

Asiento Contable De Factoring

Wolfgang Guggemos

Contabilidad Bancaria Salvador Marín Hernández, Francisco Javier Martínez García, 2003-07-02 La actividad de las entidades de crédito; El neto: las fuentes de financiación propias; El pasivo: las fuentes de financiación ajenas denominadas tradicionales; El activo: la cartera de valores y otras inversiones; La cuenta de resultados y los estados financieros consolidados; La auditoría en las entidades de crédito: auditoría externa.

Tesorería y Cálculo Financiero. Curso práctico Ana García Alcazar, 2025-10-28 La gestión de la tesorería es un área clave en cualquier organización: de ella depende la liquidez, la capacidad de pago y, en definitiva, la estabilidad de la empresa. Este manual ofrece una visión completa y didáctica de los métodos y operaciones más utilizados en la práctica profesional. A lo largo de sus capítulos, el lector encontrará explicaciones claras sobre el presupuesto de tesorería, el libro de caja y el libro de bancos, así como sobre las principales operaciones de cálculo financiero: interés simple y compuesto, descuento de efectos, liquidación de cuentas corrientes, pólizas de crédito y cálculo de comisiones bancarias. Todo ello acompañado de cuadros comparativos, ejemplos resueltos paso a paso y actividades de autoevaluación que facilitan la comprensión y el aprendizaje autónomo. Dirigido tanto a estudiantes como a profesionales administrativos y responsables financieros, este manual combina teoría, práctica y herramientas digitales de apoyo, convirtiéndose en una guía imprescindible para dominar la gestión de la tesorería y optimizar los recursos financieros en la empresa.

Aplicación del borrador del nuevo PGC y de las NIIF a las empresas constructoras e inmobiliarias Manuel Gutiérrez Viguera, 2008

Contabilidad para todos: Introducción al registro contable Manuel Rajadell Carreras, Oriol Trullàs Pardo, Pep Simo, 2014-01-03 La razón de este libro, desde una perspectiva didáctica, es presentar un manual práctico para que pueda entenderse como funciona la contabilidad. Se trata de explicar de manera amena y sencilla los mecanismos propios de la contabilidad. En las estanterías de las librerías hay muchos manuales que tratan lo mismo que este..., pero años de experiencia docente y de feedback con el alumnado nos ha impulsado a escribir este libro con la pretensión de ofrecer un contenido más ameno, digerible y práctico a la vez. El alumno encontrará una introducción a los conceptos claves de la normalización contable y los mecanismos aplicados. Entenderá como se construye un Balance de Situación y una Cuenta de Resultados, en base a sus partidas constitutivas más comunes para las PYMES españolas. Como parte central del libro, se

presentan supuestos de asientos de todo tipo, dirigidos a estudiantes o interesados en la aplicación práctica de las técnicas contables.

Tratamiento de la documentación contable 2.ª edición MÉNDEZ RODRÍGUEZ, HERMINIO, PALAZÓN BERMELL, M^a JOSÉ, 2021-06-10 Esta obra enseña a elaborar la contabilidad; por medios informáticos, utilizando las TIC; como herramienta de aprendizaje.; Para ello, se trabaja desde el inicio; con el programa de gestión contable; CONTASOL, a través de la empresa; simulada ABANICOS HOYO ARCE, SLS.; Este libro desarrolla los contenidos del módulo profesional de Tratamiento de la Documentación Contable, del Ciclo Formativo de grado medio de Gestión Administrativa, perteneciente a la familia profesional de Administración y Gestión.; El objetivo de esta obra es ofrecer al alumno una visión real y profesional del manejo de la documentación administrativa y su utilización contable.; Esta nueva edición ofrece una visión más práctica: se sintetizan los conceptos teóricos, se amplían los ejercicios de refuerzo y se actualizan a la nueva versión del programa CONTASOL 2021 y a los cambios producidos en la normativa contable y fiscal. Además, se trabaja con los modelos de impuestos, así como el acceso a páginas oficiales de AEAT, y del Registro Mercantil.; Para facilitar el aprendizaje, a lo largo de cada unidad se proporcionan ejemplos, esquemas de contabilización, subcuentas y asientos tipo que el alumno puede utilizar como guía.; Herminio Méndez Rodríguez es licenciado en Ciencias Económicas y Empresariales y ha dedicado su amplia trayectoria profesional a la docencia.; María José Palazón Bermell es licenciada en Ciencias Económicas y Empresariales y cuenta con más de 30 años de experiencia docente, además de experiencia profesional en el área financiera, asesoramiento contable y fiscal.

