

Films About The Troubles

Michael Bliss

Laurel and Hardy's Comic Catastrophes Michael Bliss, 2017-06-29 One of America's most beloved comic duos, Stan Laurel and Oliver Hardy have entertained generations of viewers with their unique, heartwarming brand of slapstick comedy. The pair's teamwork and friendship set their films apart, softening both pratfalls and hardships, and earning them a cherished place in cinema history. From their first joint on-screen appearance in 1921's *The Lucky Dog* through their work at the Hal Roach studios, their comic signature remained unique. But what made the films of Laurel and Hardy so enduring? In *Laurel and Hardy's Comic Catastrophes: Laughter and Darkness in the Features and Short Films*, Michael Bliss illustrates why these films continue to make audiences laugh. Combining an appreciation for the pleasure that these films elicit with a critical examination of what made them work, Bliss first investigates the milieu in which the pair's comedy takes place. The author then explores Stan and Ollie's friendship and their troubled—and troubling—relationships with women. The book also features a detailed discussion of Stan Laurel's approach to gag structure, while the remainder of the book focuses on many of the pair's silent and sound films, such as *Duck Soup*, *Pack Up Your Troubles*, *Chickens Come Home*, and *The Music Box*. By delving into the pair's films—including several neglected short films—in greater detail than any previous work, this volume provides readers with a fundamental understanding of Stan and Ollie's universal appeal. Featuring an extensive filmography, *Laurel and Hardy's Comic Catastrophes* will engage a wide audience, from film scholars to fans of humor everywhere.

Critical Approaches to the Films of Robert Rodriguez Frederick Luis Aldama, 2015-03-15 Frederick Aldama's *The Cinema of Robert Rodriguez* (2014) was the first full-scale study of one of the most prolific and significant Latino directors making films today. In this companion volume, Aldama enlists a corps of experts to analyze a majority of Rodriguez's feature films, from his first break-out success *El Mariachi* in 1992 to *Machete* in 2010. The essays explore the formal and thematic features present in his films from the perspectives of industry (context, convention, and distribution), the film blueprint (auditory and visual ingredients), and consumption (ideal and real audiences). The authors illuminate the manifold ways in which Rodriguez's films operate internally (plot, character, and event) and externally (audience perception, thought, and feeling). The volume is divided into three parts: *Matters of Mind and Media* includes essays that use psychoanalytic and cognitive psychology to shed light on how Rodriguez's films complicate Latino identity, as well as how they succeed in remaking audiences' preconceptions of the world. *Narrative Theory, Cognitive Science, and Sin City: A Case Study* offers tools and

models of analysis for the study of Rodriguez's film re-creation of a comic book (on which Frank Miller was credited as codirector). *Aesthetic and Ontological Border Crossings and Borderlands* considers how Rodriguez's films innovatively critique fixed notions of Latino identity and experience, as well as open eyes to racial injustices. As a whole, the volume demonstrates how Rodriguez's career offers critical insights into the filmmaking industry, the creative process, and the consuming and reception of contemporary film.

Film, Philosophy, and Reality Nathan Andersen, 2018-12-21 *Film, Philosophy, and Reality: Ancient Greece to Godard* is an original contribution to film-philosophy that shows how thinking about movies can lead us into a richer appreciation and understanding of both reality and the nature of human experience. Focused on the question of the relationship between how things seem to us and how they really are, it is at once an introduction to philosophy through film and an introduction to film through philosophy. The book is divided into three parts. The first is an introduction to philosophy and film, designed for the reader with little background in one or the other subject. The second examines the philosophical importance of the distinction between appearance and reality, and shows that reflection upon this distinction is naturally provoked by the experience of watching movies. The final part takes a close and careful look at the style and techniques of Jean-Luc Godard's groundbreaking film *Breathless* in order to illustrate how such themes can be explored cinematically. The book addresses topics such as: Film: what it is and how to understand it The methods and concerns of philosophy The nature of cinematic appearances The history of metaphysics The relationship between cinema and life The philosophical relevance of film techniques. With a glossary of key thinkers, terms, and concepts, as well as sections on suggested films and further reading, this textbook will appeal to lecturers and students in undergraduate philosophy and film courses, and in courses focused on Philosophy of Film, Philosophy and Film, or Film-Philosophy.

