**The Sexual History of the Global South** Saskia Wieringa, Horacio Sívori, 2013-04-11 The Sexual History of the Global South explores the gap between sexuality studies and post-colonial cultural critique. Featuring twelve case studies, based on original historical and ethnographic research from countries in Africa, Asia, and Latin America, the book examines the sexual investments underlying the colonial project and the construction of modern nation-states. Covering issues of heteronormativity, post-colonial amnesia regarding non-normative sexualities, women's sexual agency, the policing of the boundaries between the public and the private realm, sexual citizenship, the connections between LGBTQ activism and processes of state formation, and the emergence of sexuality studies in the global South, this collection is of great geographical, historical, and topical significance.

The Lexicon-Syntax Interface Pritha Chandra, Richa Srishti, 2014-03-15 The present collection offers fresh perspectives

on the lexicon-syntax interface, drawing on novel data from South Asian languages like Bangla, Hindi-Urdu, Kashmiri, Kannada, Malayalam, Manipuri, Punjabi, and Telugu. It covers different phenomena like adjectives, nominal phrases, ditransitives, light verbs, middles, passives, causatives, agreement, and pronominal clitics, while trying to settle the theoretical tensions underlying the interaction of the lexicon with the narrow syntactic component. All the chapters critically survey previous analyses in detail, suggesting how these may or may not be extended to South Asian languages. Novel explanations are proposed, which handle not only the novel data presented here, but also pave alternative ways to look at issues of minimalist architecture.

**South Asian Pornographies** Darshana Sreedhar Mini, Anirban K. Baishya, 2024-06-21 South Asian Pornographies is the first consolidated volume that explores the relationships between pornography, obscenity, law and desire in South Asia. Focusing on case studies from India, Sri Lanka and Bangladesh while gesturing towards other countries in South Asia, the authors of this volume come from fields as varied as history, literature, media and communication, and the visual arts. The book proposes that as a geo-political location, South Asia has a unique relationship to pornography, given the multiplicity of cultural and legal-censorial regimes that define the obscene and the permissible. South Asian case studies can demonstrate how pornography in the region is often defined in oblique terms, finding reflection in various modes of popular (and sometimes underground) culture, bypassing legal and censorial constraints. Like questions of identity that can only be answered in the plural (identities rather than identity), this book demonstrates how a range of pornographies constitutes the force field of sexualized media in South Asia. It will be of interest to researchers and advanced students of Communication Studies, Cultural Studies, Film Studies, History, Sociology, and Social and Cultural Anthropology. The chapters in this book were originally published in the journal Porn Studies.

**Religion, Landscape and Material Culture in Pre-modern South Asia** Tilottama Mukherjee, Nupur Dasgupta, 2023-02-10 This book highlights emerging trends and new themes in South Asian history. It covers issues broadly related to religion, materiality and nature from differing perspectives and methods to offer a kaleidoscopic view of Indian history until the late eighteenth century. The essays in the volume focus on understanding questions of premodern religion, material culture processes and their spatial and environmental contexts through a study of networks of commodities and cultural and religious landscapes. From the early history of coastal regions such as Gujarat and Bengal to material networks of political culture, from temples and their connection with maritime trade to the importance of landscape in influencing temple-building, from regions considered peripheral to mainstream historiography to the development of religious sects, this collection of articles maps the diverse networks and connections across regions and time. The volume will be of great interest to scholars and researchers of history, archaeology, museum and heritage studies, religion, especially Hinduism, Sufism and Buddhism, and South Asian studies.

*Identity and History in Non-Anglophone Comics* Harriet E.H. Earle,Martin Lund,2023-04-24 This book explores the historical and cultural significance of comics in languages other than English, examining the geographic and linguistic spheres which these comics inhabit and their contributions to comic studies and academia. The volume brings together texts across a wide range of genres, styles, and geographic locations, including the Netherlands, Colombia, Greece, Mexico, Poland, Finland, Portugal, Ireland, and the Czech Republic, among others. These works have remained out of reach for speakers of languages other than the original and do not receive the scholarly attention they deserve due to their lack of English translations. This book highlights the richness and diversity these works add to the corpus of comic art and comic studies that Anglophone comics scholars can access to broaden the collective perspective of the field and forge links across regions, genres, and comic traditions. Part of the Global Perspectives in Comics Studies series, this volume spans continents and languages. It will be of interest to researchers and students of comics studies, literature, cultural studies, popular culture, art and design, illustration, history, film studies, and sociology.
