

The Minbar Of Saladin

Carole Hillenbrand

The Minbar of Saladin Lynette Singer, 2008 This is the remarkable story of one of the masterpieces of Islamic art, the Minbar of Saladin. Made in the middle of the 12th century, this wooden pulpit, perhaps the finest ever seen, stood in the al-Aqsa Mosque in Jerusalem for some 800 years until it was burned down in 1969 by a tourist claiming to be acting on orders from God. Its loss to the Muslim world was immense and so the decision was taken by the mosque's guardians, the Jordanian royal family, to rebuild it. Nobody, however, could have guessed just how complicated the process would be, nor how long it would take. With the secrets of the original construction all but lost, to rebuild the Minbar of Saladin required not only the unravelling of its astonishingly complex geometry, but also the revival of almost extinct crafts. The solutions to these problems were often to be found in unexpected places, and involved scholars and craftsmen from around the world. This book is the first to document the minbar's creation, destruction and reconstruction. However, it is also a meditation on the beauty of sacred art and the fragility of our cultural heritage. Packed with fascinating images, both of the minbar itself and of other key works, it will appeal to all those interested in Islamic art, sacred geometry, the history of the Holy Land, and the revival of traditional crafts.

Islam, Modernity, and the Liminal Space Between Mark W. Meehan, 2014-02-28 This book investigates the development and function of the Institute of Traditional Islamic Art and Architecture (ITIAA) in Amman, Jordan. A vertical case study using grounded theory methodology, the research creates a rich and holistic understanding of the Institute. Specific areas of study include the factors involved in the founding of the Institute within the context of Arab and Jordanian higher education, the role of traditional Islamic philosophy in the function of the Institute, and the role of the anthropological concept of liminal space in the clarification of students' values during the academic program. Data for the research came from thirty hours of interviews completed with over thirty individuals, a twenty item survey completed by sixty-five students, classroom observations, and analysis of an array of documents from the League of Arab States, the Jordanian Ministry of Higher Education and Research, the Jordanian Accreditation Association, the World Islamic Science and Education University, and the Institute for Traditional Islamic Art and Architecture. In regard to the role of traditional Islamic philosophy, the study delineates how the combination of theological/philosophical commitments of founders, faculty, and students combined to create a deep and pervasive role of traditional Islamic philosophy, evidenced in classrooms, interviews, and documents.

Students, faculty and staff reflected a vital commitment to Islamic understandings of education, art, and beauty. The book concludes by noting the vital importance of such institutions as ITIAA in providing the space and means for Arab-Muslims to understand their own culture, assess others, and form new versions of Arab-Muslim culture that are viable and productive in the current age. It is noted that transnational organizations, such as the League of Arab States, could help facilitate educational diversity by fostering the development of a second level of small, traditionally focused institutions. Such institutions can reinforce traditional values, provide liminal experiences, and facilitate creation of artifacts of liminal activity, reflecting students' ability to combine modern and traditional value systems.

The Crusades: Islamic Perspectives Carole Hillenbrand, 2018-10-24 Coinciding with the 900th anniversary of the Crusades, this book is the first general introduction to some of the wider aspects of the history of the Crusades. Prepared by Carole Hillenbrand, a leading authority with a world-wide reputation, *The Crusades* is unique in covering the Crusades from the Muslim perspective; it is also a timely reflection on how the phenomenon of the Crusades influenced the Muslim world, then and now--militarily, culturally, and psychologically. The book discusses a group of themes designed to highlight how Muslims reacted to the alien presence of the Crusaders in the heart of traditional Muslim territory. Ideological concerns are examined, and the importance of the concept of jihad is assessed in the context of the gradual recovery of the Holy Land and the expulsion of the Crusaders. There are also chapters devoted to an analysis of the warfare--arms, battles, sieges, fortifications--on the basis of written sources and extant works of art. Also extensively discussed is the complex issue of the interaction between Muslims and Crusaders in a social, economic, and cultural setting. The epilogue traces the profound impact of the Crusades on Muslim consciousness up to the present day. *The Crusades* is also lavishly illustrated with 500 black-and-white pictures and two full color-plate sections.

