

S Erich Von Daniken

Douglas Giles

History Is Wrong Erich von Däniken, 2025-09-12 History is Wrong will challenge your intellect...and maybe a few long-held beliefs. This is Erich von Daniken's best book in years! Erich von Daniken again shows his flair for revealing the truths that his contemporaries have missed. After closely analyzing hundreds of ancient and apparently unrelated texts, he is now ready to proclaim that human history is nothing like the world religions claim--and he has the proof! In History is Wrong, Erich von Daniken takes a closer look at the fascinating Voynich manuscript, which has defied all attempts at decryption since its discovery, and makes some fascinating revelations about the equally incredible Book of Enoch. Von Daniken also unearths the intriguing story of a lost subterranean labyrinth in Ecuador that is said to be home to an extensive library of thousands of gold panels. He supplies evidence that the metal library not only has links to the Book of Enoch but also to the Mormons, who have spent decades searching for it, believing it to contain the history of their forefathers. And what about the mysterious lines in the desert of Nazca that look like landing strips when viewed from the air? Archeologists claim they are ancient procession routes. Think again! cries von Daniken as he reveals the data that the archeologists never even thought to check.

Chariots of the Gods Erich von Daniken, 2019-06-27 All over the world there are fantastic ruins and objects that cannot be explained by conventional history, archaeology or religion. In the ground-breaking Chariots of the Gods, Erich von Daniken provides answers to these questions...why do religious texts often refer to Gods who descend from fiery chariots? Why do modern space launch sites look like constructions on the plains of Nazca in Peru? Was God an astronaut? By looking at human history and the ruins of ancient civilisations with an open mind, Erich von Daniken offers a new solution to these eternal mysteries in Chariots of the Gods. Why, for instance, do the world's sacred books describe Gods who came down from the sky in fiery chariots and always promised to return? How could an ancient Sanskrit text contain an account which could only be of a journey in an alien craft? Compare photographs of American space centre launch sites to the constructions on the plains of Nazca in Peru. In order to understand the mysteries which Erich von Daniken has catalogued we must go back to these ancient relics with an open mind. We must call in the resources and experience of sciences other than archaeology. Chariots of the Gods is a provocative attempt to explain some of the universe's most interesting mysteries. Erich von Daniken has spent a lifetime gathering evidence to prove that, before the dawn of recorded history, our ancestors were visited by an

alien race. Erich von Daniken was responsible for popularising the ancient astronaut hypothesis of human development. Orthodox historians have been sceptical but a vast public have been drawn to his ideas by instinctive interest and wonder. His 26 books have sold over 60 million copies in over 40 languages.

Twilight of the Gods Erich von Däniken, 2010-01-01 Dispels the prejudices and misconceptions that surround the Mayan Calendar, 2012, and the existence of extraterrestrial life.

Impossible Truths Erich Von Daniken, 2018-01-16 The author of *Chariots of the Gods* presents astounding theories about alien contact in ancient history—updated with new evidence from his research into formerly inaccessible sites Why do flying machines and astronauts appear in the artworks and sacred texts of all ancient cultures? What is the meaning of the immense earth drawings, impossible to view from the ground, that can be found all over the globe? How could prehistoric cultures have engraved diorite and other hard rock with such incredible precision without the use of modern tools? In this mind-bending new book, Erich von Däniken—bestselling author and expert on extraterrestrial influences on early civilization—draws on his latest research to update his astounding theory that the inhabitants of other planets have kept in contact with humankind since the earliest times. • Assess for yourself the stunning visual evidence presented in some 200 photographs. • Examine previously unpublished testimony from expert informants. • Discover new research undertaken by von Däniken after the opening up of previously inaccessible regions, such as the jungle city “Buritaca 200” in Colombia. Featuring profiles of Machu Picchu, the Nazca Lines, and other archaeological mysteries, *Impossible Truths* shines a startling new light on the true relationship between alien species and humankind.

