J. R. Goyal

Hindus in Hindu Rashtra Anand Ranganathan, 2023-12-18 The land's original inhabitants, where the judiciary says it is too late to prosecute those who raped, murdered, and ethnically cleansed lacs of Hindus?

Our Hindu Rashtra Aakar Patel, 2022-10-24 India has taken so sharp a turn in recent years that the very centre has shifted considerably. What led to this swing? Is it possible to trace the path to this point? Is there a way back to the just, secular, inclusive vision of our Constitution-makers? This country has long been an outlier in its South Asian neighbourhood, with its inclusive Constitution and functioning democracy. The growth of Hindutva, in some sense, brings India in line with the other polities here. In *Our Hindu Rashtra*, writer and activist Aakar Patel peels back layer after layer of cause and effect through independent India's history to understand how Hindutva came to gain such a hold on the country. He examines what it means for India that its laws and judiciary have been permeated by prejudice and bigotry, what the breach of fundamental rights portends in these circumstances, and what the all-round institutional collapse signifies for the future of Indians. Most importantly, Patel asks and answers that most important of questions: What possibilities exist for a return? Thought-provoking and pulling no punches, this book is an essential read for anyone who wishes to understand the nature of politics in India and, indeed, South Asia.

Encyclopaedia of India, Pakistan and Bangladesh Om Gupta, 2006-04 India, Pakistan and Bangladesh share a long history, an emerging cordial and a common vision for the future. This book is not India-centric but deals with various aspects of all the three sovereign nations. Reading them together will be an unprecedented experience rarely attempted before. It has rarely happened in the modern world, how these three nations who geographically one but culturally so different are chalking out an independent place in the comity of nations at times with the help of each other and at another on its own merit and inherent strength. It is not written from any biased perspective. In fact, it explains people, places and events from a neutral world view. It is ideally an international venture that would benefit historians, teachers and students in the entire sub-continent. It will be interesting to compare the three countries from different parameters, thus planning a wholesome picture. The encyclopedia aims at clearing confusions and contradiction that have crept in because of certain vested interests

and it should be read from a neutral benchmark. These volumes very clearly and earlier suggest, how fatal the disintegrate have proven to these nations with the fact that divided these countries have in actuality fallen. In the face of achieving the target of universal supremacy.

Hindu Nationalists of Modern India Jose Kuruvachira, 2006 This book is a critical study of six selected Hindu nationalists of modern India - Swami Dayananda Saraswati (1824-1883), Swami Vivekananda (1863-1902), Bal Gangadhar Tilak (1856-1920), Vinayak Damodar Savarkar (1883-1966), Madhav Sadashiv Golwalkar (1906-1973) and Sita Ram Goel (1921-2003) - in order to trace the intellectual genealogy of Hindu cultural nationalism and fundamentalism. Behind each of these there is a dark and hidden history of religious fundamentalism, fanaticism, narrow-minded nationalism, anti-minoritism, anti-secularism and intolerance. But, unfortunately, this is not always known to the people. The present study is an attempt to highlight these less known facts, and also demonstrate that contemporary Hindu cultural nationalism and fundamentalism have their ideological roots in the past. This book will be of interest not only to students, academicians and scholars but also to those who wish to know the facts relating to the rise of certain Hindu nationalist and fundamentalist organisations, political parties, groups, movements and associations, their methods of mass mobilisation and indoctrination, their anti-minority syndrome and militant orientations manifested especially in their attitude towards the Indian Christians and Muslims.

Religion and Nationalism in India Harnik Deol, 2003-09-02 This timely and significant study explores the reasons behind the rise in Sikh militancy over the 1970s and 1980s. It also evaluates the violent response of the Indian State in fuelling and suppressing the Sikh separatist movement, resulting in a tragic sequence of events which has included the raiding of the Golden Temple at Amritsar and the assassination of Prime Minister Indira Gandhi. The book reveals the role in this movement of a section of young semi-literate Sikh peasantry who were disaffected by the Green Revolution and the commercialisation of agriculture in Punjab. Drawing on a wide range of sources, Deol examines the role of popular mass

media in the revitalisation of religion during this period, and the subsequent emergence of sharper religious boundaries.

Empire and Neoliberalism in Asia Vedi R. Hadiz, 2006-09-27 This book analyzes the overall effect of American primacy on social and political conflicts in Asia, discussing how the post-Cold War American agenda does not promote democratization in the region, in contradiction to one of the major proclaimed aims of the proponents of the Pax Americana. This team of renowned scholars argue that the US agenda can strengthen anti-democratic impulses in Asian societies, exacerbating and complicating existing domestic conflicts and struggles. Empire and Neoliberalism in Asia also examines how the requirements of the War on Terror intersect with, and reinforce, those of transnationalized sections of American capital. Drawing on country case studies, this multidisciplinary book looks at the ramifications of the American Empire for the Asian region and will appeal to anyone interested in Asian politics, international relations, political economy, development studies and sociology.

Questioning the Secular State David Westerlund, 1996 In recent decades, secularism, or the separation of religion and state, has been increasingly questioned by various religious movements and organizations. This book examines how Christian, Muslim, Hindu, Buddhist and Sikh fundamentalists are seeking to overthrow established political, religious and social norms in their quest for a religiously based form of government. The coverage of the work is global and includes studies of all world's major religions, thus providing the reader with a comprehensive introduction to a subject of growing importance.

Race and Racialization Tania Das Gupta, 2007 This provocative volume will influence the way people think of race and racialization. It provides a thorough examination of these complex and intriguing subjects with historical, comparative, and international contributions. Edited as a theoretically strong, cohesive whole, this book unites a remarkable ensemble of academic thinkers and writers from a diversity of backgrounds. Themes of ethnocentrism, cultural genocide, conquest and colonization, disease and pandemics, slavery, and the social construction of racism run throughout.

Communalism and Secularism in Indian Politics Sunil Kumar (lecturer of political science.), 2001 The book is a comprehensive study to analyse the ideology, organisation, leadership, electoral base and also the hindutva doctrine of bjp within the broader connotation of communal and secular politics in the Indian political system. It is the most updated work, which throws extensive light on various developments in the genesis of the party right from its inception in 1980, till date. The book also stresses on the paradox of Indian political system where the state is secular, but politics has become communal. The external as well as the internal shortcomings of the bjp have also been discussed.
