The Professor and the Madman Simon Winchester, 1998-08-26 Mysterious (mystérieux), a. [f. L. mystérium Mystery + ous. Cf. F. mystérieux.] 1. Full of or fraught with mystery; wrapt in mystery; hidden from human knowledge or understanding; impossible or difficult to explain, solve, or discover; of obscure origin, nature, or purpose. It is known as one of the greatest literary achievements in the history of English letters. The creation of the Oxford English Dictionary began in 1857, took seventy years to complete, drew from tens of thousands of brilliant minds, and organized the sprawling language into 414,825 precise definitions. But hidden within the rituals of its creation is a fascinating and mysterious story--a story of two remarkable men whose strange twenty-year relationship lies at the core of this historic undertaking. Professor James Murray, an astonishingly learned former schoolmaster and bank clerk, was the distinguished editor of the OED project. Dr. William Chester Minor, an American surgeon from New Haven, Connecticut, who had served in the Civil War, was one of thousands of contributors who submitted illustrative quotations of words to be used in the dictionary. But Minor was no ordinary contributor. He was remarkably prolific, sending thousands of neat, handwritten quotations from his home in the small village of Crowthorne, fifty miles from Oxford. On numerous occasions Murray invited Minor to visit Oxford and celebrate his work, but Murray's offer was regularly--and mysteriously--refused. Thus the two men, for two decades, maintained a close relationship only through correspondence. Finally, in 1896, after Minor had sent nearly ten thousand definitions to the dictionary but had still never traveled from his home, a puzzled Murray set out to visit him. It was then that Murray finally learned the truth about Minor--that, in addition to being a masterful wordsmith, Minor was also a murderer, clinically insane--and locked up in Broadmoor, England's harshest asylum for criminal lunatics. The Professor and the Madman is an extraordinary tale of madness and genius, and the incredible obsessions of two men at the heart of the Oxford English Dictionary and literary history. With riveting insight and detail, Simon Winchester crafts a fascinating glimpse into one man's tortured mind and his contribution to another man's magnificent dictionary.

The Professor and the Madman Movie Tie-in Simon Winchester, 2019-09-15 New York Times Bestseller Simon Winchester's classic about the making of the Oxford English Dictionary—soon to be a major motion picture starring Sean Penn and Mel Gibson. The making of the Oxford English Dictionary was one of the most ambitious projects ever undertaken. As definitions were collected, the overseeing committee, led by Professor James Murray, was stunned to discover that one man, Dr. W. C. Minor, had submitted more than ten thousand. But their surprise would pale in comparison to what they were about to discover when the committee insisted on honoring him. For Dr. Minor, an American Civil War veteran, was also an inmate at an asylum for the criminally insane. Masterfully researched and eloquently written, *The Professor and the Madman* is an extraordinary tale of madness, genius, and the incredible obsessions of two remarkable men that led to the making of the Oxford English Dictionary—and literary history. "The linguistic detective story of the decade.... Winchester does a superb job of historical research."—William Safire, *New York Times Magazine*

Sample Book Insights: #1 Murder is the most heinous form of criminal homicide. It is defined as the unlawful killing of a human being with malice aforethought. In English, murder is legally defined as the wilful murder of a human being. #2 In Victorian London, even in a place as crime-ridden as Lambeth Marsh, the sound of gunshots was a rare event. The marsh was a dark and sinister place, but the use of a firearm in the commission of a crime was still considered un-British. #3 Lambeth is a district in London that was home to the Lambeth Tragedy, which occurred in the early 1900s. It was a place of warehouses, tenant shacks, and miserable rows of ill-built houses. #4 George and Eliza Merrett were a couple from the countryside who moved to London. They met at a farm show in the Cotswolds, and vowed to leave together for the immeasurable possibilities offered by London. They first lived in north London, and in 1867, they moved to Lambeth.

The Man Who Forgave God ,

The Madman of Freedom Square Hassan Blasim,2013-12-03 **Long-Listed for the 2010 Independent Foreign Fiction Prize** From hostage-video makers in Baghdad, to human trafficking in the forests of Serbia, institutionalised paranoia in the Saddam years, to the nightmares of an exile trying to embrace a new life in Amsterdam... Blasim's stories present an uncompromising view of the West's relationship with Iraq, spanning over twenty years and taking in everything from the Iran-Iraq War through to the Occupation, as well as offering a haunting critique of the post-war refugee experience. Blending allegory with historical realism, and subverting readers' expectations in an unflinching comedy of the macabre, these stories manage to be both phantasmagoric and shockingly real, light in touch yet steeped in personal nightmare. For all their despair and darkness, though, what lingers more than the haunting images of war, or the insanity of those who would benefit from it, is the spirit of defiance, the indefatigable courage of those few characters keeping faith with what remains of human intelligence. Together these stories represent the first major literary work about the war from an Iraqi perspective. 'Perhaps the best writer of Arabic fiction alive...' - The Guardian, 12 Jun 10.

The Professor Was a Thief L. Ron Hubbard, 2009-07-08 The Empire State Building has vanished into thin air! Gone, too, are Grant's Tomb and Grand Central Station, and all hell is breaking loose in New York City! One grizzled old newspaper reporter known simply as Pop--a role made for Walter Matthau--is on top of it . . . and better stay there, because his livelihood is on the line. If Pop fails to get to the bottom of the vanishing landmarks, his job will disappear as well, not to mention the fate of Earth's remaining landmarks and the missing people within. Battle of the Wizards: When the natives of planet Deltoid refuse to grant mining rights to the Galactic Council, and invasion by force is impossible, a Battle of Wizards is the only option. An epic battle between science and magic unfolds with an entire planet hanging in the balance. A biting sci-fi satire. -- JG Dangerous Dimension: A mathematics professor who discovers an equation that enables him to teleport anywhere he can imagine ... even if he doesn't want to go. By the spring of 1938, L. Ron Hubbard's stature as a writer was well established. As author and critic Robert Silverberg puts it: he had become a master of the art of narrative. Hubbard's editors urged him to apply his gift for succinct characterization, original plot, deft pacing and imaginative action to a genre that was new, and essentially foreign, to him--science fiction and fantasy. The rest is Sci-Fi history.
