James Alan Montgomery

The Magical Seals of Solomon: a Beginners Guide Chace Ryan,2017-04-05 The Seals of Solomon are pentacles that have their origin in the 6th and 7th book of Moses. They are used for spells and witchcraft and are very effective.

Sacred Images and Sacred Power in Byzantium Gary Vikan,2024-10-28 In these studies Gary Vikan has opened new perspectives on the daily life and material culture of Late Antiquity - more specifically, on icons and relics, and on objects revealing of the world of pilgrimage, the early cult of saints, and marriage. He contextualizes these familiar categories of object in the patterns of belief and ritual extracted from contemporary texts and the objects themselves, in order to understand their meaning within the everyday lives of those by whom and for whom they were made. The studies give a nuanced delineation of the inherently ambiguous boundary between conventional religion and magic, noting repeatedly those instances wherein the two are invoked in the same breath (and by way of the same art object), toward the same end. From this historically constructed matrix of art, belief, and ritual, the author derives an anthropologically defined paradigm of charisma and pilgrimage (applied in one essay, as an intriguing parallel, to deconstructing the world of a contemporary secular saint, Elvis Presley).

The Seal of Solomon K. T. Tomb,2016-08-24 The legend: The Seal of Solomon, the ancient signet ring of King Solomon, is said to possess supernatural powers-powers that allowed him to control demons, spirits, angels and other paranormal beings. Indeed, the ring may have helped King Solomon to become the greatest king in history... In the sixth exciting novel of this treasure-hunting series, Simon Kessler sends Thalia Phoenix and her brother, Jonathan, to Marseille, France, to examine the enigma-an ancient series of riddles containing clues that could lead to treasures and artifacts. However, their research is cut short by a terrorist attack. Now, a man is dead, and the enigma has been stolen.

Solomons Temple William Hamblin,David Seely,2007-06-12 The Temple of Solomon has been a source of fascination and spiritual reverence for over three thousand years, from its Bronze Age antecedents in the shrines of nomadic tribes, through countless permutations in Judaism, Christianity and Islam. This lively account is guaranteed to intrigue everyone with a sense of history, both real and imagined. The building itself was destroyed more than once, on the last occasion by the Romans, yet the great church of Hagia Sophia, the Dome of the Rock, the headquarters of the Templars and numerous medieval cathedrals were all conceived as symbolic re-creations of the original. Mystics of all faiths had visions of a celestial Temple where divine secrets would be revealed to mankind. Solomon's Temple: Myth and History draws on holy texts and mystic writings, works of art and architecture, modern reconstructions and photographs to unravel both scholarly histories and the more speculative modern myth-making of tales like The Da Vinci Code and Raiders of the Lost Ark.
