Student-Teacher Interaction in Online Learning Environments Wright, Robert D.,2014-09-30 As face-to-face interaction between student and instructor is not present in online learning environments, it is increasingly important to understand how to establish and maintain social presence in online learning. Student-Teacher Interaction in Online Learning Environments provides successful strategies and procedures for developing policies to bring about an awareness of the practices that enhance online learning. This reference book provides building blocks to help improve the outcome of online coursework and discusses social presence to help improve performance, interaction, and a sense of community for all participants in an online arena. This book is of essential use to online educators, administrators, researchers, and students.

**Adoption of Data Analytics in Higher Education Learning and Teaching** Dirk Ifenthaler, David Gibson, 2020-08-10

The book aims to advance global knowledge and practice in applying data science to transform higher education learning and teaching to improve personalization, access and effectiveness of education for all. Currently, higher education institutions and involved stakeholders can derive multiple benefits from educational data mining and learning analytics by using different data analytics strategies to produce summative, real-time, and predictive or prescriptive insights and recommendations. Educational data mining refers to the process of extracting useful information out of a large collection of complex educational datasets while learning analytics emphasizes insights and responses to real-time learning processes based on educational information from digital learning environments, administrative systems, and social platforms. This volume provides insight into the emerging paradigms, frameworks, methods and processes of managing change to better facilitate organizational transformation toward implementation of educational data mining and learning analytics. It features current research exploring the (a) theoretical foundation and empirical evidence of the adoption of learning analytics, (b) technological infrastructure and staff capabilities required, as well as (c) case studies that describe current practices and experiences in the use of data analytics in higher education.

**Governance, Communication, and Innovation in a Knowledge Intensive Society** Siqueira, Sean W.M., 2013-06-30

The proper use and dissemination of information among stakeholders, organizations, and societies is crucial for the development of productive and prosperous communities. *Governance, Communication, and Innovation in a Knowledge Intensive Society* gathers current research on knowledge management in governments, organizations, and institutions, and presents a compilation useful to academics, professionals, politicians, and policymakers invested in knowledge intensive societies. This book investigates the impact of knowledge and information technologies on fields as diverse as education, culture, science and business, in order to provide an effective framework for effectively navigating the nuances of an information-pervasive world.

**Planning Academic Library Orientations** Kylie Bailin, Benjamin Jahre, Sarah Morris, 2018-06-28

Colleges and universities throughout the world plan library orientations for first years or specific audiences such as transfer or international students. These events can vary greatly in shape and form depending on the size, resources and staff of the institution, orientation schedule, and whether it is mandatory for students. Some institutions plan day-long events, elaborate games, or scavenger hunts; some offer drop in sessions or library tours; others offer an online orientation. *Planning Academic Library Orientations* gathers case studies from around the world covering a wide variety of approaches as a guide to those revamping or creating new library orientations. Chapters are organized into the following thematic sections: Games; Marketing & Promotion; Partnerships; Targeting Specific Audiences; Technology; and Tours, and are cross-referenced if they

touch on additional themes. Each chapter includes institutional information so readers can decide which type of orientation is appropriate for their own institution and see what resources are required. - Gives guidance on best practices for academic library orientations - Gathers examples from around the world to provide international perspective - Empowers librarians to take aim at the anxiety felt by new and first year students - Presents effective ways of introducing students to what a college/university library is, what it contains, and where to find information, while also showing how helpful librarians can be

Multicultural Awareness and Technology in Higher Education: Global Perspectives Issa, Tomayess, Isaias, Pedro, Kommers, Piet, 2014-03-31 Diversity among university students plays a significant role in raising awareness of numerous issues surrounding cultural heritage, language differences, cross-cultural collaboration, and international education. The integration of technological tools can assist students in cooperating nationally and internationally both in their current educational and future professional settings. Multicultural Awareness and Technology in Higher Education: Global Perspectives encompasses the latest research on the impact and integration of technology into international education and culturally diverse learning environments. Providing the latest teaching and learning methods, technologies, and approaches at the university level, this publication is a useful reference for academics, educational administrators in public and private institutions, and information society researchers.

**Handbook of Research on Adapting Remote Learning Practices for Early Childhood and Elementary School Classrooms** Courtney-Dattola, Ashley, 2021-12-17 Teaching is a demanding profession as there is constant fluctuation and evolution. A portion of teaching is the ability to be able to adapt to various environments, especially shifting from in-person instruction to online practices. Over the last few years, early childhood and elementary school classrooms have been thrust into hybrid and remote learning environments, and it is vital that educators and institutions adapt to new practices and create various outlets for teachers to be able to more adequately reach their young audience. The **Handbook of Research on Adapting Remote Learning Practices for Early Childhood and Elementary School Classrooms** is a critical resource to assist teachers as they develop online teaching practices and work to cater to young students so that they can receive the strongest benefits from their education. Through coverage of topics such as hybrid learning and parental involvement, paired with sample lesson plans, course formats, concepts, ideas, and additional components to further the body of research pertaining to remote learning, this book is tremendously beneficial to administrators, researchers, academicians, practitioners, instructors, and students.

**The Palgrave Handbook of Crisis Leadership in Higher Education** Jürgen Rudolph, Joseph Crawford, Choon-Yin Sam, Shannon Tan, 2024-06-04 This handbook provides a frame of reference for the global challenges facing higher education leadership today. Focusing on recommendations and directions for the future rather than simply a recap of measures taken during the COVID-19 pandemic, the contributors also delve into contexts such as the climate crisis, issues of diversity, equity

and inclusion, digitalisation, funding and marketisation, the war in Ukraine and China-Taiwan and Hong Kong tensions. They collate a systematic, global view of higher education systems during the pandemic and beyond, and explore possibilities for the future, providing recommendations for 'the new normal'. With contributions from across six continents, the book will be of interest to students and scholars of higher education and governance, university leaders, government and accreditation bodies, and anyone else interested in reflecting on the past few years in higher education and the road ahead.

**Handbook of Design in Educational Technology** Rosemary Luckin, Sadhana Puntambekar, Peter Goodyear, Barbara L Grabowski, Joshua Underwood, Niall Winters, 2013-06-26 The Handbook of Design in Educational Technology provides up-to-date, comprehensive summaries and syntheses of recent research pertinent to the design of information and communication technologies to support learning. Readers can turn to this handbook for expert advice about each stage in the process of designing systems for use in educational settings; from theoretical foundations to the challenges of implementation, the process of evaluating the impact of the design and the manner in which it might be further developed and disseminated. The volume is organized into the following four sections: Theory, Design, Implementation, and Evaluation. The more than forty chapters reflect the international and interdisciplinary nature of the educational technology design research field.
