Legal Aspects of Sustainable Development Volker Mauerhofer, 2015-11-26 This book addresses legal aspects of sustainable development and offers the latest thinking on a wide range of current themes. By taking a cross-cutting approach, it adds considerably to the exploration of this emerging scientific field. Twenty-nine original contributions present innovative thoughts and replicable ideas from this exciting, new area, which will be of value to practitioners and researchers alike. These contributions are allocated into a horizontal and sectorial part. The section covering horizontal policies has five sub-parts: 1) general aspects; 2) human and intellectual property rights; 3) communication and social enterprise governance; 4) public participation and 5) assessment tools. The second part on sectorial policies also has five sub-parts: 1) forest and water management; 2) renewable energy; 3) cities, waste and material management; 4) biodiversity, nature conservation, oceans and spatial planning and 5) agriculture and rural policy. It offers a multifaceted discussion of sustainable development and law by authors from five continents and from both the public and the private sectors. This selection guarantees a broad view that presents the more theoretical arguments from the academic as well as the practical perspective. Furthermore, the authorship includes senior, highly experienced academics and practitioners as well as those at the start of their career. This ensures thoughtful expansions of established theories as well as the emergence of innovative ideas. Moreover, the ten sub-parts bring together likeminded thoughts, resulting in an exchange of different viewpoints on a similar theme. This allows the readers to concentrate on individual chapters, while at the same time discovering a variety of thoughts and ideas.

Victims of International Crimes: An Interdisciplinary Discourse Thorsten Bonacker, Christoph Safferling, 2013-07-09 In international law victims' issues have gained more and more attention over the last decades. In particular in transitional justice processes the victim is being given high priority. It is to be seen in this context that the Rome Statute for the International Criminal Court foresees a rather excessive victim participation concept in criminal prosecution. In this volume issue is taken at first with the definition of victims, and secondly with the role of the victim as a witness and as a participant. Several chapters address this matter with a view to the International Criminal Court (ICC), the Extraordinary Chambers in the Courts of Cambodia (ECCC) and the Trial against Demjanjuk in Germany. In a third part the interests of the victims outside the criminal trial are being discussed. In the final part the role of civil society actors are being tackled. This volume

thus gives an overview of the role of victims in transitional justice processes from an interdisciplinary angle, combining academic research and practical experience.

La educación superior: retos y perspectivas Orozco Silva, Luis Enrique, 2013-10-01 El debate sobre la reforma a la Ley 30 de 1992 se inició hace más de dos años y el proyecto gubernamental no ha logrado un consenso que permita darle un trámite exitoso en el Congreso. La concentración del debate en la financiación de la universidad pública y en la existencia o no de instituciones de educación superior con ánimo de lucro ha dejado en la penumbra de la discusión algunos temas centrales: la calidad de la estructura del sistema, los fundamentos y alcances de la intervención del Estado, los desafíos para el futuro en materia de financiamiento, etc. La Universidad de los Andes ofrece este libro para enriquecer el debate y poner en primer plano varios de estos puntos centrales.

Practicando mindfulness con niños y adolescentes Lara López Hernáez, 2019-09-26 Mindfulness significa concentrarse en el momento presente, observando objetivamente la respiración, las emociones, los pensamientos o las sensaciones físicas corporales, sin juzgar y sin reaccionar a lo que nos ocurre. Es una técnica universal, que deriva del budismo, pero depurada de dogmas sectarios. Su puesta en marcha tuvo lugar originalmente en ambientes clínicos, transfiriéndose más tarde a otros contextos educativos y sociales. Mindfulness nos abre la consciencia y nos cambia a nivel individual y colectivo, volviéndonos más compasivos y empáticos. Los estudios realizados sobre los efectos de mindfulness en diferentes países del mundo han encontrado múltiples beneficios de su puesta en práctica, en diferentes contextos y niveles. Biológicamente, se han obtenido transformaciones fisiológicas en el cerebro, unidas a un descenso en el estrés y ansiedad. En el entorno académico, cognitivo y emocional se han encontrado mejoras en la atención y concentración, autoestima, equilibrio emocional, autorregulación, empatía, relaciones con los demás y un mayor estado de bienestar y felicidad en general. Ha demostrado ser también una herramienta clave de ayuda para el profesorado, tanto en su vida personal y como profesional, ya que los que lo practican han reducido su agotamiento y falta de motivación, han mejorado en tareas de equipo y en las relaciones personales y han aumentado sus niveles de resiliencia y autorrealización. En este libro se muestran programas mindfulness llevados a cabo en el ámbito internacional y nacional, y el programa «Ser-consciente», creado por sus autoras. Con este programa se pretende sensibilizar sobre la importancia de mantener la atención consciente en la vida diaria. Sin embargo, también hay limitaciones de la puesta en marcha de mindfulness, ya que requiere de formación, práctica continuada y maduración personal. (cont.)

