Historia de Mexico I Inigo Fernandez,2005 This work has excellent presentation, brief, concise and based on what has been the past of our country, from the populating of America through 1821. Beginning with a constructive methodology on how the book was designed, the student can construct using his own objective vision of the facts and principal players of history. A color presentation covers 100% of the new program of The History of Mexico I, making it a very attractive presentation.

There is a CD for the professor containing all of the maps of the book. It has a new chapter, Methodology, concepts and didactics of History. Its didactic structure facilitates the learning of historical facts.

Pueblos originarios de América Susana Frank,2008

Historia de América Juan Bosco Amores,2006 Desde 1492, el continente americano -las Indias, el Nuevo Mundo o Cuarta Pars, como se le llamó durante más de un siglo- quedó unido al Occidente europeo, como consecuencia del impulso expansivo que, de un siglo atrás, experimentaban las monarquías ibéricas. La historia del continente quedó desde entonces estrechamente ligada a la de Europa, y allí se trasladaron las dos formas de la cultura cristiano-occidental en que quedó dividido el viejo continente tras la reforma protestante: la de base mediterránea -latina, católica y barroca-, y la anglosajona protestante-calvinista. La primera asimiló las altas culturas precolombinas de la América nuclear a través de un profundo proceso de mestizaje étnico y cultural, dando lugar a lo que recientemente se ha reconocido como una de las grandes civilizaciones mundiales, la de América latina; la segunda, con base principalmente en Norteamérica, ha llegado a liderar el mundo occidental en la historia reciente. El presente Manual ha sido redactado pensando principalmente en los alumnos de

la materia de Historia de América de la Licenciatura o Grado de Historia de las Universidades españolas, que deben conocer, en una apretada síntesis, toda la evolución de la historia del continente desde su poblamiento hasta los procesos recientes. Por razones obvias, nos ha parecido conveniente hacer hincapié en la América colonial hispana, pero también, de acuerdo con las últimas tendencias docentes e historiográficas, se dedica un amplio espacio a la etapa nacional o independiente de América latina y, para obtener una visión global o incluso comparativa, se ofrece una breve síntesis de la historia de la América anglosajona.

Orígenes del arte precolombino Terence Grieder,1987 La teoria de la cultura que aqui se ofrece es genetica, no en el sentido biologico, sino cuando las culturas se generan unas a otras. Como todo individuo, cualquier cultura es el producto tanto de la herencia de sus ancestros como de su propia adaptacion al medio. El meollo del libro esta en la herencia cultural y en los elementos transmitidos a traves de una larga serie de culturas que se suceden en el tiempo.
