Word Natan Last, 2012-01-01 Created by Natan Last, a senior at Brown University, three-time intern with Will Shortz, and in 2008 the youngest person to have a puzzle published in the Sunday New York Times, Word kicks the crossword puzzle squarely into the 21st century for a new generation of puzzle-lovers, replacing fusty crossword-ese with hip cultural references, modern wordplay, and a lively mix of high-and low-brow pop trivia. A Word puzzle begins with the shared knowledge of a literate but not-so-reverent generation, and celebrates the knowingness with a deft touch. Your parents' crosswords make solvers feel smart. Word puzzles make solvers feel smart and cool, getting the references to The Daily Show, Mario Brothers, the Goo Goo Dolls, and a hefty dose of nostalgia (the name of the motel in Psycho). But they also know the core curriculum: Charlotte Bronte's Jane, Roman generals, Berlioz and von Bismarck, Homer—and not just Homer Simpson. The puzzles are constructed with all the smarts of a daily Times crossword: themes, interconnected clues, titles that unlock the overall puzzle (solve all the clues and the circle letters will spell out a famous name at Hogwarts). Assisting Mr. Last is a group of five more top “under 25” constructors, all of whom have published puzzles in The New York Times.

Teaching Faith with Harry Potter Patricia Lyons, 2017-05 - Sought-after resource for using the themes of Harry Potter in the faith formation arena - Resource for parish retreats, confirmation, education, and multi-generational settings - Study Guide included

Harry Potter's World Wide Influence Diana Patterson, 2009-10-02 The Harry Potter series forms a single epic story that has been published in nearly 70 languages, and has been examined in a large number of disciplines. This collection of essays contributes to the scholarly discourse that forms Potter Studies. These essays take on the consideration of Rowling's work as being worthy of study as a phenomenon and influence, as well as a work of literary value. They add genuine statistical information about the reasons for the books' popularity, consider their effects on child readers, and examine some deep-rooted reasons for their having been manipulated in American publishing, in film adaptations, in musical complements, and in their thingification in popular culture around the world. Some of these essays take on the critics of the books' religion and considerations of psychological, as well as philosophical good and evil, and well as some stylistic anomalies. The fact that scholars from China, Germany, Poland, Romania, and Israel, in addition to English-speaking nations, have felt compelled to examine these books in detail testifies in part to Harry Potter's world-wide influence.

Literary Allusion in Harry Potter Beatrice Groves, 2017-06-14 Each chapter of *Literary Allusion in Harry Potter* consists of an in-depth discussion of the intersection between Potter and a canonical literary work; a discussion which aims to transform the reader's understanding of Rowling's literary achievement as well as to encourage wider reading and discovery of writers with who they may not be familiar.

A Tale of Two Villains Calvin H. Cherry, 2022-10-18 Prepare to be delightfully surprised to discover that the godfather of all vampires and the infamous dark wizard share a deep character bond that goes far beyond the title 'monster.' Be intrigued to uncover what a coffin and a horcrux share or to dig further to unearth that the often-overlooked scars which Bram Stoker wrote of in Victorian England are just as significant as those described by J. K. Rowling in the modern era. Indeed, it cannot be a mere coincidence that Dracula was hurt in 1897 and 100 years later, Harry is too. Bookshelves and

databases are full of fascinating sources celebrating the supernatural worlds created by beloved authors Bram Stoker and J.K. Rowling. The millions of fans of Dracula and Harry Potter consist of all age groups and varied enthusiasm, ranging from a curious reader or leisure cinema observer to seriously devoted academic scholars. However, followers of each universe have been chiefly segregated - rarely mingling apart from an occasional culture convention, widely dominated by Star Wars, Star Trek, and Marvel heroes' groupies. This is most unfortunate because Stoker and Rowling readers have a lot in common. This is because Count Dracula and Lord Voldemort have much in common. In fact, these two internationally acclaimed bestselling novels possess a remarkable kinship. A Tale of Two Villains is a love letter to both sets of fans paying homage to two superb authors and their extraordinary respective works. It is the first text to set both masterpieces on pedestals, side by side, analyzing the words on the page and the thoughts behind them - exploring their similar themes, unique parallelism, and mystical symbolism. The author delves profoundly into the interesting characters, their traits, conflicts, and motivations, to show how literary art is born. This book is a must have for any Stoker or Rowling reader, as it is the first of its kind ever published.

Whiteboard Swaminathan Kathiresan,2019-03-20 Whiteboard is a collection of wonderful quotes and thoughts of people from all walks of life. Their words of wisdom can be a guiding light to all of mankind. Their quotes can be a great support in all our journeys of life! Just like the human body, which needs good food for nourishment, the human soul needs nourishment in the form of good thoughts. This book is a collection of good thoughts that can transform our life. The quotes have been explained in detail and other important topics have been discussed. This is a book that will help everyone in their effort to become better human beings! Excerpts from the book, Nourishment: The human system is composed of three components namely body, mind and soul. And when it comes to nourishment, we only think about the nourishment for the body. The other components like mind and soul can also be nourished for maintaining the optimum health of the system. When it comes to body, we know that good and healthy food will provide nourishment to the body. And the topic of food is very well researched and a lot of information is already available regarding general food guidelines and how they help us to keep the body healthy. But the nourishment for the mind and soul is always ignored since we think that these components do not need nourishment.Though these components can very well sustain with the nourishment provided for the body, these components can actually be strengthened and made better by providing special nourishment. So, let us take a look at the different ways to nourish the mind and the soul. Mind can be nourished by good thoughts. And soul can be nourished by good actions.... In our moments of pain, we find our greatest power lying within us - This quote highlights the significance of pain, in making us access the immense power that resides within each one of us. Each one of us is blessed with extraordinary power within us and we neither use it nor realise the existence of that power. Only in our moments of pain, do we begin to access that power in an effort to overcome pain. And when we begin to access it, we realise that we all have great power within us and we can

do great things when we access it. And pain is the stimulus that puts us on this path of self-discovery. This power will make us strong and also help us grow into better human beings. Transformation is a gradual process - This quote highlights the importance of time that is needed to make a change in our life. When we are making efforts to change ourselves to become a better person, we need to be patient to see the results. We will be making efforts to quit habits, cultivate new habits and make new efforts. And it will not be easy to sustain the new habits since the old habits die hard and they will try to come back into our lives. We have to persevere and keep at it, in order to totally get rid of the old habits and keep the new habits. This will be very hard in the initial stages since we cannot sustain the efforts for a long time. We can make the efforts for one or two days and then the old habits will be back with a vengeance to reclaim you. And sometimes we win, and sometimes they win. We should not give up even if we slip a few times. We should keep up our efforts and show consistency for a significant period of time. Then slowly we will begin to notice that the old habits are losing their hold on us. Now, it will be possible to get out of the old habits and cultivate new habits that can change our lives for the better. These thoughts can wake us up from our slumber and help us to achieve our true potential. They also give us a fresh perspective in life and help us to see the larger picture. They also help us to rearrange our priorities in life. And definitely they can help us in making our life successful and happy!