The Muslim World Book Review, 2009

The Crusades Carole Hillenbrand, 2000 This comprehensive work of cultural history gives us something we have never had: a view of the Crusades as seen through Muslim eyes. With breathtaking command of medieval Muslim sources as well as the vast literature on medieval European and Muslim culture, Carole Hillenbrand has produced a book that shows not only how the Crusades were perceived by the Muslims, but how the Crusades affected the Muslim world - militarily, culturally, and psychologically. As the author demonstrates, that influence continues now, centuries after the events. In *The Crusades* the reader discovers how the Muslims reacted to the Franks, and how Muslim populations were displaced, the ensuing period of jihad, the careers of Nur al-Din and Saladin, and the interpenetration of Muslim and Christian cultures. Stereotypes of the Franks in Muslim documents offer a fascinating counter to Western views of the infidel of legend. For readers interested in the Middle Ages, military history, the history of religion, and postcolonial studies, *The Crusades* opens a window onto a conflict we have only viewed from one side. *The Crusades* is richly illustrated, with eighteen color plates and over five

hundred line drawings and black and white photographs.

The Rare and Excellent History of Saladin, Or, Al-Nawādir Al-Sultaniyya Wa'l-Mahasin Al-Yusufiyya Bahā' al-Dīn Yūsuf ibn Rāfi' Ibn Shaddād, 2002 Prize: Winner of the Choice Outstanding Academic title Award. 'This excellent volume is essentially an English translation of Ibn Shaddad's biography ... Richards is an accomplished scholar of Arabic, and he has produced a smooth and easy to read translation that rests on a solid scholarly base ... will be the English language standard for the foreseeable future. While the general reader can benefit from this book, it belongs in all college and university libraries, especially those that focus on the Christian Crusades and the history of the Middle East during the Middle Ages.' Choice 'The importance of Richards' translation lies in the fact that this crucial text of the Crusading period has now been updated and decisively improved in its English version compared with the 1897 translation, which was rather unreliable. Richards succeeds in rendering the original into an English text which is at the same time a pleasure to read and largely reliable. Compared to the patchy quality of previous translations the author is to be congratulated for this fine piece of Arabist scholarship. The translation gains in significance because it is published in the framework of the Crusade Texts in Translation series as the first Middle Eastern source, which decisively widens the breadth of this series.' Bulletin for the School of Oriental and African Studies ' ... will be of immense value to non-Arabic readers ... an excellent translation of the text ... invaluable to students and scholars alike: it is not just an improving and useful read, but a lively and entertaining one as well.' The Painted Ceilings of the Cappella Palatina Ernst J. Grube, Jeremy Johns, 2005 This first supplement to Islamic Art takes as its subject the painted ceilings of the 12th-century Palatine Chapel in Palermo, Italy.

Saladin Dr. 'Abd al-Rahmān 'Azzām, 2009 Saladin is the greatest hero of the Middle East, a legendary figure admired and revered to this day. This is the first serious biography in over 20 years and the first ever by a non-western scholar in English.

It shows that Saladin's genius was not in warfare but in giving the people of Middle East a spiritual vision.

Jerusalem Colin Osman,2000-06 The significance of the city of Jerusalem to the world's Muslims, Christians, and Jews cannot be overstated. Jerusalem: Caught in Time captures a bygone era in this holy city, allowing the reader to become acquainted with the city as it was a century ago. Based on a treasure chest of photographs from the archives of the Palestine Exploration fund, this beautifully illustrated volume presents a compilation of images from the middle of the nineteenth century until the First World War. collected with the aim of recording the most minute details of the city and the surrounding area, they include the first photographic survey of Jerusalem and present a unique record of the country. Rather than viewing Jerusalem through a political, religious, or missionary lens, the photographs chronicle everything from archaeological digs to the ordinary people of the city going about their daily business. The photographs and accompanying text of Jerusalem: Caught in Time provide a remarkable window into the Jerusalem of the nineteenth and early twentieth centuries and reveal the true face of the city and its people.
