**Gradual Release of Responsibility Model to Foster Student Independence in Reading** Lisa M. Schau,2009 This is a four-week action research study that explored how the Gradual Release of Responsibility instructional model would increase reading independence in first grade students. Specifically, it examines each component of the GRR model: modeling, guided practice, independent practice, and application and the roles of both the teacher and student throughout this model. A framework model, known as The Daily Five, which is based upon the GRR model, was utilized throughout this study, as well as before the study began and after the completion of data collection. Various forms of data collection were used, including observations, interviews, work with a small focus group of six students, and assessment scores from the Developmental Reading Assessment (DRA) and fluency passages. This instructional model proved very helpful in increasing independence in reading and building the amount of time students could stay fully engaged in reading, referred to as reading stamina.

Nonfiction Matters Stephanie Harvey,1998 A guide to bringing nonfiction into the curriculum in third through eighth-grade classrooms, with strategies and ideas for reading nonfiction, conducting research, and writing reports.

*Better Learning Through Structured Teaching* Douglas Fisher,Nancy Frey,2021-07-23 Now in its 3rd edition, Better Learning Through Structured Teaching is the definitive guide to the gradual release of responsibility—an instructional framework any teacher can use to help students to be more successful and self-directed learners. To gradually release responsibility is to equip students with what they need to master content and develop new competencies. On a day-to-day

basis, it means delivering lessons intentionally structured to incorporate four interrelated phases: \* Focused Instruction (I do it) that sets students up for cognitive apprenticeship by establishing lesson purpose, modeling strategies and skills, and sharing information and insight. \* Guided Instruction (We do it together) that incorporates targeted prompts, cues, and questions to scaffold understanding. \* Collaborative Learning (You do it together) that allows students to consolidate and extend understanding through accountable group tasks built on discussion and cooperative problem solving. \* Independent Learning (You do it alone) that provides students opportunities to practice and apply the skills and knowledge they've acquired to create authentic products and ask new questions. Authors Douglas Fisher and Nancy Frey detail the components of each phase, sharing proven strategies and real-life examples. You'll find a variety of useful tips for classroom implementation, along with new guidance on teacher credibility, social-emotional learning, and embedding assessment throughout all four phases. No matter what grade level or subject you teach, *Better Learning Through Structured Teaching* is an essential resource for improving your practice and empowering your students.

Gradual Release of Responsibility in English/Language Arts, Grades K-5 Douglas B. Fisher, Nancy Frey, 2013-10-15 Like many excellent teaching methodologies grounded in research (reader response theory, guided reading, etc) the gradual release of responsibility model has been widely implemented, but often poorly. Many teachers lack a deep understanding and models deep for doing this effectively. Fisher & Frey have a gift for breaking down information into explicit, manageable steps, with clear examples that will inform teachers' own implementation. Bestselling authors Douglas B. Fisher and Nancy Frey show how teachers can help students develop stronger learning skills by ensuring that their literacy instruction moves from modeling and guided practice (situations where the teacher has most of the responsibility) to collaborative learning and, finally, to independent tasks.

Video Pedagogy in Action Mary B. McVee, Lynn E. Shanahan, H. Emily Hayden, Fenice B. Boyd, P. David

Pearson, 2017-12-12 Combining video analysis with the well-known Gradual Release of Responsibility (GRR) model, this book offers teacher educators a fresh perspective and a new tool for supporting teachers' learning and reflection. The clearly articulated and useful framework shifts the focus away from children and toward teachers' thinking about their own teaching practice. Interwoven with practical examples of the framework in use, this book identifies ways that teachers and teacher educators can foster more productive kinds of reflection about video-recorded classroom interactions and support preservice and inservice teachers. Offering key tools such as templates for reflection, video viewing guides, self-analysis checklists, and activities, this book moves the field forward and establishes video reflection and the GRR process as critical tools for teacher reflection, professional development, and effective teaching and learning.

**Better Learning Through Structured Teaching: A Framework for the Gradual Release of Responsibility** Doug

Fisher, Nancy Frey, 2010-09-10 Better Learning Through Structured Teaching describes how teachers can help students develop stronger learning skills by ensuring that instruction moves from modeling and guided practice (situations where the teacher has most of the responsibility) to collaborative learning and, finally, to independent tasks. You'll find out how to use the four components of this approach to help meet critical challenges, including differentiating instruction and making effective use of class time: 1. Focus Lessons: Establishing the lesson's purpose and then modeling your own thinking for students. 2. Guided Instruction: Working with small groups of students who have similar results on performance assessments. 3. Collaborative Learning: Enabling students to discuss and negotiate with one another to create independent work, not simply one project. 4. Independent Tasks: Requiring students to use their previous knowledge to create new and authentic products. The authors explore each component using student dialogues and examples from a variety of disciplines and grade levels. They provide tips and tools for successfully implementing this instructional approach in your own classroom, including checklists for classroom setup and routines, critical questions, real-world lesson plans, and more. No matter what grade level you teach, Better Learning Through Structured Teaching is your essential guide to helping students develop and expand their capacity for authentic and long-lasting learning.

**A Cyclical Model of Literacy Learning** Adrienne Minnery,Antony T. Smith,2024 This book introduces the Cycle of Responsibility (COR) model—the next step in the evolution of the Gradual Release of Responsibility model, which has been a conceptual mainstay of literacy education for decades. This new model shifts the current linear model to a cyclical process of multifaceted interactions that better reflect the complexities of early literacy, and with an emphasis on constructing knowledge together in the context of vibrant learning communities. Focused on reading, writing, and word study in the primary grades, the COR is put into motion through five key motivators: challenge, creativity, collaboration, choice, and independence. Vignettes demonstrate how to enact COR in classroom contexts. This practical resource is based on the authors’ shared research and teaching experiences in employing the COR to empower children as literacy learners and teachers as agents of impactful instruction. Book Features: Presents the Cycle of Responsibility model—a new, field-tested teaching and learning model. Moves away from linear task completion to a cyclical collaborative process that reflects the

energetic, complex, and creative world of classrooms. Provides a teacher-centric approach that emphasizes shared construction of knowledge and the forces that motivate young learners. Includes vignettes from the author's first-grade classroom to illustrate ideas in practice, as well as a chapter on teacher professional learning. "This book is a great example of how committed scholars of practice can transport research-based practices into a discourse that speaks to teachers. . . . Read it! Try it! You'll like it!" —From the Foreword by P. David Pearson, emeritus professor, UC Berkeley

**The Effects of Teaching Reading Using the Gradual Release of Responsibility Model and 4th Grade Reading** Marthel I. Young, 2017 Students' inability to meet grade level standards in reading on state and national assessments continues to be a problem across the nation. This causal comparative cohort model sought to examine the effect of the Gradual Release of Responsibility Model (GRRM) on 4th grade reading achievement, gender, and socio-economic status, and to examine educators' perceptions about the effectiveness of the GRRM on reading. The sample population consisted of approximately 400 third and fourth grade students, 12 teachers, 6 coaches, and 7 administrators in five Title I schools in southeast Tennessee. Statistical significance was found between the control and treatment groups. Conclusions reflect that the GRRM was effective. Significant differences were not found according to gender nor socio-economic status.
