**You Lead You with Gra3ce** Elaine Chung, Sook Hyung Paek, 2022-04-14 If you're tired of looking to others for leadership and feeling uninspired, this book is for you. *You Lead You* is a different kind of leadership book. Instead of focusing on the traditional top-down leadership model we're all familiar with, this book emphasizes authentic, inner-inspired leadership. Becoming an authentic leader requires listening to our own voice, gaining greater clarity about our purpose and goals, and having the courage to take action. *You Lead You* shows you how success begins as you take full responsibility for everything around you and becoming your own 'inner inspired leader.' This book simplifies key concepts and contains inspirational stories to enrich your thinking and foster a growth mindset. The GRA3CE model in this book offers practical steps to develop your authentic self as you change how you manage and empower yourself. These powerful practices enable you to develop the skills that will bring you inner fulfillment along with outer success. As you practice the tools shared in *You Lead You*, you can become the leader of your own lives and create the change you desire. You can harness your power to lead yourself authentically and become a model of leadership for others. The world needs more self-empowered people who can lead themselves from within. And this is what *You Lead You* is all about. It is about self-awareness. It is about self-mastery. It is about self-empowerment. It is simply about you stepping into your own power and becoming the master of your life.

*Cracking the Stress Secret* Amir A. Rashidian, 2022-10-18 Why stress isn't a bad thing and how to turn it into strength When we seek advice on health and wellness, we are commonly told to reduce or eliminate stress in our lives. *Cracking the Stress Secret* takes a different stance. In this book, author, speaker, and chiropractor Amir Rashidian explains that striving to accomplish goals and improve ourselves inherently comes along with obstacles and stress, and so it's unrealistic—even undesirable—to cut stress from our lives. How much we achieve depends on how much stress we can safely handle. In fact, stress can become a natural source of fuel for success. Geared toward professionals, entrepreneurs, and anyone who has a busy daily life but also has big aspirations, *Cracking the Stress Secret* demonstrates how health comes from the inside out and why it's best to intentionally and gradually increase (not decrease) stress to improve adaptability and resilience. Dr. Rashidian provides ten steps that you can use to prepare yourself physically, biochemically, and psychologically for whatever pressures life might throw at you. Using compelling stories from his life and practice and drawing from his decades of

experience in studying the human body's response to stress, Dr. Rashidian illustrates how you can learn and adapt during stressful times, overcoming the challenges you face and, through the process, becoming better, stronger, and happier.

**Bridging Engagement Gaps** Vincent Miholic Ph.D.,2016-08-18 *Bridging Engagement Gaps* amasses an eclectic blend of business research and analysis, philosophy and the arts, as well as practical examples and illustrations to better understand the obstacles we confront and the foundational constructs related to realizing optimal worker engagement. Whether you are an intern, thirty-year employee, manager, or business owner, you play a critical role in determining personal and organizational success. Leadership in the workplace begins with basic decency and integrity and has little to do with job titles. Therefore, there must be widespread participation in critical decision-making if your intent is to engage everyone. This resource guide delivers tools and strategies to drive exploratory and evaluative conversations about driving more engagement in the workplace. Learn how to: define what engagement means and why its important; celebrate the success of others to drive engagement; landscape a culture in which employees flourish; and champion multiple points of view. Fully-engaged employees bring passion, purpose, and discretionary energy to their work, but they must feel secure in taking risks and know that their suggestions count. Give them the tools they need to succeed while helping disengaged employees rediscover their passion by *Bridging Engagement Gaps*.
