Representations of Sports Coaches in Film Katharina Bonzel, Nicholas Chare, 2018-10-11 This ground-breaking interdisciplinary collection brings together leading international scholars working across the humanities and social sciences to examine ways in which representations of sports coaching in narrative and documentary cinema can shape and inform sporting instruction. The central premise of the volume is that films featuring sports coaches potentially reflect, reinforce or contest how their audiences comprehend the world of coaching. Despite the growing interest in theories of coaching and in the study of the sports film as a genre, specific analyses of filmic depictions of sports coaches are still rare despite coaches often having a central role as figures shaping the values, social situation and cultural expectations of the athletes they train. By way of a series of enlightening and original studies, this volume redresses the relative neglect afforded to sports coaching in film and simultaneously highlights the immense value that research in this emerging field has for sporting performance and social justice. This book was originally published as a special issue of the journal *Sports Coaching Review*.

American Football and the American Way of War Daniel Sukman, 2024-04-10 This book provides the reader with a history on the linkages between American Football and the American Way of War. It provides concise summaries of aspects of tactics, operations, and strategy, as well as international relations theory using football as a metaphor to simplify the concepts. International relations theory and military strategy tend to be complicated subjects often explained with jargon that puts the average reader to sleep. A book about war and foreign policy explained through football analogies and comparisons is designed to liven the topic and explain various military theories, strategies, and concepts. War and football tend to dominate national media. War is often a topic of debate from the highest levels of government to local bars and

coffeehouses. Football is the monolith of sports that blankets sports television and radio throughout the year. This book provides the reader an understanding of how military professionals formulate and execute strategy in an easily understandable manner.

Coaching Myths Rick Albrecht, 2013-04-19 Unlike the generations of coaches that have gone before them, today's coaches are expected not only to teach motor skills to young athletes but to do so in an environment that is conducive to the ethical, emotional, social and physical well-being of each one of them. Each of the 15 chapters of this book presents, and then systematically debunks, the most pervasive, persistent and potentially harmful myths in coaching, including such chestnuts as play by my rules, winning is the ultimate goal and there's no I in 'team.' Although the information in every chapter is based on current scientific evidence (and there are numerous source notes), each is written in the everyday language of coaches and covers topics that are of particular interest to coaches, parents, athletic administrators, recreation programming specialists--and even the occasional fan.

SEC Football Richard Scott, 2008-09-15 College football in the South, it has been said, is like a religion, and nowhere is the passion and dedication more evident than at the twelve universities that make up the Southeastern Conference. The SEC is one of the most storied associations in all of collegiate sports. Its intense rivalries, historic programs, iconic coaches, and championship traditions are felt every autumn, from Gainesville to Little Rock, Baton Rouge to Lexington. The competition among the schools is as fervent as ever, fomenting rivalries within states (Alabama vs. Auburn and Mississippi State vs. Ole Miss) and across borders (Florida vs. Georgia and LSU vs. Arkansas). Many legends of the game have graced the SEC gridiron, including Fran Tarkenton, Joe Namath, Reggie White, Herschel Walker, Bo Jackson, Emmitt Smith, and Peyton, Archie, and Eli Manning---to name just a few. Celebrating three-quarters of a century of incomparable football, this lavishly illustrated book celebrates the stars, heroes, characters, and games that have made the SEC a force beyond reckoning. The book explores the players and the coaches, the teams and the traditions, and the great games and individual performances that have defined each decade of SEC football. Vintage and modern photography bring the world of the Southeastern Conference, past and present, brilliantly to life, and complete this timely tribute to an exceptional football legacy.

Lessons for Leaders Homer Rice, 2000 Using his own story as a compelling case study, Rice shows how his innovative Attitude Technique Philosophy leads to total success, whether on the gridiron or in any of life's other endeavors.