Enoch and the Return of the Gods Erich von Däniken, 2023 The bestselling author of *Chariots of the Gods*, Erich von Däniken, examines the great traditions of mankind, thousands of years old, for signs, traces, messages that point to early contact with extraterrestrial intelligences. The Gods were here. But when will the return? Or have they ever really left? The culmination of long-term research, *Enoch and the Return of the Gods* argues that we are very much in the minds and eyes of other cosmic life forms and that, as a result, many of the dramatic historical events and remarkable teachings of religious texts should be reinterpreted. Erich von Däniken examines the great traditions of mankind, thousands of years old, for signs, traces, messages that point to early contact with extraterrestrial intelligences. The texts of the Bible are at the center of his text-critical interpretations, which pick apart the sense and nonsense of religious views. He also draws on ancient Jewish sagas and legends, reports from early historians, and Indian, Babylonian, and Persian traditions. As always, von Däniken finds support for such questions as: Did Adam and Eve witness a UFO? Who was Enoch and did he speak the language of extraterrestrials? What will Judgement Day truly be? Why did extraterrestrials tinker with humanity's DNA? The gods were here, and it is clear their influence remains to this day. This book was first published in 1998 under the title *The Return of the Gods*. This new edition features a new introduction by the author. --

The Gods Never Left Us Erich von Däniken, 2017-11-20 The Long Awaited Sequel to the Worldwide Best-seller Chariots of the Gods When Chariots of the Gods was published 50 years ago, it began a worldwide change in humanity's view of the cosmos. In an era of the military space race, Erich von Däniken boldly proclaimed that Earth had been visited by more advanced beings early in our history. But prescientific man had no concept of space ships, so he called their vehicles chariots, and those driving the chariots became gods. Over the next five decades, von Däniken's more than 40 books built an ever-stronger case for Earth being visited by extraterrestrial visitors. And Chariots became an international best seller, with 30 million copies sold in more than two dozen languages. Also during that time, the case for ET visitations millennia ago was being reexamined by contemporary UFO researchers, who found evidence of modern visitations. And von Däniken expanded his perspective to encompass the present. Now, he presents his long-awaited sequel to Chariots of the Gods, proclaiming that the gods never left us with all-new material to show that ancient aliens are still with us. The Gods Never Left Us contends that recent advancements in biotechnology, astrophysics, engineering, and artificial intelligence not only give us a fresh perspective on his ancient astronaut theory but actually validates it. We are--as a race--embarking on the exact same trajectory of our own interplanetary colonization, just as von Däniken suggested Earth itself was colonized. ETs are definitely at work today. And that affects all of us. Why do they do what they do? What could an extraterrestrial species possibly gain from observing us in the same way we look at ants? What have these strangers wanted for the past thousands of years? Can't they leave us alone? And what makes it so difficult for us to acknowledge the existence of these extraterrestrials? That is what this book deals with. Erich's newest book is a fascination journey from the ancient past into the present with a plethora of scientific evidence and documented research. As always, he adds his own to the point take on it all. Readers may also like that his newest work moves in a slightly different direction from his past books. A thoroughly enlightening and enjoyable Read. --Bruce Cunningham, Director, Ancient Mysteries International LLC & Publisher of Advanced Archaeology Review magazine

Chariots of the Gods Erich Von Daniken, 1999-01-01 AS SEEN ON ANCIENT ALIENS • Now in a beautiful 50th anniversary edition with a new foreword and afterword by the author, this is the groundbreaking classic that introduced the theory that ancient Earth established contact with aliens. Immediately recognized as a work of monumental importance, Chariots of the Gods endures as proof that Earth has been visited repeatedly by advanced aliens from other worlds. Here, Erich von Däniken examines ancient ruins, lost cities, spaceports, ufos, and a myriad of hard scientific facts that point to extraterrestrial intervention in human history. Most incredible of all, however, is von Däniken's theory that we are the descendants of these galactic pioneers—and he reveals the archaeological discoveries that prove it... The dramatic discoveries and irrefutable evidence: • An alien astronaut preserved in a pyramid • Thousand-year-old spaceflight navigation charts • Computer astronomy from Incan and Egyptian ruins • A map of the land beneath the ice cap of Antarctica • A giant

spaceport discovered in the Andes Includes remarkable photos that document mankind's first contact with aliens at the dawn of civilization.

