**Adventist Interchurch Relations** Stefan Hörschele,2022-09-05 This study presents the first comprehensive analysis of Seventhday Adventist interchurch relations – a 20-million member body whose ecumenical stance has so far been underresearched. For the sake of interpreting denominational involvement and reservations in Adventism as well as beyond, the study develops a new academic approach to ecumenism based on Relational Models Theory, a comprehensive social science paradigm of interpreting human relationships. The resulting typology of ecumenical interactions and the historical case study of Adventism suggest that such a relational interpretation of ecumenical interaction sheds light on many of the unresolved issues in ecumenics – such as divergent concepts of unity, difficulties in recognition processes, and the permanence of denominationalism.
