. Westinghouse, with his engineers, provided power and light for the 1893 World's Columbian Exposition in Chicago. They harnessed the massive power of Niagara Falls and sent it over wires to light Buffalo and eventually the Northeast. His electric engines powered trains, and his air brakes stopped them. His scientific contributions forever changed the world.

Coxey's Crusade for Jobs Jerry Prout, 2016-05-15 In the depths of a depression in 1894, a highly successful Gilded Age businessman named Jacob Coxey led a group of jobless men on a march from his hometown of Massillon, Ohio, to the steps of the nation's Capitol. Though a financial panic and the resulting widespread business failures caused millions of Americans to be without work at the time, the word unemployment was rarely used and generally misunderstood. In an era that worshipped the self-reliant individual who triumphed in a laissez-faire market, the out-of-work tramp was disparaged as weak or flawed, and undeserving of assistance. Private charities were unable to meet the needs of the jobless, and only a few communities experimented with public works programs. Despite these limitations, Coxey conceived a plan to put millions back to work building a nationwide system of roads and drew attention to his idea with the march to Washington. In Coxey's Crusade for Jobs, Jerry Prout recounts Coxey's story and adds depth and context by focusing on the reporters who were embedded in the march. Their fascinating depictions of life on the road occupied the headlines and front pages of America's newspapers for more than a month, turning the spectacle into a serialized drama. These accounts humanized the idea of unemployment and helped Americans realize that in a new industrial economy, unemployment was not going away and the unemployed deserved attention. This unique study will appeal to scholars and students interested in the Gilded Age and US and labor history.

Chicago, Metropolis of the Mid-continent Irving Cutler, 2006 Chicago: Metropolis of the Mid-Continent provides a comprehensive portrayal of the growth and development of Chicago from the mudhole of the prairie to today's world-class city. This completely revised fourth edition skillfully weaves together the geography, history, economy, and culture of the city and its suburbs with a special emphasis on the role of the many ethnic and racial groups that comprise the "real Chicago" of its neighborhoods. Cutler demonstrates how the geography of "Chicagoland" and the influx of a diverse population spurred transportation, industrial technology, the economy, and sporadic planning to foster rapid urban growth, which brought both great progress and severe problems. Through insightful analysis, Cutler also traces the demographic and societal changes to Chicago, critically examining such problems as the environment, education, racial tension, crime, welfare, housing, employment, and transportation. Richly illustrated with nearly three hundred drawings, photos, maps, and tables, the volume

includes six appendices with sections dedicated to Chicago facts, population growth and income data, weather and climate, significant dates, and historic sites.
