Storia dell'Italia repubblicana (1946-2018) Giorgio Vecchio, Paolo Trionfini, 2019

The Oxford Handbook of Italian Politics Erik Jones, Gianfranco Pasquino, 2015 The Oxford Handbook of Italian Politics provides a comprehensive look at the political life of one of Europe's most exciting and turbulent democracies. Under the hegemonic influence of Christian Democracy in the early post-World War II decades, Italy went through a period of rapid growth and political transformation. In part this resulted in tumult and a crisis of governability; however, it also gave rise to innovation in the form of Eurocommunism and new forms of political accommodation. The great strength of Italy lay in its constitution; its great weakness lay in certain legacies of the past. Organized crime--popularly but not exclusively associated with the mafia--is one example. A self-contained and well entrenched 'caste' of political and economic elites is another. These weaknesses became apparent in the breakdown of political order in the late 1980s and early 1990s. This ushered in a combination of populist political mobilization and experimentation with electoral systems design, and the result has been more evolutionary than transformative. Italian politics today is different from what it was during the immediate post-World War II period, but it still shows many of the influences of the past.

Spanish-Italian Relations and the Influence of the Major Powers, 1943-1957 Pablo Del Hierro Lecea, 2014-12-03 Spanish-Italian Relations and the Influence of the Major Powers examines complex relations between Spain and Italy, beginning in 1943 and continuing until 1957, contending that the relationship cannot be examined in isolation and must be understood in its broader context.

A Fatal Attraction Cinzia Padovani, 2005 Cinzia Padovani takes an in-depth look at Italian public service broadcasting, covering its history, its role in Italian society, its relationship to the political party system, and its influence on cultural and linguistic unification in Italy.

Italy in the Modern World Linda Reeder, 2019-12-12 Providing a comprehensive history of Italy from around 1800 to the present, *Italy in the Modern World* traces the social and cultural transformations that defined the lives of Italians during the 19th and 20th century. The book focuses on how social relations (class, gender and race), science and the arts shaped the

political processes of unification, state building, fascism and the postwar world. Split up into four parts covering the making of Italy, the liberal state, war and fascism, and the republic, the text draws on secondary literature and primary sources in order to synthesize current historiographical debates and provide primary documents for classroom use. There are individual chapters on key topics, such as unification, Italians in the world, Italy in the world, science and the arts, fascism, the World Wars, the Cold War, and Italy in the 21st century, as well as a wealth of useful features for students, including: * Comprehensive bibliographic essays covering each of the four parts * 23 images and 12 maps Italy in the Modern World also firmly places both the nation and its people in a wider global context through a distinctly transnational approach. It is essential reading for all students of modern Italian history.

The Force of Destiny Christopher Duggan, 2008 The first English language book to cover the full scope of modern Italy, from its official birth to today, The Force of Destiny is a brilliant and comprehensive study and a frightening example of how easily nation-building and nationalism can slip toward authoritarianism and war.

Storia linguistica dell'Italia repubblicana Tullio De Mauro, 2014-09-01 T00:00:00+02:00 La cultura e la lingua del nostro paese, due fattori primari per la sua vita, dai primi passi della Repubblica all'Italia del nuovo secolo. La svolta istituzionale e politica del 1946 rinnovò profondamente l'Italia, nel costume, nella cultura e nel linguaggio. Le città erano piene di cumuli di macerie, ma nella pace ritrovata le speranze prevalevano. In quel bisogno di esprimersi, la lingua comune fu chiamata a rispondere a una pluralità di impieghi e registri prima sconosciuta, e così accadde anche ai dialetti. Parte da questa volontà di nuovo la Storia linguistica dell'Italia repubblicana, che si propone di continuare fino all'oggi la Storia linguistica dell'Italia unita dedicata agli anni dal 1861 al secondo dopoguerra. Il libro racconta il quadro delle condizioni linguistiche e culturali del paese a metà Novecento: un paese contadino segnato da bassa scolarità, analfabetismo, predominio dei dialetti. Individua poi i mutamenti di natura economica, sociale, politica e le luci e le ombre di quel che è avvenuto nel linguaggio: largo uso dell'italiano nel parlare, ma continua disaffezione alla lettura, nuovo ruolo dei dialetti, scarsa consuetudine con le scienze, mediocri livelli di competenza della popolazione adulta, difficoltà della scuola. L'ultimo capitolo, infine, mostra come tutto ciò incida sui modi di adoperare la nostra lingua: sul vocabolario e la grammatica che usiamo, parlando in privato o in pubblico, o scrivendo testi giornalistici, amministrativi e burocratici, letterari o scientifici.

Historical Dictionary of Modern Italy Mark Gilbert,K. Robert Nilsson,2007 Italy is a country that exercises a hold on the imagination of people all over the world. Its long history has left an inexhaustible treasure chest of cultural achievement. The historic cities of Rome, Florence, and Venice are among the most sought-after destinations in the world for tourists and art lovers, and Italy's natural beauty and cuisine are rightly renowned. Italy's history and politics are also a source of endless fascination. Modern Italy has consistently been a political laboratory for the rest of Europe. In the 19th century, Italian patriotism was of crucial importance in the struggle against the absolute governments reintroduced after the Congress of Vienna, 1814-15. After the fall of Fascism during World War II, Italy became a model of rapid economic development, though its politics has never been less than contentious and its democracy has remained a troubled one. The second edition of Historical Dictionary of Modern Italy is an attempt to introduce the key personalities, events, social developments, and cultural achievements of Italy since the beginning of the 19th century, when Italy first began to emerge as something more than a geographical entity and national feeling began to grow. This is done through a chronology, a list of acronyms and abbreviations, an introductory essay, a map, a bibliography, and some 400 cross-referenced dictionary entries on prominent individuals, basic institutions, crucial events, history, politics, economics, society, and culture.