Evidence of the Gods Erich von Däniken, 2025-09-12 Ancient humans had the natural urge to document the world in which they lived, a fact that is evident in the cave paintings and carvings that still exist today. Why do rock paintings from various sites around the world all seem to depict the same things? Did the peoples of the prehistoric world have contact with each another? Is it possible that some were transported to far-flung locations in what our ancestors could only have described as flying chariots? Erich von Däniken, one of the best-selling authors of all time and regarded by many as the father of the ancient alien theory, continues his mission to uncover Earth's ancient past—this time with more than 150 extraordinary full-color photographs—in *Evidence of the Gods*. This extensively illustrated book features never-before-seen photographs from his unique archive, compiled throughout decades of searching around the world for traces of the cosmic gods whom he believes came to Earth thousands of years ago. *Evidence of the Gods* offers the best and most impressive evidence to date, along with concise explanations for the images, to bolster the case that von Däniken has already been making quite convincingly for years. *Evidence of the Gods* is his most convincing—and thoroughly entertaining—work yet. Did extraterrestrial visitors really leave their unmistakable traces on our planet thousands of years ago? The images will speak for themselves.

The Gold of the Gods Erich Von Daniken, 2020-05-15 This translation originally published in 1973.

Eyewitness to the Gods Erich von Däniken, 2019 The father of the ancient alien theory with more than 65 million books sold reveals everything he has withheld for years. In all his years of service, why didn't Erich von Däniken ever doubt his theory that inhabitants of other planets had come into contact with humanity ages ago, and that they still observe us today? How could von Däniken in all these years say firmly that the UFO phenomenon is real and that people are being abducted by aliens? Why does he repeatedly criticize the official historiography and our religions and thus accept scorn and hostility? The answers to these questions are: Because Erich von Däniken spoke to people who supported his theories. Because people who saw UFOs or were kidnapped by aliens trusted him. And because experts and insiders inaugurated secrets known to only a few people. In this book, the now 81-year-old presents selected eyewitnesses and insiders for the first time, reveals secrets and stories that he has hitherto kept private, and presents reports and revelations that leave one speechless!

The Gods Were Astronauts Erich von Däniken, 2023 Why do nearly all the world's major religions share such similar myths and legends? Whether it's the Old Testament, ancient legends, or the creation myths of New Zealand's natives—you come across similar stories everywhere. This book propounds—and offers persuasive evidence—that the winged angels populating the Bible, Koran, and other religious texts from cultures the world over were in reality extraterrestrials who visited the Earth in ages long past. Intellectually challenging and provocative, these findings may shake the foundations of

both science and faith--

Odyssey of the Gods Erich von Däniken, 2025-09-12 Erich von Däniken's monumental Chariots of the Gods changed the way generations have looked at mythology, ancient history, and the possibility of advanced beings from other worlds visiting Earth. Now he tackles the history of Greece and again challenges our beliefs about how our civilization arose. Using painstaking archaeological research and evidence from the writings of Plato and Aristotle, he suggests that the Greek myths were, in fact, very much a reality, that the Greek gods were actually extraterrestrial beings who arrived on Earth many thousands of years ago. Many of you may find von Däniken's conclusions astounding, but they are argued with such vigor and clarity that you'll be forced to consider the implications of his findings for mankind. *Odyssey of the Gods* includes new, eye-opening information about: A revolutionary interpretation of the sites and legends of ancient Greece The conflict between alien gods and humans The true origin of centaurs, the Cyclops, and other mythical creatures A startling new explanation of the Atlantis legend

