Clifford S. Witend

Leonardo da Vinci Walter Isaacson, 2017-10-17 Now a docuseries from Ken Burns on PBS! The #1 New York Times bestseller from Walter Isaacson brings Leonardo da Vinci to life in this exciting new biography that is “a study in creativity: how to define it, how to achieve it...Most important, it is a powerful story of an exhilarating mind and life” (The New Yorker). Based on thousands of pages from Leonardo da Vinci’s astonishing notebooks and new discoveries about his life and work, Walter Isaacson “deftly reveals an intimate Leonardo” (San Francisco Chronicle) in a narrative that connects his art to his science. He shows how Leonardo’s genius was based on skills we can improve in ourselves, such as passionate curiosity, careful observation, and an imagination so playful that it flirted with fantasy. He produced the two most famous paintings in history, The Last Supper and the Mona Lisa. With a passion that sometimes became obsessive, he pursued innovative studies of anatomy, fossils, birds, the heart, flying machines, botany, geology, and weaponry. He explored the math of optics, showed how light rays strike the cornea, and produced illusions of changing perspectives in The Last Supper. His ability to stand at the crossroads of the humanities and the sciences, made iconic by his drawing of Vitruvian Man, made him history’s most creative genius. In the “luminous” (Daily Beast) Leonardo da Vinci, Isaacson describes how Leonardo’s delight at combining diverse passions remains the ultimate recipe for creativity. So, too, does his ease at being a bit of a misfit: illegitimate, gay, vegetarian, left-handed, easily distracted, and at times heretical. His life should remind us of the importance to be imaginative and, like talented rebels in any era, to think different. Here, da Vinci “comes to life in all his remarkable brilliance and oddity in Walter Isaacson’s ambitious new biography...a vigorous, insightful portrait” (The Washington Post).

Leonardo Da Vinci Charles Nicholl, 2005-04-07 Leonardo is the greatest, most multi-faceted and most mysterious of all Renaissance artists, but extraordinarily, considering his enormous reputation, this is the first full-length biography in English for several decades. Prize-winning author Charles Nicholl has immersed himself for five years in all the manuscripts, paintings and artefacts to produce an 'intimate portrait' of Leonardo. He uses these contemporary materials - his notebooks and sketchbooks, eye witnesses and early biographies, etc - as a way into the mental tone and physical texture of his life and has made myriad small discoveries about him and his work and his circle of associates. Among much else, the book identifies what Nicholl argues is an unknown portrait of the artist hanging in a church near Lodi in northern Italy. It also contains new material on his eccentric assistant Tomasso Masini, on his homosexual affairs in Florence, and on his curious relationship with a female model and/or prostitute from Cremona. A masterpiece of modern biography.

Leonardo Da Vinci Biography Bio Book David Right, 2017-11-25 Born on April 15th, 1452 as the illegitimate son of Piero da Vinci and a peasant girl, Caterina in Florence in Italy, Leonardo was educated to be a painter. He started his career in Milan and later worked in Rome, Bologna and Venice. He spent his last years in France and died at the ripe old age of 67 Years on May 2nd, 1519. Widely popular as the Renaissance man, Leonardo was a man of infinite curiosity and talent. He is rightly considered to be the greatest painter of all times and definitely one of the most talented persons to have ever lived. The Painter Even today three of his works namely the Mona Lisa, The Last Supper and the Vitruvian Man are extremely famous and well known. These three are the most copied and reproduced works of all times. All three paintings are part of the recent bestseller The Da Vinci Code by Dan Brown and a blockbuster movie of the same name. Apart from these three he also famous for Virgin of the Rocks, The Adoration of the Magi, The Virgin and Child with St Anne and St John the Baptist, Baptism of the Christ etc. His works find a place of honor in museums around the world and the churches of the Vatican City. The Engineer It was as an engineer that he was valued when he was alive. Among his inventions were plans to create all sorts of machinery for protection of a city and siege, diverting the flow of rivers, musical instruments, hydraulic pumps, steam cannons, machine for testing the tensile strength of wires, more than 700 foot bridges, a light hand glider and a helicopter! The Scientist As he was a successful artist he got permission to dissect dead human bodies and study them. He studied the human anatomy in detail and came up with more than 200 drawings explaining it to the masses. He also studied the anatomy of frogs, birds, cows, bears and monkeys and compared them with humans. The Enigma Leonardo has to date remained an enigma primarily because of his non conservative paintings where he portrayed things not exactly as they were in the bible and his ability to write long hand as an exact mirror image so that no one could read what he had written without using a mirror. Questions have been raised about his religious views, his sexual preferences, his heading secret societies but the fact remains that the man remains an enigma. Still Famous - The Legend Grows The legend of Leonardo da Vinci has been growing with time. Not only his paintings (he was not a very prolific painter) but also his inventions are catching the world's

eye. The interest in Leonardo's genius has continued to grow with experts studying his various areas of interest. Liana Bortolon, writing in 1967, said: Because of the multiplicity of interests that spurred him to pursue every field of knowledge ... Leonardo can be considered, quite rightly, to have been the universal genius par excellence, and with all the disquieting overtones inherent in that term. Man is as uncomfortable today, faced with a genius, as he was in the 16th century. Five centuries have passed, yet we still view Leonardo with awe Even today best sellers are written and movies made with the central plot revolving around Leonardo da Vinci and his painting and inventions. Such is his presence in Italy even to the day that when the old Rome Ciampino airport was replaced by a large new airport about 35 kilometers from Rome's historic city center, it was named The Leonardo Da Vinci Airport. It was officially opened on January 15th, 1961 and is currently the largest airport in Italy and the second largest international air gateway in the world. Leonardo da Vinci's works are even more popular now than they were when he was alive and continue to draw more and more people towards them. As we understand his works better now, his influence over us increases and we realize that even in the modern era there is hardly anyone who is as intelligent, gifted and futuristic as him.
