**Kenneth S. Whitton**

**Marcus Aurelius in the Historia Augusta and Beyond** Geoff W. Adams, 2012-12-22 This book examines the biography of the Roman Emperor Marcus Aurelius. It seeks to further understand the author of the Historia Augusta alongside the reminiscences of the Emperor Marcus Aurelius. Geoff W. Adams arrives at this understanding through a study of a wide range of literary texts. Marcus Aurelius was a very important ruler of the Roman Empire, who has had an impact symbolically, philosophically, and historically upon how the Roman Empire has been envisioned. Adams achieves this end to bring a clearer understanding to his representation and to modern interpretations of his highly interpreted and romanticized representations in the ancient texts.

*Domicile A Narrative Roleplaying Game of Supernatural Mystery* William Bargo, 2015-09-18 Domicile is a narrative roleplaying game of supernatural mystery and haunting. It takes its inspiration from the haunted house genera of film and fiction. In it players take on the roles of average everyday people caught up in explicable events of suddenly finding themselves caught in a haunted house. So Do You Believe in Ghosts?

*The Sequel Superior* Edward K. Eckhart-Zinn, 2020-10-01 The Sequel Superior By: Edward K. Eckhart-Zinn Edward K. Eckhart-Zinn believes strongly that the age of internet criticism has led to a new path of viewing film and television, or by the encompassing terminology, "screen work". A healthy array of screen work subjects are covered in The Sequel Superior, from the serialization of film through franchises like Star Wars or the MCU, to the overlooked impact your personal life has on any constructed artworks, exploring just how massive and engaged that link is. This book is equally for creators and critics alike, bringing new light to conceptually finding "objective factors" in "subjective artistry". Screen works of all kinds are heavily dissected on this figurative operating table, such as Rick and Morty, Breaking Bad, The Simpsons, and the Star Wars sequel trilogy. The modern screen work climate is anatomically deconstructed to render an almost scientific schematic, breaking down elements such as tropes, hype, plot threads, plot holes, the fairly new presence of the internet, fandom, fan fiction, fanfare, the benefits of an animated medium, rosy retrospection, nostalgia, and all of their respective effects to generate the take on the current-day media environment. Instead of retreading the continued deconstruction of such antique masterpieces like Casablanca or The Shining, we instead immerse ourselves in the less respected yet extremely popular "popcorn movie" and attempt to understand why the highest grossing films for the last ten years have all been sequel installments. This book

posits that there truly are right ways and wrong ways of making this artwork, and the consumer, critic, and creator can all benefit greatly from its perspectives.

*Indie Author Confidential 1-3* M.L. Ronn, 2023-07-20 This collection contains Volumes 1-3 of the groundbreaking, behind-the-scenes series of a working writer's journey! Ever wondered what bestselling authors think about on a daily basis? M.L. Ronn is the author of over 50 books of fiction and nonfiction. This book series is a diary of all the lessons he's learning as he navigates how to master the craft of writing, marketing, and running a profitable publishing business. Most writers don't talk about the everyday lessons they learn because they might seem mundane, boring, or obvious. Many only start talking about their success once they've achieved it. This book is the exact opposite: it's about a writer learning how to be successful and documenting the process. The ideas in this book are what writers discuss over beers at writing conferences. They're insider ideas—you may find them interesting and useful on your journey to becoming a successful writer. V1.0

Teaching Arguments Jennifer Fletcher, 2023-10-10 No matter where students' lives lead after graduation, one of the most essential tools we can teach them is how to comprehend, analyze, and respond to arguments. Students need to know how writers' and speakers' choices are shaped by elements of the rhetorical situation, including audience, occasion, and purpose. In *Teaching Arguments: Rhetorical Comprehension, Critique, and Response*, Jennifer Fletcher provides teachers with engaging classroom activities, writing prompts, graphic organizers, and student samples to help students at all levels read, write, listen, speak, and think rhetorically. Fletcher believes that, with appropriate scaffolding and encouragement, all students can learn a rhetorical approach to argument and gain access to rigorous academic content. *Teaching Arguments* opens the door and helps them pay closer attention to the acts of meaning around them, to notice persuasive strategies that might not be apparent at first glance. When we analyze and develop arguments, we have to consider more than just the printed words on the page. We have to evaluate multiple perspectives; the tension between belief and doubt; the interplay of reason, character, and emotion; the dynamics of occasion, audience, and purpose; and how our own identities shape what we read and write. Rhetoric teaches us how to do these things. *Teaching Arguments* will help students learn to move beyond a superficial response to texts so they can analyze and craft sophisticated, persuasive arguments - a major cornerstone for being not just college- and career-ready but ready for the challenges of the world.
