How to Publish Your Children's Book Liza N. Burby, 2020-07-03 It is the place where wizards live, forests are enchanted,

and things are often not what they seem. It is also the home of editors, agents, marketers, and art directors. It is the world of children's book publishing. Until the first edition of this book was released, it was one of the most confusing places for hopeful writers to navigate as well. Now, in response to a rapidly changing industry, award-winning writer Liza N. Burby has revised and updated this complete guide to making the right children's book publisher say yes to your book for children or young adults. This edition of *How to Publish Your Children's Book* begins by helping you define your book's category, audience, and marketplace so that you know exactly where your book "fits in." You are then taught how to choose the best publishing companies for your book proposal, as well as coached in how to write a winning submission package. Then the Square One System tells you exactly how to submit your package so that you optimize your chance of success while minimizing your time, cost, and effort. Also included is a special section on contracts that will turn legalese into plain English, allowing you to be a savvy player in the publishing game. Most important, this book will help you avoid the most common errors that so often prevent writers from reaching their goal. Throughout each chapter, you will gain valuable insight into the typical thought processes of children's book editors, agents, and publishers, as well as practical advice from popular children's authors such as Jane Yolen and Johanna Hurwitz. Whether you're just thinking about writing a YA or children's book, or are already a published author, you're sure to find *How to Publish Your Children's Book* a solid reference guide you can use time and time again.

Recharge Your Library Programs with Pop Culture and Technology: Linda D. Behen, 2013-06-17 Learn how to integrate pop culture and technology into school library programs and classrooms, and make today's digital content, mobile devices, and students' changing interests work to the educator's advantage. Today's school libraries need to evolve and meet the needs of 21st-century students—the instruction, programming, and library services must be relevant to today's learners. Additionally, the interactions between educators and the students are what make the critical difference in the students' learning, and turn the library and classroom into places where they will find, assimilate, experience, and understand information. This book provides practical strategies for using pop culture and technology trends to connect with easily distracted middle and high school students and hold their attention. Author Linda D. Behen addresses why school libraries are in transition and why there is a need for dramatic change. She discusses the evolution of all libraries in response to digital content; ubiquitous mobile devices such as smart phones, iPads, and other tablet computers; patrons' changing interests; and the ways in which schools and school libraries have found to effectively adapt to technology changes and student needs. This book is essential for middle and high school librarians and educators, library school students and instructors, and young adult public librarians.

The New Yale Book of Quotations Fred R. Shapiro,2021-08-31 A revised, enlarged, and updated edition of this authoritative and entertaining reference book —named the #2 essential home library reference book by the Wall Street Journal “Shapiro does original research, earning [this] volume a place on the quotation shelf next to Bartlett's and Oxford's.”—William Safire, New York Times Magazine (on the original edition) “A quotations book with footnotes that are as fascinating to read as the quotes themselves.”—Arthur Spiegelman, Washington Post Book World (on the original edition) Updated to include more than a thousand new quotations, this reader-friendly volume contains over twelve thousand famous quotations, arranged alphabetically by author and sourced from literature, history, popular culture, sports, digital culture, science, politics, law, the social sciences, and all other aspects of human activity. Contemporaries added to this edition include Beyoncé, Sandra Cisneros, James Comey, Drake, Louise Glück, LeBron James, Brett Kavanaugh, Lady Gaga, Lin-Manuel Miranda, Barack Obama, John Oliver, Nancy Pelosi, Vladimir Putin, Bernie Sanders, Donald Trump, and David Foster Wallace. The volume also reflects path-breaking recent research resulting in the updating of quotations from the first edition with more accurate wording or attribution. It has also incorporated noncontemporary quotations that have become relevant to the present day. In addition, The New Yale Book of Quotations reveals the striking fact that women originated many familiar quotations, yet their roles have been forgotten and their verbal inventions have often been credited to prominent men instead. This book’s quotations, annotations, extensive cross-references, and large keyword index will satisfy both the reader who seeks specific information and the curious browser who appreciates an amble through entertaining pages.
