John Greenfelder Sullivan

[The Great Sweetening: Life After Thought](#) Jan Frazier, 2016-01-31 Jan Frazier experienced a radical transformation of consciousness at age fifty, in 2003. Her teachings are drawn from direct experience, relying on no particular tradition or set of beliefs. *The Great Sweetening: Life After Thought* invites the spiritual seeker to ask What am I? Am I what my ego and mind tell me I am? Or am I consciousness itself? This collection of essays explores how the sense of self is created by thought patterns, memory, and beliefs. Frazier gently shows how the ego uses the mind to keep this self seeming real and worthy of the enormous attention it receives. She offers helpful guidance about how to relate to mental activity so that painful thoughts no longer imprison. The compelling reality of the self thus begins to soften, making it possible to sense the larger reality within every person. The profound peace that is universally longed for is innate to our humanity. It's only because the mind-made self seems to be what we are that this sense of well-being is not realized, not experienced in moment-to-moment life. Frazier's first book, *When Fear Falls Away: The Story of a Sudden Awakening* (Weiser Books, 2007), is an account of her awakening, as it unfolded over the first eighteen months. *The Freedom of Being: At Ease with What Is* (Weiser Books, 2012) offers guidance toward the reduction of suffering and the prospect of radical freedom. Both books are available in paperback and eBook. *Opening the Door: Jan Frazier Teachings on Awakening* is an eBook collection of essays on the nature of spiritual awakening. The book opens the reader's awareness to the possibility of a richly human life, beyond what appears possible to the ego and the mind. The teachings point to unresisting present-moment attention, where the truth of existence is known.

The Painting Path Linda Novick, 2012-08-10 Discover the creativity that lies hidden within you—and express it! “Painting—because it is such a flexible and adaptable form of art—gives us unparalleled freedom to express what we are feeling. Through colors, forms, lines, even fabrics, we can tap into our deepest emotions and thoughts; we can access our very source. Given this opportunity, we unburden our spirits and are freed to express ourselves.” —from the Introduction What can you learn about yourself through painting? How can a piece of artwork reflect your own personality, beliefs and values? How can touching brush to canvas help you portray something about yourself that is otherwise inexpressible? Delve into these questions and more in this imaginative, creative resource. Professional artist and beloved teacher Linda Novick leads you on an exploration of the divine connection you can experience through art. Each chapter includes a simple yoga-inspired breathing and stretching exercise to focus your mind and refresh your body, along with an original art project that

helps you explore a theme essential to both your creativity and your spirituality. Whether you're a painting novice or an accomplished artist, no matter your faith and background, this engaging book has a place for you. Experience the joy of unbridled creativity!

Dialogues with Michael Eigen Michael Eigen, 2019-07-22 Dialogues with Michael Eigen spans 20 years of diverse interviews and interactions with the acclaimed psychologist Michael Eigen, including interlocutors from Italy, Spain, Portugal, Argentina, Sweden, Israel, and the United States, published together for the first time. This book explores the importance of soul reveries, psychoanalytic prayers, and cultivation of psychoanalytic faith in Eigen's work. The dialogues lay out Eigen's privileging of emotions as messengers in need of recognition, as welcoming inner gestures for incubation, enabling a deep vitalizing contact of being with oneself and others. Eigen reminds us that struggling with one's personality remains a life-long task, exposing us to various existential sufferings, agonies, traumas, and losses in need of soul confession, if not analytic prayer. The book seeks to help readers find, touch, and work with emotional realities a little better and support a growing intimate, creative relation to ourselves. The rich explorations of the interviews and interactions with Eigen help contribute to further appreciation of our experiential life and worlds it opens. Building on his work on mind-body-soul connections, Dialogues with Michael Eigen is an essential book for anyone interested in the spiritual side of psychoanalysis.

Under the Totem Michael Eigen, 2018-05-08 This book is an extended reverie, reflection, confession, assessment, engagement with psychic reality. It offers further invitation into the mystery at the heart of the human experience that is, at its core, also at the heart of the psychoanalytic journey.

Take the Plunge Timothy Radcliffe, 2012-04-19 Take the Plunge explores baptism, showing how it touches the deepest dramas of human life. Timothy Radcliffe holds a unique position in the modern Catholic Church. As Master of the Dominican Order in Rome for nine years, he held one of the most senior and influential appointments the Catholic Church has on offer. But he is a member of an Order of Preachers and is thus truly apostolic. The order's motto consists of one word, Veritas (Truth), and it is the vigorous pursuit of intellectual and emotional truth which is the hallmark of his writing. This new book will not disappoint his admirers. Here, Fr Radcliffe argues that Christianity will only thrive today, overcoming the challenges of secularism and religious fundamentalism, if we rediscover the beauty of baptism. It touches the deepest dramas of human life: birth, growing up, falling in love, daring to give oneself to others, searching for meaning, coping with suffering and failure, and eventually death.

Jacob` Ladder Towards Evolving, Wise Civilization Beyond Sapiens Benjamin Katz, 2022-10-20 This book presents a sort of a climbing up to a complex, contextual knowledge of who you and we are, what makes us destroy our life prospects and how to come over this hurdle which is built up in our minds/brains. The book presents thus an understanding of the human condition/nature and a way to transcend and evolve beyond these self defeating mechanisms to a new, upgraded

Karma Sutra- Adventure Of A Street Bum Rajendra Menen,2012-01-18 Karma Sutra is a powerful document of the Indian street - a journey into the murky urban underbelly. It tells the stories of those who live on - and off - the street, an amazing cast of characters that includes sex workers, bar girls, hijras, Devadasis, drug addicts, runaways, migrants, hustlers, the homeless, the dying, the abandoned.;Pulsating with raw realism and energy, the book tells gripping, heroic stories of heartbreak and hope, of exploitation and the will to survive. The stories echo the vibrance of George Orwell's classic description of poverty and low-life in Down and Out in Paris and London, so that one can actually smell and feel the street, and all its risks and dangers.

September 11 Lauren Tratar,2002 Compelling evidence suggests that a deeper meaning underlies the terrorist attacks of September 11; that humanity received a 9-1-1 emergency wake-up call on that infamous day. If heeded, this wake-up call will not only catalyze the dawning of a magnificent era for humankind, but alleviate much of the pain, anguish, and suffering that

has a part of our existence for such a long time. Ancient prophecies, the mysterious 'Bible Code', and Dead Sea Scrolls share a common theme: From 1989-2012 humankind would undergo the most radical shift in awareness ever experienced in this world. Mysteries would be revealed that have long baffled mankind, a more expansive version of truth unveiled. Why now? We've arrived at a crisis point in the evolution, one where we have acquired vast power, but lack critical knowledge to use it wisely, thereby creating the potential to destroy our world and humanity. The time has come to heed the ancient truths destined to be revealed at this pivotal moment in history; truths corroborated by Quantum Physics; truths essential to move into the future with hope, peace and empowerment.
