**Creation and Complexity** Christine Ledger,Stephen Pickard,2004 Creation and Complexity are two themes that draw the sciences and theology together. The remarkable advances of science in the modern period have opened up new knowledge and revealed ever deepening layers of complexity in the world from the cosmic macro level to the micro world of quantum. There seems no end to the rich tapestry of the cosmic order and process. A science of complexity has been spawned. The discoveries of the sciences have been matched in the twentieth century by a renewal in the doctrine of creation. Behind this lies a renaissance in trinitarian thinking which offers fresh insight into the dynamic of God in creation - past, present and future. The complexity of the triune God in creation find echoes in the rich complexity of the world uncovered by the contemporary sciences. This book explores the nature of complexity in God's creation.

Faith and Freedom David Neville,Philip Matthews,2003 Australian Christians, like Christians in many societies, live in a pluralistic culture. This makes the issues of faith, freedom and their interrelationship all the more critical. In a pluralist context, Christian faith and freedom must be expressed and embodied in a coherent rather than discordant way. The authors of these reflections on key ethical concerns represent the Anabaptist, Anglican, Baptist, Lutheran, Methodist, Presbyterian, Roman Catholic and Uniting Church traditions, yet there is a harmony within this plurality of theological and ecclesiological voices. Contributors include: John Howard Yoder, Charles Birch, Stanley Hauerwas, and Thorwald Lorenzen.

Shaping a Colonial Church Colin Brown,Marie Peters,Frances Jane Teal,2006 Henry John Chitty Harper was the first Bishop of the Anglican Diocese of Christchurch. To mark the 150th anniversary of his arrival in 1856, ten experienced historians tell the story of the setting up of a branch of the Church of England in a new colony. They highlight the people - bishop, clergy, lay people, including Maori-who shaped this story. New research on the rich records left by Harper and other allows the authors to illuminate in fresh ways the process by which the English church model was adapted, at least in part, to a very different land. By the time of Harper's retirement in 1890, the diocese was arguably the most successful in New Zealand. The story is set in a wider context of the evolution of provincial and colonial society and the development of the Anglican church, both in New Zealand and worldwide. Written for a general readership, *Shaping a Colonial Church* is generously illustrated, many of the photographs being published here for the first time.

*Christian Theology and Market Economics* Ian Rainy Lance Harper,Samuel Gregg,2008 This unique work has a historical time-span reaching from Aristotle to the modern day, thus appealing to those interested in the history of ideas and economic thought as well as the links between theological and economic thought.
