Academic Skills through Cases in American Studies Екатерина Талалакина, Ирина Якушева, 2015-04-10 'Academic Skills through Cases in American Studies' is aimed at ESL college students at the Intermediate-high through Advanced levels of language proficiency. It is designed around eight country-specific (U.S.) cases that develop academic skills tested on international exams. The book covers major topics in the areas of academic reading, speaking and writing. Thus, the targeted learning outcome is two-fold: 1) to explore topical issues in American studies and 2) to master key academic skills. The content of the articles in each unit is selected according to the language needs of students majoring in economics, sociology, political science, and the like. The book can be used both as a supplement to a course in American Studies or as a separate curriculum within an academic skills course.
