

The Fifth Sacred Thing

Greta Claire Gaard, Patrick D. Murphy

The Fifth Sacred Thing Starhawk, 2011-08-10 An epic tale of freedom and slavery, love and war, and the potential futures of humankind tells of a twenty-first century California clan caught between two clashing worlds, one based on tolerance, the other on repression. Declaration of the Four Sacred Things The earth is a living, conscious being. In company with cultures of many different times and places, we name these things as sacred: air, fire, water, and earth. Whether we see them as the breath, energy, blood, and body of the Mother, or as the blessed gifts of a Creator, or as symbols of the interconnected systems that sustain life, we know that nothing can live without them. To call these things sacred is to say that they have a value beyond their usefulness for human ends, that they themselves became the standards by which our acts, our economics, our laws, and our purposes must be judged. no one has the right to appropriate them or profit from them at the expense of others. Any government that fails to protect them forfeits its legitimacy. All people, all living things, are part of the earth life, and so are sacred. No one of us stands higher or lower than any other. Only justice can assure balance: only ecological balance can sustain freedom. Only in freedom can that fifth sacred thing we call spirit flourish in its full diversity. To honor the sacred is to create conditions in which nourishment, sustenance, habitat, knowledge, freedom, and beauty can thrive. To honor the sacred is to make love possible. To this we dedicate our curiosity, our will, our courage, our silences, and our voices. To this we dedicate our lives. Praise for The Fifth Sacred Thing "This is wisdom wrapped in drama."—Tom Hayden, California state senator "Starhawk makes the jump to fiction quite smoothly with this memorable first novel."—Locus "Totally captivating . . . a vision of the paradigm shift that is essential for our very survival as a species on this planet."—Elinor Gadon, author of The Once and Future Goddess "This strong debut fits well against feminist futuristic, utopic, and dystopic works by the likes of Charlotte Perkins Gilman, Ursula LeGuin, and Margaret Atwood."—Library Journal

Storied Selves Chris A. Klassen, 2008-01-01 Storied Selves analyzes religion and spirituality from feminist theoretical perspectives, focusing particularly on the ways in which religion and spirituality incorporate politics. Klassen develops a discourse of technologies of identity that shows the multiple ways of constructing identity.

Ecofeminist Literary Criticism Greta Claire Gaard, Patrick D. Murphy, 1998 Ecofeminist Literary Criticism is the first collection of its kind: a diverse anthology that explores both how ecofeminism can enrich literary criticism and how literary

criticism can contribute to ecofeminist theory and activism. Ecofeminism is a practical movement for social change that discerns interconnections among all forms of oppression: the exploitation of nature, the oppression of women, class exploitation, racism, colonialism. Against binary divisions such as self/other, culture/nature, man/woman, humans/animals, and white/non-white, ecofeminist theory asserts that human identity is shaped by more fluid relationships and by an acknowledgment of both connection and difference. Once considered the province of philosophy and women's studies, ecofeminism in recent years has been incorporated into a broader spectrum of academic discourse. Ecofeminist Literary Criticism assembles some of the most insightful advocates of this perspective to illuminate ecofeminism as a valuable component of literary criticism.

Women Writers and the Occult in Literature and Culture Miriam Wallraven, 2015-06-05 Examining the intersection of occult spirituality, text, and gender, this book provides a compelling analysis of the occult revival in literature from the 1880s through the course of the twentieth century. Bestselling novels such as *The Da Vinci Code* play with magic and the fascination of hidden knowledge, while occult and esoteric subjects have become very visible in literature during the twentieth century. This study analyses literature by women occultists such as Alice Bailey, Dion Fortune, and Starhawk, and revisits texts with occult motifs by canonical authors such as Sylvia Townsend Warner, Leonora Carrington, and Angela Carter. This material, which has never been analysed in a literary context, covers influential movements such as Theosophy, Spiritualism, Golden Dawn, Wicca, and Goddess spirituality. Wallraven engages with the question of how literature functions as the medium for creating occult worlds and powerful identities, particularly the female Lucifer, witch, priestess, and Goddess. Based on the concept of ancient wisdom, the occult in literature also incorporates topical discourses of the twentieth century, including psychoanalysis, feminism, pacifism, and ecology. Hence, as an ever-evolving discursive universe, it presents alternatives to religious truth claims that often lead to various forms of fundamentalism that we encounter today. This book offers a ground-breaking approach to interpreting the forms and functions of occult texts for scholars and students of literary and cultural studies, religious studies, sociology, and gender studies.