Hollywood Movie Novels, 1922

Flickers of Film Jason Sperb, 2015-12-15 Whether paying tribute to silent films in *Hugo* and *The Artist* or celebrating arcade games in *Tron: Legacy* and *Wreck-It-Ralph*, Hollywood suddenly seems to be experiencing a wave of intense nostalgia for outmoded technologies. To what extent is that a sincere lament for modes of artistic production that have nearly vanished in an all-digital era? And to what extent is it simply a cynical marketing ploy, built on the notion that nostalgia has always been one of Hollywood's top-selling products? In *Flickers of Film*, Jason Sperb offers nuanced and unexpected answers to these questions, examining the benefits of certain types of film nostalgia, while also critiquing how Hollywood's nostalgic representations of old technologies obscure important aspects of their histories. He interprets this affection for the prehistory and infancy of digital technologies in relation to an industry-wide anxiety about how the digital has grown to dominate Hollywood, pushing it into an uncertain creative and economic future. Yet he also suggests that Hollywood's nostalgia for old technologies ignores the professionals who once employed them, as well as the labor opportunities that have

been lost through the computerization and outsourcing of film industry jobs. Though it deals with nostalgia, *Flickers of Film* is strikingly cutting-edge, one of the first studies to critically examine Pixar's role in the film industry, cinematic representations of videogames, and the economic effects of participatory culture. As he takes in everything from *Terminator: Salvation* to *The Lego Movie*, Sperb helps us see what's distinct about this recent wave of self-aware nostalgic films—how Hollywood nostalgia today isn't what it used to be.

The Routledge History of Irish America Cian T. McMahon, Kathleen P. Costello-Sullivan, 2024-07-23 This volume gathers over 40 world-class scholars to explore the dynamics that have shaped the Irish experience in America from the seventeenth to the twenty-first centuries. From the early 1600s to the present, over 10 million Irish people emigrated to various points around the globe. Of them, more than six million settled in what we now call the United States of America. Some were emigrants, some were exiles, and some were refugees—but they all brought with them habits, ideas, and beliefs from Ireland, which played a role in shaping their new home. Organized chronologically, the chapters in this volume offer a cogent blend of historical perspectives from the pens of some of the world's leading scholars. Each section explores multiple themes including gender, race, identity, class, work, religion, and politics. This book also offers essays that examine the literary and/or artistic production of each era. These studies investigate not only how Irish America saw itself or, in turn, was seen, but also how the historical moment influenced cultural representation. It demonstrates the ways in which Irish Americans have connected with other groups, such as African Americans and Native Americans, and sets "Irish America" in the context of the global Irish diaspora. This book will be of value to undergraduate and graduate students, as well as instructors and scholars interested in American History, Immigration History, Irish Studies, and Ethnic Studies more broadly.

Women and Global Documentary Shilyh Warren, Najmeh Moradiyan-Rizi, 2025-02-06 In what innovative ways are women documentary filmmakers seeking to prioritize and promote political awareness, alternative modes of allyship, and advocacy for those most marginalized by patriarchy and global capitalism? *Women and Global Documentary* answers the urgent need to re-evaluate the significance of women's documentary practices, their contributions to feminist world-building,

and to the state of documentary studies as a whole. Bringing together a range of diverse practitioners and authors, the volume analyzes alternative and emergent networks of documentary production and collaboration within a global context. The chapters investigate filmmaking practices from regions such as East Africa, Latin America, South Asia, East Asia, the Middle East, and North Africa. They also examine decolonial practices in the Global North based on Indigenous filmmaking and feminist documentary institutions such as Women Make Movies. In doing so, they assess the global, institutional, political, and artistic factors that have shaped women's documentary practices in the 21st century, and their implications for scholarly debates regarding women's authorship, political subjectivity, and documentary representation.
