Marketing responsable Ramiro Restrepo González, 2018-10-01 Este libro ofrece al lector una visión del marketing desde la perspectiva del desarrollo sostenible. En ese sentido, propone una doble mirada: - En primer lugar, una mirada crítica frente a las prácticas del marketing tradicional que no solo han ido a contracorriente de los más elementales principios de las sostenibilidad, sino que han modelado una sociedad de consumo plagada de exceso, distorsiones, vicios, desperdicios y contaminación. una sociedad enfermiza, por decir lo menos. - En segundo lugar, una mirada propositiva, a partir de de infinidad de iniciativas y casos que están configurando unas renovadas filosofía y práctica del marketing en el contexto global, esta vez basadas en los principios del desarrollo sostenible. De esta manera, este libro es una invitación a cambiar nuestra visión del desarrollo, expresada en ese motor de las sociedades conformado por la producción, la distribución y el intercambio de bienes y servicios.

The Routledge Handbook of Violence in Latin American Literature Pablo Baisotti, 2022-02-28 This Handbook brings together essays from an impressive group of well-established and emerging scholars from all around the world, to show the many different types of violence that have plagued Latin America since the pre-Colombian era, and how each has been seen and characterized in literature and other cultural mediums ever since. This ambitious collection analyzes texts from some of the region's most tumultuous time periods, beginning with early violence that was predominately tribal and ideological in nature; to colonial and decolonial violence between colonizers and the native population; through to the political violence we have seen in the postmodern period, marked by dictatorship, guerrilla warfare, neoliberalism, as well as representations of violence caused by drug trafficking and migration. The volume provides readers with literary examples from across the centuries, showing not only how widespread the violence has been, but crucially how it has shaped the region and evolved over time.

Ángela Ruíz Robles y la invención del libro mecánico (PDF) Ministerio de Economía y Competitividad, 2012-12-01 El principal deseo de Ángela Ruíz Robles era facilitar el aprendizaje a los estudiantes que tuvieron la oportunidad de beneficiarse de su magisterio. Dicha aspiración, unida a su afán por educar de una manera menos tradicional y más interactiva y a su inusual comprensión del lenguaje del futuro, propiciaron que, en los difíciles años inmediatamente posteriores a la Guerra Civil española, fuera capaz de idear y llevar a la práctica un prototipo de «libro mecánico»

estrechamente emparentado con los actuales soportes electrónicos de lectura. Esta obra pretende situar en el lugar que merecen los innovadores trabajos de Ángela Ruíz Robles, abordándolos desde diferentes puntos de vista, que van desde el carácter pedagógico hasta el sociológico y tecnológico, sin dejar de lado la semblanza personal de la autora.

[Filosofía](#) José Arredondo Campos,Gustavo Escobar Valenzuela,2015-06-23 El actual Programa del Bachillerato General del Estado de México, que se organiza metodológicamente por cuadrantes, se propone analizar una serie de contenidos y conocimientos sistemáticamente razonados que se fortalecen con habilidades del pensamiento en la construcción de conocimientos de manera permanente. Además se propone impulsar las potencialidades del estudiante en materia de competencias y del docente en materia de enseñanza colaborativa. Así la gestión del conocimiento se realiza mediante 6 cuadrantes orientados al acceso, integración, procesamiento, análisis y extensión de datos e información. En ese contexto didáctico, Filosofía. perspectivas y problemas (segunda edición) aborda la filosofía, parte esencial de las asignaturas humanísticas, y que coadyuva a la transformación del ser humano y de su sociedad, mediante el análisis crítico, la reflexión y el diálogo fructífero en constante búsqueda de respuestas a los diversos problemas que plantea el complejo mundo en que vivimos. Tomando en cuenta éstas y otras características propias del saber filosófico y las coyunturas que la realidad plantea, el libro siguiendo el esquema de gestión del conocimiento mediante cuadrantes, cuenta con: preguntas detonadoras, situaciones didácticas, actividades para cada tema, lecturas de apoyo y breves textos adecuados para suscitar la reflexión del estudiante, así como exámenes de conocimientos conformados con preguntas de opción múltiple y de respuesta breve, rúbricas, vocabularios y bibliografías que se incluyen al final de cada unidad.

[Sensory Evaluation and Consumer Acceptance of New Food Products](#) Ana Isabel de Almeida Costa,Maria Joao P Monteiro,Elsa Lamy,2024-08-14 Large amounts of money, time and effort are devoted to sensory and consumer research in food and beverage companies in an attempt to maximize the chances of new products succeeding in the marketplace. Many new products fail due to lack of consumer interest. Answers to what causes this and what can be done about it are complex

and remain unclear. This wide-ranging reference collates important information about all aspects of this in one volume for the first time. It provides comprehensive, state-of-art coverage of essential concepts, methods and applications related to the study of consumer evaluation, acceptance and adoption of new foods and beverages. Combining knowledge and expertise from multiple disciplines that study food sensory evaluation and consumer behaviour, it covers advanced methods including analytical, instrumental and human characterization of flavour, aspects of food processing and special research applications of knowledge and methods related to consumers' evaluation of new food products. Researchers and professionals working in food science and chemistry are sure to find this an interesting read.