The Skeptic's Dictionary Robert Carroll, 2011-01-11 A wealth of evidence for doubters and disbelievers Whether it's the latest shark cartilage scam, or some new 'repressed memory' idiocy that besets you, I suggest you carry a copy of this dictionary at all times, or at least have it within reach as first aid for psychic attacks. We need all the help we can get. -James Randi, President, James Randi Educational Foundation, randi.org From alternative medicine, aliens, and psychics to the farthest shores of science and beyond, Robert Carroll presents a fascinating look at some of humanity's most strange and wonderful ideas. Refreshing and witty, both believers and unbelievers will find this compendium complete and captivating. Buy this book and feed your head! -Clifford Pickover, author of *The Stars of Heaven* and *Dreaming the Future* A refreshing compendium of clear thinking, a welcome and potent antidote to the reams of books on the supernatural and pseudoscientific. -John Allen Paulos, author of *Innumeracy* and *A Mathematician Reads the Newspaper* This book covers an amazing range of topics and can protect many people from being scammed. -Stephen Barrett, M.D., quackwatch.org Featuring close to 400 definitions, arguments, and essays on topics ranging from acupuncture to zombies, *The Skeptic's Dictionary* is a lively, commonsense trove of detailed information on all things supernatural, occult, paranormal, and pseudoscientific. It covers such categories as alternative medicine; cryptozoology; extraterrestrials and UFOs; frauds and hoaxes; junk science; logic and perception; New Age energy; and the psychic. For the open-minded seeker, the soft or hardened skeptic, and the believing doubter, this book offers a remarkable range of information that puts to the test the best arguments of true believers.

Introducing Archaeology, Third Edition Robert J. Muckle, Stacey L. Camp, 2020-11-03 Situating archaeology in academic, social, and political contexts, the third edition emphasizes the ethics and the scholarship of women and includes considerable focus on the archaeology of recent and contemporary times.

Spirited Histories Diana Espírito Santo, 2022-08-10 Spirited Histories combines ethnography with critical theory to provide a sophisticated exploration of the intersection of haunting and the paranormal with technology, media, and history. Retrieving the past in places of trauma and death can take on many facets. One of these is an attention to hauntings, ghosts, and absences that go with the collective experience of loss and disappearance. People memorialize the dead and their stories in myriad ways. But what about the untold stories, or the forgotten, unnamed? This book explores the ways groups of Chilean paranormal investigators and ghost tour operators produce alternate histories using paranormal machinery, rather than simply theatricalizing pain. It offers a look at technologies, machines, and apparatuses – themselves imbued with a long history of supernatural and scientific expectations – and a social analysis of how certain groups of people marshal the voices of the dead to generate particular micro-histories. This fascinating volume will be of interest to a range of disciplines, including anthropology, sociology, history, religious studies, and scholars of technology and new media.

[Ancient Aliens®](#) The Producers of Ancient Aliens, 2016-11-15 The first official companion book to HISTORY® network's hit series Ancient Aliens®: a powerful journey through human history that explores fascinating unanswered questions about the origins of our civilizations. With a foreword by Series Creator, Kevin Burns. Millions of people around the world believe we have been visited in the past by extraterrestrial beings. What if it were true? And if so, what if there were clues left behind? Each week, hundreds of thousands of viewers tune in to the wildly popular Ancient Aliens® television series to seek insight into those very questions—and to become part of a thrilling, probing exploration of the mysteries at the heart of world civilizations. The first official companion book to the hit show, Ancient Aliens® takes readers even deeper into the mysteries that have made the show a pop culture phenomenon. Filled with exciting insights and behind-the-scenes stories from the show's creators and leading experts in ancient alien theory, the book explores the key questions at the heart of the series: Who were they? Why did they come? What did they leave behind? Where did they go? Will they return? Transporting readers around the globe, Ancient Aliens® explores the fascinating enigmas and mysterious artifacts our ancestors left behind, from

incredible objects to amazingly accurate ancient maps; from the Great Pyramid of Giza and stone megaliths at Gobekli Tepe to the Nazca Plains and mysterious structures of Puma Punku. Accompanied by lavish 4-color photography throughout, the book allows armchair archaeologists to examine the evidence up close for the first time. Both the ultimate-fan book and the perfect gift for readers new to the show, Ancient Aliens® is a compelling journey through the mysteries of our ancient civilizations and the possibility of alien influence on our cultures.

