*Organización, gestión y ejecución de proyectos industriales* Storch de Gracia, José María, Herrero Sánchez, Borja, 2018-09-01 El lector tiene en sus manos un libro circunscrito a la organización y gestión de proyectos industriales. El texto se enfoca a la industria Química, pero la forma en que los autores exponen, analizan y desarrollan los conceptos de la gestión de proyectos, lo hace también válido para otros tipos de industria, como la energética. Los objetivos de los proyectos son evaluar, proponer, contratar, diseñar, construir y arrancar una o varias plantas industriales capaces de

transformar unos bienes y servicios en otros de valor mayor. Ello no de cualquier manera, sino optimizando, a lo largo de la ejecución, la tensión entre precio, plazo y calidad. La obra se divide en dos partes. La primera aborda conceptos generales de la gestión de proyectos industriales, como son, por ejemplo: las estimaciones económicas, la planificación, el control de actividades, etc. La segunda parte desarrolla la secuencia normal en la ejecución de los proyectos partiendo de la propuesta técnica y económica, pasando por el diseño y la gestión de acopios hasta llegar a la construcción y la puesta en marcha de una planta industrial.

**Planificación de operaciones de manufactura y servicios** Gisela Patricia Monsalve Fonnegra, 2018-12-01 En este texto encontrarás; información sobre conceptos, teorías, técnicas y herramientas para planificación de sistemas productivos y de servicios; enfatizando en modelos determinísticos y exactos. Para ello, la autora da algunos ejemplos diseñados a partir de su experiencia profesional en gestión de operaciones, para su aplicabilidad en beneficio del mejoramiento empresarial.

*Indicadores de gestión humana y del conocimiento en la empresa - 1ra edición* Armando Cuesta Santos, Marino Valencia Rodríguez, 2014-02-01 Esta obra contribuye a que el gestor o consultor empresarial evidencie la mejora del desempeño empresarial mediante los contrastes de indicadores antes y después de la introducción de medidas o acciones para el mejoramiento empresarial, específicamente relacionadas con la Gestión Humana y del Conocimiento (GHyC). Es un texto que guía al lector para identificar los procesos de gestión humana claves de medición, así como para establecer parámetros de medición y evaluación de los procesos de la gestión humana; ya sea a través de variables cualitativas o cuantitativas que permitan verificar la situación generada entre un punto de control y la meta establecida (unidades, series, estadísticas, porcentajes?).

Diseño De Una Recicladora De Pet Uriel Humberto Durán Flores, 2013-09-30 En los últimos años el poli-etilen-tereftalato, mejor conocido como PET, se ha convertido en un Comoditie de alto valor y potencial en el mercado mexicano. La falta de

inters por parte de autoridades, productores y los consumidores, en responsabilizarse por el desecho de este producto, ha generado que existan grandes volmenes de este material en tiraderos, calles, ros, lagos, campos rurales y en general, en cualquier lugar de Mxico. Este libro expone una idea sobre cmo utilizar todo este material desaprovechado por medio de la creacin de una Recicladora de PET que sea sustentable y que por medio de estrategias basadas en la Cadena de Suministro del mercado del reciclaje, modelos matemticos basados en programacin lineal y una combinacin de modelos de planeacin estratgica con logstica inversa, se pueda formular un proyecto de inversin que represente una atractiva rentabilidad para todo aquel interesado en crear su propia empresa en el sector ambiental, particularmente el sector del reciclaje en Mxico.