Tratamiento de la documentación contable MÉNDEZ RODRÍGUEZ, HERMINIO, PALAZÓN BERMELL, M^a JOSÉ, 2015-01-01 Este libro desarrolla los contenidos del módulo profesional de Tratamiento de la Documentación Contable del Ciclo Formativo de grado medio de Gestión Administrativa, perteneciente a la familia profesional de Administración y Gestión, de acuerdo con lo establecido en el Real Decreto 1631/2009, de 30 de octubre, por el que se establece el Título de Técnico en Gestión Administrativa y se fijan sus enseñanzas mínimas, y la Orden EDU/1999/2010, de 13 de julio, por la que se establece el currículo de dicho ciclo. El libro se estructura en ocho unidades: Unidad 1. Repaso de conceptos básicos, proceso contable y normativa contable. Unidad 2. Preparación y manejo de la documentación contable. Unidad 3. Registro de la documentación comercial y tratamiento contable de las operaciones de compras. Unidad 4. Registro de la documentación comercial y tratamiento contable de las operaciones de ventas. Unidad 5. Registro de la documentación y tratamiento contable de otros gastos e ingresos de explotación. Unidad 6. Operaciones de tesorería y financiación. Unidad 7. Las operaciones con el inmovilizado. Unidad 8. El proceso de cierre contable y la elaboración de las cuentas anuales. Las unidades desarrollan contenidos teóricos actualizados a las últimas modificaciones legislativas y muestran los modelos de documentación reales que se pueden manejar en cualquier empresa. La teoría se complementa con actividades resueltas,

para una mejor comprensión por parte del alumno, y con actividades propuestas, para que este fije mejor los conceptos explicados. Además, se proporcionan esquemas de contabilización, subcuentas y asientos tipo, que el alumno puede utilizar como guía. También se incluyen útiles recuadros de información adicional que amenizan y refuerzan las explicaciones. Al final de cada unidad se ofrecen mapas conceptuales con los conceptos clave que la componen, y actividades finales de comprobación y de aplicación, así como casos prácticos finales, que funcionan como compendio de los contenidos recogidos hasta la unidad que se está trabajando. Un aspecto importante que incorpora el texto es la realización de asientos con base en documentos justificantes, que reconocen la deuda o el derecho de cobro, antes de realizar los movimientos de tesorería correspondientes. Para ello, se hace uso de una empresa simulada en la que se desarrolla todo el proceso contable, desde su constitución hasta el cierre y la presentación de las cuentas anuales, para cumplir con las obligaciones de depósito y publicación en el Registro Mercantil. La herramienta que se utiliza es el programa de contabilidad ContaSOL, cuyo manejo para el proceso contable se explica en el solucionario de la simulación que se ofrece como material complementario para el profesor. Asimismo, para facilitar la tarea de la comprensión y la práctica contable, el alumno tendrá acceso a los siguientes recursos: • Plan General de Contabilidad de pymes (Real Decreto 1515/2007). • Ejecutable del programa ContaSOL para instalar en su ordenador personal. • Manual del programa ContaSOL. A estos materiales, que se ofrecen como recursos digitales, se puede acceder a través de la ficha web de la obra (en www.paraninfo.es) y mediante un sencillo registro desde la pestaña de «Recursos previo registro».