Civil Society and the State in Left-Led Latin America Barry Cannon, Peadar Kirby, 2012-10-11 Timely and unique, this innovative volume provides a critical examination of the role of civil society and its relation to the state throughout left-led Latin America. Featuring a broad range of case studies from across the region, from the Bolivian Constitution to participative budgeting in Brazil to the communal councils in Venezuela, the book examines to what extent these new initiatives are redefining state-civil society relations. Does the return of an active state in Latin America imply the incorporation of civil

society representatives in decision-making processes? Is the new left delivering on the promise of participatory democracy and a redefinition of citizenship, or are we witnessing a new democratic deficit? A wide-ranging analysis of a vital issue, both for Latin America and beyond.

Politics and Practices of Transborderism Mitxy Mabel Meneses Gutiérrez, 2026-01-20 What is it like to cross the Mexico-US border every day just to go to school? Imagine waking before dawn, crossing an international border alone and navigating a school system that wasn't built for you. This book follows former transborder learners—students who lived in Mexico before the pandemic and studied in the US—as they go about their daily routines. From militarised checkpoints to exclusive classroom dynamics, these young people reveal a border that is lived, felt and constantly negotiated. Through their voices, the book challenges dominant ideas of security and control, offering a powerful case for transborder policies rooted in care, connection and the everyday realities of youth who live between nations.

Este informe examina los marcos de gobernanza y capacidades para el gobierno digital, el sector público impulsado por los datos, el diseño y la prestación de servicios públicos y la innovación digital en el sector público. Migración interna y desarrollo en América Latina entre 1980 y 2005 Jorge Rodríguez Vignoli, Gustavo Busso, 2009 El estudio de este libro ratifica que la inmigración hacia las zonas más pujantes de los países es funcional para el desarrollo nacional y opera para las personas que migran. Sin embargo, su cara opuesta son las áreas de pobreza crónica y emigración pertinaz, para cuyos habitantes la dinámica de los mercados no parece ofrecer alternativas. En tiempos en que la migración interna se ve eclipsada por el agotamiento de la migración campo-ciudad y la creciente importancia de la migración internacional, los contenidos de este libro la vuelven a poner en el centro del debate.

South America and Peace Operations Kai Michael Kenkel, 2013-07-18 This volume is the first English-language work to focus specifically on South America in the context of peace operations. The region of South America has been undergoing significant changes recently with regard to its attitudes towards participation in peace operations. Leaving behind a strong reluctance with regard to intervention, the states have recently taken on a much stronger presence among UN peacekeepers. The foremost showcase of this more robust and responsible stance has been MINUSTAH, the current UN mission in Haiti. South American contributors provide over half the operation's troops, and the Force Commander is provided by Brazil. This

book is intended as an introduction for researchers to the nexus of issues surrounding South America's increasing influence as a contributor to peace operations. The authors provide the reader with a historically and theoretically grounded understanding of what motivates defence policy and decisions on intervention in the region. Featuring contributions from prominent thinkers in the field and a broad range of case studies, this volume successfully combines practical applicability with diversity of analysis. This book will be of much interest to students of peacekeeping, South American politics, peace and conflict studies, security studies and International Relations in general.

Market links between actors of the Honduran coffee supply chain: Challenges and opportunities Ceballos-Sierra, Francisco, 2023-02-14 Coffee is one of the major crops produced in Honduras. This country is the world's sixth largest producer and the largest producer in Central America. Its contribution to the economy cannot be over stated: it accounts for 5% of the national Gross Domestic Product (GDP) and 26% of the agricultural GDP. It is also the second most important source of foreign currency after international money transfers, bringing 1.165 million USD in the 2020/2021 harvest (IHCAFE 2021). Currently, up to 120,000 Honduran farmers produce coffee, 95% of which are smallholder farmers that produce less than 5000 pounds of coffee yearly (Christian Bunn et al. 2018). The sector employs an estimated 1.1 million people directly. Many more depend on it indirectly (Mogrovejo 2020). Its production is geographically dispersed, being grown in 15 of the 18 departments and in 221 of the 298 municipalities (IHCAFE 2021).
