Dictionary of EU Terminology_English-Czech Péter Tófalvi ,2025-06-29 This dictionary makes easily accessible, in an eye-friendly format, the material published by the EU translation service (\u201cIATE Download, European Union, 2025\u201d). The .mobi file can also be set as a background dictionary on Amazon Kindle e-readers.\n\nReaders will notice some unusual features in the content. More precisely—since this is an electronic publication—I have not followed the traditional format of printed dictionaries. It is often the case that a headword (actually a “label expression”) does not consist of a single word but rather of expressions or even full sentences, including synonyms or sentence fragments with similar meaning but formulated differently. These do not affect computer-based searching. For compound expressions, it is advisable to search for the individual components as well, in order to uncover as many related meanings as possible. The EU IATE database contains certain entries whose translations are not available in all languages. As a result, it may happen in my dictionary that the source-language headword has no corresponding translation in the target language. I could have filtered out such entries, but I ultimately decided to keep them in the dictionary, as they “fit” and may still have informational value on their own.\n\nThe making of a dictionary is never truly finished, and errors may occur, for which I kindly ask your understanding. Suggestions and feedback are welcome at the email address provided below.\n\nPéter Tófalvi
