**Time Management in the Life of a Scholar (UUM Press)** Kabiru Isa Dandago,2015-01-01 Time management is a subject that concerns everybody: Male and female; rich and poor; young and old; leaders and followers; educated and uneducated; etc. It is a challenge that has to be faced squarely by everyone who is interested in accomplishing his/her tasks within the limited time available, and this time is equally endowed. This book is specifically focused on scholars, as role models for effective time management. These scholars could be at the primary school level, secondary school level, tertiary educational institutions (universities, polytechnics, colleges of education, etc.), research institutes/ centers, etc. It is a challenge for them to lead other time users on effective management and utilisation of time and also to go deep into research on various aspects of time management, so as to establish acceptable principles, models and theories on the subject matter. Although the book has the scholar in mind, other users of time in the various sectors of any economy would find this book very interesting and very useful. Good time management is the key factor to achieve so much more within the 24-hour-period endowed equally to mankind. Over the 24 years of his working life in the University, the authors has come to realise that most scholars in educational system and those in other levels of the educational sector are not according time management the attentions it deserves. The required attentions are: (i) in respect of its effective management to achieve desire results; and (ii) in respect of promoting it an a subject of study at various levels. This book is an attempt to address these two issues.

*Reports from a Scholar's Life* Tryggve N. D. Mettinger,2015-11-16 Tryggve N. D. Mettinger, emeritus professor of Hebrew Bible at Lund University, has long been one of the best known and most admired voices in biblical studies. His eight (English-language) books and countless articles, published in a career spanning over four decades, have changed the field in many ways. Mettinger is renowned not as an iconoclast, but as one working within mainstream scholarship who is nevertheless willing to challenge cherished ideas and who takes nothing for granted. For example, in one of his earliest works, *A Farewell to the Servant Songs*—published in its entirety in this volume—Mettinger, with his trademark brevity and articulation, drew attention to the shaky ground on which this consensus idea was built and called fellow scholars to reexamine this notion taken for granted by so many for so long. For Mettinger, the Bible is sacred literature, but in biblical interpretation there are no sacred cows. *Reports from a Scholar's Life: Select Papers on the Hebrew Bible* collects 16 studies

(one short monograph, twelve articles, and three reviews), originally published between 1977 and 2008, into one volume, along with a new reflective essay. The papers included provide not only Mettinger's most groundbreaking publications, but also glimpses into several of the areas of study that occupied the author. Mettinger's work ranged far and wide in the Hebrew Bible, and here one finds examples of his contributions to the study of, among other things: • the notions of God, the Gottesbild, in ancient Israel ; the theology of "YHWH Sabaoth" in the monarchic period ; • the development of the story of David in 1-2 Samuel; • aniconism in ancient Israel; the motif of the "dying and rising god" in the ancient world ; • narrative criticism of the book of Job; • the development and structure of Second Isaiah The entire volume is opened by the titular essay, published for the first time here, "Report from a Scholar's Life." This article was originally delivered as the farewell address upon his retirement from Lund University, and it provides a retrospective on his entire life and career.

**A Scholar's Conscience** Faith Berry, 2014-07-11 J. Saunders Redding (1906-1988) was often and justifiably called the dean of African American scholars. As professor and man of letters, he wrote about African American literature and culture in vivid and scholarly prose. And of all the writers of his generation, he best represented, and came closest to explaining, the hopes and conflicts of American democracy in a multiracial society. Yet his perceptions and writings were never limited to race, nationality, academia, or one literary genre. In this first published anthology drawn from Redding's books, essays, and speeches, Faith Berry has compiled representative selections from every period and genre in which Redding wrote: autobiography, fiction, biography, history, journalism, travelogue, and literary criticism. The collection offers a wide range of his thought and criticism from numerous publications, as well as a comprehensive bibliography of his works. Redding is essential reading for all those who argue for or against the intellectual credo he espoused: that African American writing and culture be studied in the context of American life and culture, not in isolation. This useful and balanced edition of Redding's writing should serve to introduce him to a new audience certain to find his texts worthy of attention and discussion. Readers concerned with literary and social history, higher education, race relations, American and ethnic studies, foreign affairs, cultural exchange—or indeed the humanities in general—will find this work an important resource. Contemporary African American scholars will value the book as a lasting reference. And anyone unfamiliar with Redding's work will discover and appreciate the breadth of his contributions to scholarship and literature.

*Bridging the Scholar-Practitioner Gap in Human Resources Development* Hughes, Claretha, 2016-03-17 Human resource professionals are an essential part of an organization; by helping to establish a rapport between employees and their managers and providing individual support, they ensure the overall well-being and success of an establishment. However, in certain sectors, such as academia or industrial settings, their role still remains unclear. *Bridging the Scholar-Practitioner Gap in Human Resources Development* examines the knowledge breach in the role of human resources professionals and the pivotal role they play in an organization. Featuring timely research, future implications, and practical applications of

theoretical assumptions, this publication is a pivotal source for professionals, practitioners, academics, and researchers interested in the impact human resources specialists have in organizational settings.
