Ann Landers

The Time Value of Life Tisa L. Silver, 2011-06-20 Life is treasured in minutes, hours, days, months, and years. In *The Time Value of Life*, author Tisa L. Silver shares how a simple decision-making rule used in finance can be applied to making decisions in other areas of life, especially how to wisely use the time you've been given on earth. A student-turned-professor of finance, Silver introduces the Time Value of Money (TVM) model. She uses hypothetical and real-life examples to show why time should be treated as a valuable gift and demonstrates the parallels between finance and life and between money and time. Silver advocates taking the following steps: Recognize time is a limited resource. Diversify investments. Respect time. Believe in your investments. Make collaborative investments. Understand good investments pay off. Realize the past doesn't dictate the future. Know that your future value depends on your inputs. *The Time Value of Life* communicates that time is more valuable than money because the value of your life depends on what you do with your time. Stop spending time; start investing it. By being careful about the way you invest your time now, you can enjoy the rewards later.

More important than money. Value that cannot be bought, held, stopped or stretched Vladimir Lavrov, 2021-03-04 Each of us has exactly twenty-four hours a day. Even the greatest people in history have not had more time than you. John Rockefeller and Steve Jobs had exactly the same amount of time per day as you. The only thing that sets them apart is how they spent their time. From this book you will learn about the price of time, calculate the cost of an hour of your time, learn how to properly plan and invest your time, turning it into money.

Think Better Thoughts Thibaut Meurisse, 2024-05-30 Are you struggling with negative thoughts? Do you hold on to too many limiting beliefs? Do you feel like you're capable of more? If so, it's time for you to replace disempowering beliefs with more empowering ones and improve your life in the process. Author and coach Thibaut Meurisse wants you to think better, more empowering thoughts. In his latest book, you'll learn about 100 negative assumptions that, often unconsciously, prevent you from designing a more fulfilling life. He addresses questions such as why you often feel like you're not good enough (and what to do about it); how your fear of missing out is working against you; why being hard on yourself doesn't work (and what you should do instead), and much more. *Think Better Thoughts* is a must-read guide to reprogramme your mind, have more empowering thoughts and make lasting changes in your life.