Word Art + Gesture Art = Tone Art Hanns-Werner Heister, Hanjo Polk, Bernhard Rusam, 2023-03-06 This book offers a truly interdisciplinary discussion on the relationship between the vocal and the instrumental in music and other arts and in everyday communication alike. Presenting an in-depth systematical and historical analysis of the evolution of word and gesture art, it gives extensive information on the anthropological, biological, and physiological influences and interactions in music and beyond. The book gives a unique definition of the genuinely vocal and instrumental from their generative deep structure: They derive from and are determined in their production by the duality of voice and hands, and in terms of product as the tone or 'tonal' on the one hand, and the percussive, that is noise plus rhythm, on the other. This book succeeds in bringing together perspectives from art, and from natural and social sciences, merging them to offer new explanations about the relationship between the vocal and instrumental, and eventually about the origins of music, arts, and language. It offers new perspectives on the intertwining between the vocal and the instrumental, specifically in the context of the expressions of human languages. At the same time, this book aims at clarifying and explaining the role of words and gestures in different contexts, such as society and communication, education, and arts.

Breve historia cultural de los mundos hispánicos Jacinto Choza, Esteban Ponce Ortiz, 2010 Esta Breve historia cultural de los mundos hispánicos está concebida y realizada como una ampliación y justificación de la memoria épica de los pueblos hispánicos. La memoria épica es lo que un pueblo sabe de sí mismo gracias al epos, a los poemas que sus primeros poetas antiguos recitaban y donde relataban los orígenes y las hazañas de los antepasados. El contenido de esos productos culturales es lo que el pueblo de cada país sabe de sí mismo, lo que sus hombres y mujeres viven y lo que le pueden contar a sus hijos, sus invitados, sus visitantes y sus turistas. Es también el subsuelo donde radican y de donde se nutren la lengua, las creencias, el sentimiento del propio ser y de la propia esencia, de la nación y de las regiones. Una historia cultural que se proponga ampliar y legitimar la memoria épica de los pueblos hispánicos es una obra que aspira a hacer algo más flexible y amplia esa memoria, aportando elementos nuevos, y a justificarla certificando la validez de sus contenidos. Vivimos en versiones de nosotros mismos, y aquéllos que tienen las versiones de nosotros mismos más luminosas y confortables, y en las que nos sentimos más a gusto, son esos a quienes llamamos amigos. Esta es una historia amigable.

An Archaeology of the Margins A. José Farrujia de la Rosa, 2013-11-26 This book analyses the problematics of archaeological heritage management in the Canary Islands, which are echoed in other parts of the world where the indigenous heritage is under-represented. The present-day management of Canarian archaeological heritage has a very specific and unusual context given that the archipelago is located on the fringes of Europe, belonging to Spain and therefore to the European Unión, but geographically and in terms of early history being part of Africa. From a theoretical perspective, then, the proposed book analyzes issues such as the effects of colonialism and eurocentrism on the management of the archaeological heritage. It also examines the evolutionist and historico-cultural models used to analyze past societies and, ultimately, used to create identities that influence archaeological heritage management itself. From a practical point of view, the book presents a proposal for enhancing the archaeological heritage of the Canary Islands through the creation of archaeological parks (providing some concrete examples in the case of the city of La Laguna) and the active involvement of the local community. Parallel to this, the book considers the Canarian Archipelago as part of a problematic that is not unique to this area but is an example of poor indigenous heritage management overall. It demonstrates how the course of history and the politics of the past still have an excessive influence on the way in which the present-day archaeological heritage is interpreted and managed. Therefore, this book provides an almost unique opportunity for uncovering the history of archaeology within the margins of Europe (in fact, in an African region) and exploring colonial and foreign influences. In many ways it is a mirror of archaeological mainstreams and an exercise in (re)thinking the aim and status of present-day archaeology.

Vidas desperdiciadas : la modernidad y sus parias Zygmunt Bauman, 2013-09 La propagación global de la modernidad ha dado lugar a un número cada vez más elevado de seres humanos que se encuentran privados de medios adecuados de subsistencia, y a la vez el planeta se está quedando sin lugares donde ubicarlos. De ahí las nuevas inquietudes acerca de los inmigrantes y los que piden asilo, así como la importancia creciente del papel que desempeñan los difusos temores relativos a la seguridad en la agenda política contemporánea. Bauman desentraña el impacto de esta transformación sobre la cultura y la política contemporáneas, y muestra que el problema de hacer frente a los residuos humanos brinda una clave para comprender algunas peculiaridades de nuestra vida en común, desde las estrategias de dominación global hasta los aspectos más íntimos de las relaciones humanas.