Why Trump? Douglas Giles, 2024-07-14 Many people talk about Donald Trump. Some people love him, and some people hate him. Some people try to explain why people love or hate Trump. Despite the copious conversation and plenteous explanations, there's a lack of clarity about why people support Trump. Neither academia nor the political pundits can adequately explain the phenomenon that is Trump. Why do some people support Trump? Why has the subject of Trump become the dominant subject of US politics? Why Trump? considers those questions and connected questions by looking at American history to reach the conclusion that the phenomena really isn't about Trump. He's a symptom more than a cause. Realizing that simple reality opens the door to a deeper understanding of the particular strain of US political culture that is behind the movement that currently takes Trump as its center of focus. There is little new in Trump or the things he says and does. His success in attaining power lies in his ability to harness a long-simmering feeling in a segment of the American population. If you're looking for a hit piece against Donald Trump, this book is not for you. If you're looking for a hagiography extolling Trump, this book is not for you. This book is for you if you want to understand why people support Trump and similar right-wing politicians and what it means for the future. Stepping away from the partisan bickering of America's political duopoly, *Why Trump?* takes seriously the question of why people support Trump. What do they see in him and why? Avoiding oversimplification, Dr. Giles provides a serious historical and philosophical analysis of the dynamics at play in the support of and opposition to Trump and offers concrete proposals for moving politics beyond its current morass of antagonism.

Evolution! J. William Schopf, 1999 The proceedings of the March 1997 symposium on *Evolution! Facts and Fallacies* are published in this short, illustrated text. When Darwin originated his concept of descent with modification by means of natural selection, evolution became the instant focus of uncertainty and debate. In *Evolution!* noted experts sort facts from fallacies by answering questions most often asked of Darwin's grand theory. Contributors are key experts on evolution and extraterrestrial life. - Publisher.

Remnants of the Gods Erich von Däniken, 2025-09-12 Bestselling author and iconoclast, Erich von Daniken, opens his photo archive with a full color exploration of ancient places. We live in an age of information. But there are things in our prehistory about which we do not have the faintest idea, writes best-selling author Erich von Däniken in his gripping book, *Remnants of the Gods*. Stone structures erected by master builders, mysterious underground complexes, geometrically

aligned stone circles, the breathtaking pyramids of Egypt--who built them? And, perhaps more importantly, where did these builders obtain such incredible knowledge? Erich von Däniken shows in detail how whole countries were surveyed thousands of years ago. Hundreds of Stone Age holy places are located at equal distances from one another, forming giant squares and triangles. How was all of this possible? Classic archaeology provides no answers to these questions. Worse still, it doesn't even appear to be interested. Are we all threatening to become camp followers of disinterest, as Erich asks? Featuring more than 160 color photos and illustrations, Erich reveals the secrets of impossible buildings in Europe and the Mediterranean region, describes crazy facts, and relentlessly exposes false doctrines. Remnants of the Gods will make even strident skeptics reconsider what they think they know of the past.

Unveiling the Magic of Words: A Report on "**S Erich Von Daniken**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is really awe-inspiring. Enter the realm of "**S Erich Von Daniken**," a mesmerizing literary masterpiece penned with a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve to the book's central themes, examine its distinctive writing style, and assess its profound affect on the souls of its readers.

S Erich Von Daniken Introduction

In today's digital age, the availability of S Erich Von Daniken books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the

go. This article will explore the advantages of S Erich Von Daniken books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of S Erich Von Daniken books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing S Erich Von Daniken versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, S Erich Von Daniken books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing S Erich Von Daniken books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization

that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for S Erich Von Daniken books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, S Erich Von Daniken books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals.

Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of S Erich Von Daniken books and manuals for download and embark on your journey of knowledge?

FAQs About S Erich Von Daniken Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. S Erich Von Daniken is one of the best book in our library for free trial. We provide copy of S Erich Von

Daniken in digital format, so the resources that you find are reliable. There are also many Ebooks of related with S Erich Von Daniken. Where to download S Erich Von Daniken online for free? Are you looking for S Erich Von Daniken PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to get ideas is always to check another S Erich Von Daniken. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of S Erich Von Daniken are for sale to free while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with S Erich Von Daniken. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by

having access to our ebook online or by storing it on your computer, you have convenient answers with S Erich Von Daniken To get started finding S Erich Von Daniken, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with S Erich Von Daniken So depending on what exactly you are searching, you will be able to choose ebook to suit your own need. Thank you for reading S Erich Von Daniken. Maybe you have knowledge that, people have search numerous times for their favorite readings like this S Erich Von Daniken, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. S Erich Von Daniken is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, S Erich Von Daniken is universally compatible with any devices to read.
