Psychoanalytic Reflections on The Freudian Death Drive Rossella Valdrè, 2018-12-07 *Psychoanalytic Reflections on The Freudian Death Drive* is a highly accessible book that investigates the relevance, complexity and originality of a hugely controversial Freudian concept which, the author argues, continues to exert enormous influence on modernity and plays an often-imperceptible role in the violence and so-called sad passions of contemporary society. With examples from cinema, literature and the consulting room, the book's four chapters – theory, the clinic, art and contemporaneity – investigate every angle, usually little explored, of the death drive: its positive functions, such as its contribution to subjectification; its

ambiguous relationship with sublimation; the clues it provides about transgenerational matters; and its effects on the feminine. This is not a book about aggression, a type of extrojection of the death drive made visible, studied and striking; rather, it is about the derivatives of the pulsion that changes in the clinic, in life, in society, in artistic forms. With bold and innovative concepts and by making connections to film and books, Rossella Valdrè unequivocally argues that the contemporary clinic is a clinic of the death drive. *Psychoanalytic Reflections on The Freudian Death Drive* seeks to relaunch the debate on a controversial and neglected concept and will appeal to psychoanalysts and psychoanalytic psychotherapists. Today's renewed interest in the Freudian death drive attests to its extraordinary ability to explain both new pathologies and socio-economic phenomena.

What a Time to Be Alive Jade Chang, 2025-09-30 A deeply moving and often hilarious novel following a woman who becomes an internet folk hero in the most unexpected way, catapulting her into fame and influence just as she's finally beginning to reckon with her complicated past. Lola Treasure Gold can't figure out her life. She's broke, unemployed, and back in her childhood home, a crumbling cottage in the Hollywood Hills. Worse—unspeakably worse—one of her closest friends has just died. So nobody is more surprised than Lola when a jackpot falls in her lap: she stars in a viral video, opening a surprising path for her to become a self-help guru. With the encouragement of her other best friend, Celi—still alive, thank god—Lola embraces the public interest in her perceived message. But is she a scammer or a sage? Just as Lola is telling others to be their own guiding lights, she can't seem to find hers: she's grieving; she's accused of using the notoriety of her friend's death to fuel her rise; and she's full of questions about the fate of her mother, who came to America pregnant, fleeing China's one-child policy, got deported when Lola was eight, and now has totally disappeared. Driven by an exuberant, searching spirit, Jade Chang's kaleidoscopic new novel is a deep examination of the ways we commodify belief, the power and precarity of fame, and the delicious terror of being truly seen. *What a Time to Be Alive* asks if we can look honestly at the world and still love it; the answer is a brilliant, resounding yes.

YOU and Your Own Universe Silviu Pristavu, 2022-04-22 What if you found out that you're not who you believe you are? What if I told you that you're not who your family thinks you are? What if you're not the person that people around you see and hear ... What if the human being is, in reality, the fusing element of two worlds - physical and spiritual? What if, in the human body, you can find both physical and spiritual, where the spiritual manifests physically. What if what we call the mind, as we know it, is actually the gate through which the two worlds meet, cross, and exchange information? What You are, as a spiritual being, can't be described in any human language. What You are can't be seen by any human eyes. What You say

can't be heard by any physical ears. You are the awareness in you – the consciousness. You are the love, the joy, and the happiness that bursts out of you. You are the creator of your body and the creator of Your Own Universe. You are limitless. You are wealth. You are health. You are all these things combined and more. You are something that can only be felt through your physical body, and you will feel You long before you finish reading this book. This book is not religious! It doesn't aim to favour one religion or discredit another. If anything, it's a tool for any religion that's been created from the beginning of humanity and helps explain phenomena that couldn't have been explained otherwise. It supports science equally; however, it doesn't just support theories that are based purely on physical evidence, though it may provide answers where these haven't been found yet, if one is open to accepting a different point of view. It was written to serve as a manual for life, explaining how things become what they are and providing confidence and strength to teens getting ready to face the world on their own, and to adults who feel lost, without a purpose, and in need of guidance toward a happy life.
