Prize Essay on the Immateriality of the Mind, and the Immortality of the Soul B. SIMPSON (Schoolmaster.),1853

An Outline Study of Man Mark Hopkins,1878

The Overland Monthly ,1909

Mind and Matter Sir Benjamin Brodie,1873

Think Better Ulrich L. Lehner,2021-11-16 In a world dominated by half-truths, illogic, and intellectual laziness, *Think Better* helps readers understand what reason is and how to use it well. Reason is a powerful tool not only for finding our way in an increasingly complex world but also for growing intellectually and emotionally. This short, accessible volume unlocks the dynamics of human reason, helping readers to think critically and to use reason confidently to solve problems. It enables readers to think more clearly and precisely about the world, and it tackles a number of profound philosophical questions without getting bogged down with jargon. Topics include knowledge, identity, leadership, creativity, and empathy. Written in an accessible style that integrates philosophy, illustrations, personal anecdotes, and statistical data, this book is well suited for use in undergraduate, classical school, and home school contexts. It is an invaluable guide for anyone interested in gaining better reasoning skills and a more rational approach to life.

Elements of the philosophy of the human mind ... To which is prefixed introduction and part first of the Outlines of moral philosophy. 1854 Dugald Stewart,1877

Fraser's Magazine ,1878

Philosophical Inquiries Nicholas Rescher,2010-05-15 In *Philosophical Inquiries*, Nicholas Rescher offers his perspectives on many of the foundational concerns of philosophy and reminds us that the purpose of philosophy is to question the questions. Rescher sees the need to inquire as an evolutionary tool for adapting to a hostile environment and shows how

philosophy has thus developed in an evolutionary fashion, building upon acquired knowledge and upon itself. In a historical thread that informs and enriches his overview, Rescher recalls the contributions of Aristotle, Plato, Plotinus, Kant, Hegel, Leibniz, Laplace, Bertrand Russell, and others. Among his many topics, Rescher discusses knowledge and the unattainability of absolutes, skepticism and its self-defeating nature, the limits of science vs. the limits of cognition, refuting reality as mind-independent, and idealism and divining our role in nature. He considers the universe and intelligence as the product of intelligent design, science and religion as non-conflicting and purposeful pursuits, and determinism and other fallacies surrounding the concept of free will. Rescher views morality in its hierarchical structure, its applicability to human coexistence, and its ontological commitment to the enhancement of value for ourselves and our world. He examines questions of authority and the problem of judging past actions or knowledge by present standards. Overall, he argues for philosophy as an unavoidable tool for rational, cogent responses to large questions.

Mind, 1891 A journal of philosophy covering epistemology, metaphysics, philosophy of language, philosophy of logic, and philosophy of mind.

Abbotts' Digest of All the New York Reports, 1913-[1917] Benjamin Vaughan Abbott, 1914

Eleventh Census of the United States, 1890 United States. Census Office, 1890 Includes reports on population, housing, agriculture, education, language, employment, crime, manufacturing, commerce, geography, territories and possessions, vital statistics and life tables.

The Westminster Review, 1903

Herald of Gospel Liberty Elias Smith, 1903

Nature's Invisible Forces Thomas H. Ellis, 1917

A Godward Life John Piper, 1997 120 daily readings encompass many topics, from personal concerns to public and cultural issues, rooted in the Scriptures.

Unity and the University, 1886
