**The Man's Guide to Corporate Culture** Heather Zumarraga,2021-01-19 Studies have shown that 60% of male managers feel uncomfortable working one-on-one with their female colleagues. That's where The Man's Guide to Corporate Culture comes in. Heather Zumarraga, a business journalist who has spent much of her career in testosterone-filled work environments, wants to make sure that any male leader who wants to be part of the solution knows how to do it the right way. Heather provides you with logical solutions to complex gender issues and gives important, practical lessons for men and women alike. The Man's Guide to Corporate Culture teaches you: Which behaviors to adopt (and which to avoid) to create and maintain a comfortable work environment for their female co-workers. How to create an environment that is not only welcoming to both women and men but also encourages healthy and respectful collaboration. And more real-world tested advice and approaches to help ensure every employee (and business) is best situated for success. There are numerous business books that coach women to deal with bias and harassment in a male-dominated workplace. However, The Man's Guide to Corporate Culture is?one of the only books that coaches men on how to succeed?in the new normal.

*Dumb Politics* Tanner T. Roberts,2020-11-11 In Dumb Politics, Tanner T. Roberts delivers a bold, uncompromising critique of what he sees as the dangerous consequences of progressive political rhetoric in America. With sharp analysis and biting humor, Roberts systematically dismantles what he considers the hypocritical standards, illogical arguments, and damaging policies of the modern left. From examining the casual use of serious accusations like fascist and racist, to questioning immigration policies, economic theories, and educational practices, Roberts challenges readers to look beyond emotional appeals and consider the unintended consequences of well-intentioned progressive ideals. Through chapters on name-calling, immigration, economics, education, and culture, he builds a comprehensive case that American politics has been corrupted by a blissful ignorance that rejects individual responsibility in favor of collective victimhood. Roberts argues that this political mindset has taken hold across generations, creating a culture where free speech is stifled, alternative viewpoints are demonized, and critical thinking is replaced by emotional reasoning. He makes the case that conservative

values are increasingly treated as counter-cultural in a media and entertainment landscape dominated by progressive ideology. Whether you agree with his assessment or not, Dumb Politics offers a provocative perspective on today's political landscape that will leave readers questioning the narratives they're presented with daily. If you enjoyed Triggered by Donald Trump Jr., The Right Side of History by Ben Shapiro, or Fortitude by Dan Crenshaw, you'll love Dumb Politics.