Pagan and Witch Elders of the World Tamara Von Forslun, 2020-10-07 The Pagan or Witch Elder is a leader who has lead by example, and teaches their wisdom to those that will listen, they have cleared the path for those to follow. We must remember and know who these Spiritual and Magical Warriors were and are, some who are still fighting in the world for our acceptance and understanding. This book is filled with hundreds of Elders (some known and some not well known) who stood tall and fought the establishment with compassion and strength, endurance and wisdom, courage, and determination, to share an ancient knowledge that has been awakened by them in the 21st century. I write this book so that our Pagan community remembers and knows who these brave Spiritual Earth Warriors were and are, and what they have given, sacrificed, and shared for the future of our world. This book is to honour all our Elders, so they are never forgotten and

always honoured. MERRY WE MEET, MERRY WE PART, AND MERRY WE MEET AGAIN!

Feminist Rhetorical Theories Karen A. Foss, Sonja K. Foss, Cindy L. Griffin, 1999-03-02 Providing fully developed rhetorical theories from feminist perspectives, this book offers coherent, systematic overviews of complex, large bodies of work and ideas relevant to rhetoric and communication. The book presents theories developed from the work of nine feminist theorists, each from diverse standpoints demonstrating the diversity of both feminism and feminist rhetorical theories - Chris Kramarae, Bell Hooks, Gloria Anzaldua, Mary Daly, Starhawk, Paula Gunn Allen, Trinh T Minh-ha, Sally Miller Gearhart and Sonia Johnson. The resulting theories differ substantially from traditional rhetorical theories, and will encourage scholars to rethink many traditional rhetorical constructs.

The Sign of the Witch David Waldron, 2008 The witch is a uniquely powerful image in Western society. It is a symbol alternately vilified, ridiculed and idealised by differing sectors of society and is a powerful symbol in Western mythology. This book traces the evolution of the modern representations of Witchcraft and Paganism from the popular imaginings of witchcraft in 16th-century England to their contemporary manifestations amongst neo-Pagan and Wiccan religious movements in America, Australia and Great Britain today. Tracing how this symbol is continually constructed and reconstructed by the neo-Pagan movement is indicative of broader social, political and cultural issues arising out of the interaction of Romantic and Enlightenment epistemes in Western society. Central to this process is the locating of representations of witchcraft within the twin discourses of romanticism and enlightenment modernity. Beginning with the aftermath of the English witch hunting craze of the 17th century, the book examines how the witch transformed from a symbol of ridicule during the enlightenment to an idealised symbol of romantic rebellion which led to its systemic adoption by romantic religious and political movements. Along the path it examines the development of the neo-Pagan movement from 19th-century Romantic pagan revivals, to Gardner's Wiccan movement, the sixties counter culture, the rise of eco-feminist

neo-Paganism and the contemporary phenomena of teen witches and pop commercialization. This book is part of the Ritual Studies Monograph Series, edited by Pamela J. Stewart and Andrew Strathern, Department of Anthropology, University of Pittsburgh. Modern Paganism is still in the process of finding its history. Dr. Waldron brings to the quest a very wide knowledge of all aspects of the subject and a good grasp of cultural theory. He is fair to all the players in a notoriously complex and fractious field, and covers it deftly and evenly, deploying his learning and his intellectual models with a light but sure touch. -- Ronald Hutton, Professor of Historical Studies, Bristol University Waldron's identification and critique of the core aspects of the modern Witch's identity provide what should be seen as an invitation for practitioners to remove our rose-coloured glasses approach to our own history and instead to take on board the results of rigorous investigation. For the general public, by whom Witches are so often misunderstood, an academic examination of the movement can only enhance the likelihood of tolerance and understanding that are the essence of religious pluralism. -- Caroline Tully, Witchcraft Magazine David Waldron has done the scholarly community, neo-Pagans, and anyone interested in the study of neo-Paganism and Witchcraft a great service with this volume. In addition to its historical, cultural, and social overview of the subject matter, it makes for an interesting study in the construction of identities and symbolism within witchcraft. I highly recommend this book. -- John W. Morehead, Senior Editor, Sacred Tribes Journal and Director, Western Institute for Intercultural Studies [Waldron] does an excellent job of summarizing the history of the English witch trials, their end, and the development and commercialization of the witchcraft and Pagan movements. The book will be useful for those who want to begin exploring that history as well as to scholars of ideas who want to consider and investigate his basic thesis of the relationship between the Romantic and the Enlightenment epistemes. -- Helen A.
