*BLS (Basic Life Support) Provider Manual 1st Edition* American Heart Association, 2021-05-23 BLS (Basic Life Support) Provider Manual 1st edition by American Heart Association Welcome to the Basic Life Support (BLS) Provider Course. BLS is the foundation for saving lives after cardiac arrest. You will learn the skills of high-quality cardiopulmonary resuscitation (CPR) for victims of all ages and will practice delivery of these skills both as a single rescuer and as a member of a multi-rescuer team. The skills you learn in this course will enable you to recognize cardiac arrest, activate the emergency response system early, and respond quickly and confidently. Despite important advances in prevention, sudden cardiac arrest remains a leading cause of death in the United States. Seventy percent of out-of-hospital cardiac arrests occur in the home. About half are unwitnessed. Outcome from out-of-hospital cardiac arrest remains poor. Only about 10% of adult patients with nontraumatic cardiac arrest who are treated by emergency medical services (EMS) survive to hospital discharge. With the knowledge and skills you learn in this course, your actions can give victims the best chance of survival. The BLS Course focuses on what rescuers need to know to perform high-quality CPR in a wide variety of settings. You will also learn how to respond to choking emergencies.
