Margarita Nelken Pelayo Jardón Pardo de Santayana, 2013-01-01 Con ocasión de la polémica feminista que tuvo lugar en las primeras décadas del siglo XX, la periodista madrileña Margarita Nelken (1894-1968) preconizó la reforma de aquellas normas jurídicas y usos sociales que, por su cariz androcéntrico, discriminaban a la mujer española. En aras de mejorar la condición femenina y, por ende, de equilibrar las relaciones de poder entre ambos sexos, promovió la formación intelectual y laboral de la mujer, su incorporación al mercado de trabajo, su independencia económica y su emancipación moral y política respecto al varón. A pesar de tal bagaje, tras ser elegida diputada en 1931, apenas proyectó su actividad política en la salvaguardia de los intereses feministas, a los que antepuso otra clase de objetivos, como la revolución social según el modelo comunista y la defensa de la República durante la Guerra Civil. On the occasion of the feminist polemic that took place in the first decades of the twentieth century, the Madrilenian journalist, Margarita Nelken (1894-1968), advocated the reform of those judicial norms and social uses that, for their androcentric perspective, discriminated against Spanish women. In order to improve the feminine condition and, hence, to balance the relations of power between both sexes, she promoted the intellectual and technical formation of women, their incorporation into the work market, their economic independence and their moral and political emancipation with respect to the male. Despite having such a large amount of acquired knowledge, after being elected a Member of Parliament in 1931, she hardly projected her political activity in the safeguard of feminist interests, giving precedence to other classes of objectives, such as the social revolution according to the communist model and the defence of the Republic during the Civil War.

La educación laica en México: Estudios en torno a sus orígenes Adelina Arredondo, 2023-01-04 La educación laica es una construcción social, compleja, históricamente determinada, que se edifica desde diferentes actores colectivos, concepciones políticas, proyectos sociales, relaciones de poder y contextos geográficos, en una paradoja que mientras reafirma la libertad de creencias, prohíbe esa misma libertad dentro del ámbito educativo público, bajo el argumento de que sólo en un espacio ausente de connotaciones religiosas es posible garantizar la plena libertad de todas las creencias y la formación de una ciudadanía democrática y respetuosa de la diversidad cultural. En el laicismo subyace la convicción de que la educación encierra tanto el potencial de control e instrumentación humana como de liberación, humanización y universalismo; de ahí que se promuevan espacios públicos no sólo neutrales con respecto a los asuntos religiosos, sino ajenos totalmente a ellos. La construcción de un régimen de educación laica ha pasado por procesos complejos, difíciles, conflictivos, de rupturas, combates, avances y retrocesos. Este libro ofrece una visión panorámica de esos momentos de generación de proyectos de educación laica en México, que revisten un interés universal, porque fueron también los comienzos de la institucionalización de la educación laica en el mundo
