

Health Technical Memorandum 03 01

Great Britain. Parliament. House of Commons

Heating and Ventilation Systems Great Britain: Department of Health: Estates and Facilities Division, 2007-01-01
Supersedes HTM 2025 (1995) (ISBN 9780113217410, 9780113217427, 9780113217434, 9780113217526). Also available is Part A, Design and validation (ISBN 9780113228058). On cover and title page: Heating and ventilation systems

Best Practice Guidance for Healthcare Engineering Great Britain. Department of Health. Estates and Facilities Division, Great Britain, 2006-12-11 This publication contains guidance on the standards and principles applicable to all health technical memoranda in this series in relation to the management of engineering and technical service provision in the NHS and other healthcare facilities. It seeks to ensure that everyone concerned with the management, design, procurement and use of the healthcare facility understands the requirements of the specialist, critical building and engineering technology involved, in order to provide effective and reliable systems and a safe and caring environment for patient care. It is divided into nine chapters and topics covered include: an overview of the Health technical memoranda (HTM) series; statutory and legislative requirements; appropriate professional and technical support; operational policies; emergency preparedness; staff training; design and access availability.

Fundamentals of Operating Department Practice Daniel Rodger, Kevin Henshaw, Paul Rawling, Scott Miller, 2022-09-08 A practical guide on the essential principles for the effective care of patients during anaesthesia, surgery, and the recovery period.

Safe management of healthcare waste Great Britain: Department of Health: Estates and Facilities Division, 2007-02-08 This publication provides a framework of best practice guidance on the management of healthcare waste to help healthcare organisations and other producers meet legislative requirements. It replaces the Health Services Advisory Committee guidance document 'Safe disposal of clinical waste' (1999). The guidance has been revised and updated to take account of legislative changes governing waste management, storage, carriage, treatment and disposal, health and safety. Key recommendations include: adopting a new methodology for identifying and classifying infectious and medicinal waste called the 'unified approach'; a revised colour-coded best practice waste segregation and packaging system to promote standardisation across the UK; the use of European Waste Catalogue (EWC) codes for waste documentation; and an offensive/hygiene waste stream to describe non-infectious waste (human hygiene waste and sanitary protection waste such as

nappies, incontinence pads etc.).

Firecode - fire safety in the NHS Great Britain: Department of Health: Estates and Facilities Division,2007-04-18 This Health Technical Memorandum takes the form of best practice guidance and recommendations. It provides guidance on the design of fire precautions in new healthcare buildings and major extensions to existing healthcare buildings. It supersedes HTM 81 (ISBN 9780113210824), and HTM 85 (ISBN 9780113217335). This publication provides guidance to achieve a satisfactory standard of fire safety, and recognizes the special requirements of fire precautions in the design of healthcare premises and should allow the current statutory regulations to be applied sensibly within a framework of understanding. The guidance in this HTM satisfies all requirements of Part B - Fire Safety of the Building Regulations 2000 (as amended).

Electrical services supply and distribution Great Britain: Department of Health: Estates and Facilities Division,2007-04-18 Part B, Operational management, provides guidance for all workers on the fixed wiring and integral electrical equipment used for electrical services within healthcare premises. Specifically, it considers the operational management and maintenance requirements for hard-wired electrical systems and fixed power plant. This document is suitable for use with all forms of electrical maintenance work ranging from testing of plant, such as generators, to the periodic testing and inspection of the electrical network(s) and final circuits.

Facilities for cardiac services Great Britain: Department of Health: Estates and Facilities Division,2006-12-11 This documents contains best practice advice on the design and layout of new cardiac facilities within acute general hospitals, and the recommendations should also be applied when existing facilities are upgraded, where practical. It covers the following facilities: dedicated out-patient units for provision of consultation/examination and patient support/information services; non-invasive investigations units (for example for undertaking ECGs and echocardiography, and analysis of pacemakers and other implantable devices; catheter laboratories and associated facilities; minor cardiac procedures rooms; dedicated day case units (for admission, preparation, recovery and discharge of day patients undergoing invasive procedures; cardiac operating theatres and associated facilities. Key legislation affecting the provision of cardiac facilities is also highlighted. This edition of HBN 28 replaces the 2001 edition (ISBN 0113224559).

Critical Care Manual of Clinical Nursing Procedures Suzanne Bench,Nicki Credland,Chris Hill,2024-10-30 Critical Care Manual of Clinical Nursing Procedures The second edition of Critical Care Manual of Clinical Nursing Procedures is a practical overview of essential procedures for the care of critically ill patients. Beginning with chapters outlining the current scope of critical care, the book adopts a systematic stage-by-stage approach from admission to discharge. At each stage, it provides insights into physiology, key procedures, and the relevant evidence base. Now fully updated to incorporate the latest research and best practices, this volume is poised to remain an indispensable resource for the next generation of critical care providers. Readers of the second edition will find: In-depth, beat-by-beat analysis of key procedures in critical

care Interventions underpinned by the latest evidence Content aligned with the National Critical Care Competency Framework and endorsed by the British Association of Critical Care Nurses Critical Care Manual of Clinical Nursing Procedures is ideal for nurses working in a critical care unit, nurses undertaking post-qualification specialist courses in critical care, or other healthcare professionals working as part of a critical care team.
