addressed in this book is what determines joint venture formation in the food and agribusiness sector in sub-Saharan African countries, and what can be done to promote such ventures. A mixed research design is adopted for the study, incorporating a case study and a survey. The study attempts to answer such questions as: how conducive is the business environment in African countries for international joint venture formation? What are the preferred investment modes by foreign firms and why? Are there any significant differences between large MNCs and small/medium MNCs towards joint venturing in African countries?
