Manuale di pedagogia e di didattica - in continuità con il Manuale di pedagogia generale di cui riprende i nuclei tematici e problematici fondamentali - presenta una rinnovata riflessione sulla struttura epistemologica e sugli orientamenti più attuali della ricerca pedagogica e didattica. Ciò alla luce delle teorie della complessità e delle emergenze storico-culturali degli ultimi anni. Le categorie della differenza, del pluralismo metodologico, dello sviluppo formativo-trasformativo, della ibridazione tra i saperi e tra le culture, dell'apertura alla totalità delle scienze umane, dell'integrazione degli alfabeti - così come dei luoghi e dei tempi dell'educazione - propongono al lettore un'idea di pedagogia critica e problematica, mobile e in continuo divenire.

History of Universities Mordechai Feingold,2005-05 Volume XX/1 of History of Universities contains the customary mix of learned articles, book reviews, conference reports, and bibliographical information, which makes this publication such an indispensable tool for the historian of higher education. Its contributions range widely geographically, chronologically, and in subject-matter. The volume is, as always, a lively combination of original research and invaluable reference material.
