Public Speaking Jerald Goldstein, 2017-09-27 Public Speaking: A Meta-Communicative Approach provides an innovative approach to acquiring public speaking skills, stressing both the theoretical underpinnings as well as the practical tools one needs to structure and deliver meaningful, dynamic presentations. It offers alternative ways of looking at public speaking: the significance of passion; a prismatic-way-of-thinking; the pervasiveness of persuasion; the assumption that teaching is taking place in every presentation; the power of meta-messages; and overarching ways to look at the public speaking enterprise. This one-of-a-kind textbook also offers real-world scenarios to equip students for speaking engagements they may face in professional contexts.

Public Speaking and the New Oratory Fiona Rossette-Crake, 2019-08-06 This book provides a research-led guide to public speaking in English, using the foundations of applied linguistics research to analyse elements of spoken presentation, including content, form, persona and audience interaction. The author also introduces and analyses case studies of what she calls 'the New Oratory', examining such modern speaking formats as the three-minute-thesis presentation, the investor pitch and TED talks, making this book a cutting-edge exploration of how public speaking is conducted in an increasingly digitalised world. It provides essential advice for non-native English speakers and speakers of English as a Second Language (ESL) whose work or study requires them to present in English, but will also be of interest to students and scholars of applied linguistics and business communication.
