

Giovanni Carlo Federico Villa

Nebahat Avcioglu

"Architecture, Art and Identity in Venice and its Territories, 1450-1750 " Nebahat Avcioglu, 2017-07-05 Cities are shaped as much by a repertoire of buildings, works and objects, as by cultural institutions, ideas and interactions between forms and practices entangled in identity formations. This is particularly true when seen through a city as forceful and splendid as Venice. The essays in this volume investigate these connections between art and identity, through discussions of patronage, space and the dissemination of architectural models and knowledge in Venice, its territories and beyond. They celebrate Professor Deborah Howard's leading role in fostering a historically grounded and interdisciplinary approach to the art and architecture of Venice. Based on an examination and re-interpretation of a wide range of archival material and primary sources, the contributing authors approach the notion of identity in its many guises: as self-representation, as strong sub-currents of spatial strategies, as visual and semantic discourses, and as political and imperial aspirations. Employing interdisciplinary modes of interpretation, these studies offer ground-breaking analyses of canonical sites and works of art, diverse groups of patrons, as well as the life and oeuvre of leading architects such as Jacopo Sansovino and Andrea Palladio. In so doing, they link together citizens and nobles, past and present, the real and the symbolic, space and sound, religion and power, the city and its parts, Venice and the Stato da Mar, the Serenissima and the Sublime Port.

Architecture, Art and Identity in Venice and its Territories, 1450-1750 Dr Nebahat Avcioglu, 2013-12-23 Inspired by Deborah Howard's leading role in fostering a historically grounded and interdisciplinary approach to the art and architecture of Venice, the essays here examine the connections and rapports between art and identity through the discussion of patronage, space (domestic and ecclesiastical), and dissemination of architectural knowledge as well as models within Venice, its territories and beyond.

Hidden Faces: Covered Portraits of the Renaissance Alison Manges Nogueira, 2024-04-02 Many small Renaissance portraits were richly adorned with covers or backs bearing allegorical figures, mythological scenes, or emblems that celebrated the sitter and invited the viewer to decipher their meaning. Hidden Faces includes seventy objects, ranging in format from covered paintings to miniature boxes, that illuminate the symbiotic relationship between the portrait and its pair. Texts by thirteen distinguished scholars vividly illustrate that the other "faces" of these portraits represent some of the most innovative images of the Renaissance, created by masters such as Hans Memling and Titian. Uniting works that have in

some cases been separated for centuries, this fascinating volume shows how the multifaceted format unveiled the sitter's identity, both by physically revealing the portrait and reading the significance behind its cover.

The Endless Periphery Stephen J. Campbell, 2019-11-26 While the masterpieces of the Italian Renaissance are usually associated with Italy's historical seats of power, some of the era's most characteristic works are to be found in places other than Florence, Rome, and Venice. They are the product of the diversity of regions and cultures that makes up the country. In *Endless Periphery*, Stephen J. Campbell examines a range of iconic works in order to unlock a rich series of local references in Renaissance art that include regional rulers, patron saints, and miracles, demonstrating, for example, that the works of Titian spoke to beholders differently in Naples, Brescia, or Milan than in his native Venice. More than a series of regional microhistories, *Endless Periphery* tracks the geographic mobility of Italian Renaissance art and artists, revealing a series of exchanges between artists and their patrons, as well as the power dynamics that fueled these exchanges. A counter history of one of the greatest epochs of art production, this richly illustrated book will bring new insight to our understanding of classic works of Italian art.

Perfection Lorenzo Pericolo, Elisabeth Oy-Marra, 2019 Whether a painting, a sculpture, or a building, works of art in early modern Europe must achieve the highest degree of perfection. If in the Middle Ages perfection is mostly perceived as a technical quality inherent in craftsmanship--a quality that can be judged according to often unspoken criteria agreed upon by the members of a guild--from the fifteenth century onwards perfection comes to incorporate a set of rhetorical and literary qualities originally extraneous to art making. Furthermore, perfection becomes a transcendent quality: something that cannot be measured only in terms of craftsmanship. In the Baroque period, perfection turns into obsession as a result of the emergence of historical models of artistic evolution in which perfection is already historically embodied--in the first place, Vasari's investiture of Michelangelo as a universal canon for painting, sculpture, and architecture. This book aims to define, analyze, and reassess the concept of perfection in the arts and architecture of early modern Europe. What is perfection? What makes a work of art unique, emblematic, or irreplaceable? Does perfection necessarily relate to individuality? Is the perfect work connate with or independent from its author? Can perfection be reproduced or represented? How do artists react to perfection? How do post-Vasarian models of art history come to terms with perfection? To what extent perfection in early modern Europe is the matter of rhetoric, literary theories, theology, and even scientific observation?

Bibliographic Guide to Art and Architecture New York Public Library. Art and Architecture Division, 1980

The Catholic Periodical and Literature Index, 2009

St. Joseph in Italian Renaissance Society and Art Carolyn C. Wilson, 2001 Detecting numerous occasions when Joseph is invoked for protection from plague, foreign invasion, and threat to the Church, the author emphasizes the contemporary currency - in both theology and art - of the Maria-Ecclesia typology and concomitant conceptualization of St.

Joseph as heroic protector of Mary and the Church. Here challenged are the long-held view of the saint's unimportance prior to the Counter Reformation and old assumption that pre-Tridentine images were often intended to demean him.--BOOK JACKET.

Lorenzo Lotto Enrico Maria Dal Pozzolo,Miguel Falomir Faus,2018 Discover the expressive sensitivity and immediacy of Lorenzo Lotto's portraits in this sumptuous book, which accompanies the major exhibition at the Prado Celebrated as one of the greatest portraitists of the Italian Renaissance, Lorenzo Lotto uniquely portrayed a cross section of middle-class sitters, among them clerics, merchants and humanists. Lotto depicted men, women and children in compositions rich in symbolism and imbued with great psychological depth. The prominent addition of objects which hinted at the social status, interests, and aspirations of his subjects added meaning to each work. With the inclusion of documents that have survived from Lotto's own account books, this catalogue provides extraordinary insight into the artist's individualistic style and the people he portrayed.
