Responsive Judicial Review Rosalind Dixon, 2023 Democratic dysfunction can arise in both 'at risk' and well-functioning constitutional systems. It can threaten a system's responsiveness to both minority rights claims and majoritarian constitutional understandings. Responsive Judicial Review aims to counter this dysfunction using examples from both the global north and global south, including leading constitutional courts in the US, UK, Canada, India, South Africa, and Colombia, as well as select aspects of the constitutional jurisprudence of courts in Australia, Fiji, Hong Kong, and Korea. In this book, Dixon argues that courts should adopt a sufficiently 'dialogic' approach to countering relevant democratic blockages and look for ways to increase the actual and perceived legitimacy of their decisions--through careful choices about their framing, and the timing and selection of cases. By orienting judicial choices about constitutional construction toward promoting democratic responsiveness, or toward countering forms of democratic monopoly, blind spots, and burdens of inertia, judicial review helps safeguard a constitutional system's responsiveness to democratic majority understandings. The idea of 'responsive' judicial review encourages courts to engage with their own distinct institutional position, and potential limits on their own capacity and legitimacy. Dixon further explores the ways that this translates into the embracing of a 'weakened' approach to judicial finality, compared to the traditional US-model of judicial supremacy, as well as a nuanced approach to the making of judicial implications, a 'calibrated' approach to judicial scrutiny or judgments about

proportionality, and an embrace of 'weak - strong' rather than wholly weak or strong judicial remedies. Not all courts will be equally well-placed to engage in review of this kind, or successful at doing so. For responsive judicial review to succeed, it must be sensitive to context-specific limitations of this kind. Nevertheless, the idea of responsive judicial review is explicitly normative and aspirational: it aims to provide a blueprint for how courts should think about the practice of judicial review as they strive to promote and protect democratic constitutional values.

Contemporary Asian America Min Zhou, James V. Gatewood, 2007-01-01 How does one capture the delightful irony of Edith Wharton's prose or the spare lyricism of Kate Chopin's? Kathleen Wheeler challenges the reader to experiment with a more imaginative method of literary criticism in order to comprehend more fully writers of the Modernist and late Realist period. In examining the creative works of seven women writers from the late nineteenth and early twentieth centuries, Wheeler never lets the mystery and magic of literature be overcome by dry critical analysis. *Modernist Women Writers and Narrative Art* begins by evaluating how Edith Wharton, Kate Chopin, and Willa Cather all engaged in an ironic critique of realism. They explored the inadequacies of this form in expressing human experience and revealed its hidden, often contradictory, assumptions. Building on the foundation that Wharton, Chopin, and Cather established, Jean Rhys, Katherine Mansfield, Stevie Smith, and Jane Bowles brought literature into the era we now consider modernism. Drawing on insights from feminist theory, deconstructionism and revisions of new historicism, Kathleen Wheeler reveals a literary tradition rich in narrative strategy and stylistic sophistication.
