Nexus Yuval Noah Harari, 2024-09-10 #1 NEW YORK TIMES BESTSELLER • From the author of *Sapiens* comes the groundbreaking story of how information networks have made, and unmade, our world. “Strikingly original . . . A historian whose arguments operate on the scale of millennia has managed to capture the zeitgeist perfectly.”—The Economist “This deeply important book comes at a critical time as we all think through the implications of AI and automated content production. . . . Masterful and provocative.”—Mustafa Suleyman, author of *The Coming Wave* For the last 100,000 years, we *Sapiens* have accumulated enormous power. But despite all our discoveries, inventions, and conquests, we now find ourselves in an existential crisis. The world is on the verge of ecological collapse. Misinformation abounds. And we are rushing headlong into the age of AI—a new information network that threatens to annihilate us. For all that we have accomplished, why are we so self-destructive? *Nexus* looks through the long lens of human history to consider how the flow of information has shaped us, and our world. Taking us from the Stone Age, through the canonization of the Bible, early modern witch-hunts, Stalinism, Nazism, and the resurgence of populism today, Yuval Noah Harari asks us to consider the complex relationship between information and truth, bureaucracy and mythology, wisdom and power. He explores how different societies and political systems throughout history have wielded information to achieve their goals, for good and ill. And he addresses the urgent choices we face as non-human intelligence threatens our very existence. Information is not the raw

material of truth; neither is it a mere weapon. Nexus explores the hopeful middle ground between these extremes, and in doing so, rediscovers our shared humanity.

Forex Trading Laura Sether,2009 Trading forex is completely different from trading other markets. With low entry costs, 24-hour accessibility, global players and high degrees of leverage, there are enormous opportunities but also very real potential hazards along the way if you don't know what you're doing. Leverage can work both ways you control large positions, but small moves in your favor can mean big returns on your investment. For these reasons, forex trading deserves its own volume, devoted entirely to SFO (Stocks, Futures, Options) Magazine articles explaining the ins and outs of currency trading. Forex traders don't need to follow hundreds of stocks or commodities to get a flavor for the market just the movements of eight major currencies: the U.S. dollar, Japanese yen, European Union euro, British pound, Canadian dollar, Australian dollar, New Zealand dollar and Swiss franc. Trading a country's currency is like trading the outlook for the country, so it helps to have a bit of fundamental knowledge. But it's also a highly technical form of trading. This book helps you assess how to best synthesize your forex strategies to make the most of market movements. Learn from the top forex trading experts in the world. The key to trading currencies is figuring out what central banks will do before they actually make their moves.

Forex Trading Jim Brown,2015-09-15 Jim's FOREX books are consistently ranked BEST SELLERS on Amazon and there is a very good reason for this. At no extra cost (or on-costs) Jim shares with his readers: His custom indicators for the MT4 MetaTrader platform, as a download at the end of the book. AND anyone who has received these indicators will also receive the MT5 version of his files when they have been programmed. An invitation to join his Facebook Group which has new as well as experienced Forex Traders contributing. Daily interaction in his Facebook Group He calls his trades live, shares his results AND records a weekly trade analysis video. His contact details if you require further clarification. Jim, from Queensland Australia, is a full-time Forex Trader, currently residing in Vietnam. His knowledge of currency trading extends over a 14 year period and has evolved from the old fashioned manual charting when he first started in 2002, to trading on multiple screens and entering the arena of automated trading. During this time, he has developed and shared many trading systems for free, and assisted many new traders through various blogs and forum participation. This book is for those of you who are just starting to consider trading Forex but don't know where to start, given the abundance of information on the

internet. It is a good first book to read, to gain an understanding of the very basics. As an added Bonus, Jim offers one of his Trading Systems, as well as the indicators without any further on-costs. Check out his YouTube vids, chat with him on Facebook - he's an approachable guy who is passionate about trading. Here Is an outline of what is included: What is Forex? Advantages of Trading Forex When the Forex market is open Forex pairs Where we trade Forex Choosing a Broker Important information for US based traders Lot size and equivalent pip value Information on risk News and fundamental analysis Technical analysis Risk-reward ratio Types of orders How many pips is enough Trading psychology Day trading or longer term trading? Keeping a journal or diary Jim's other books MT4 High Probability Forex Trading Method Trading Forex with Divergence on MT4 What people are saying... I was a bit skeptical prior to ordering this as it is only 72 pages in length. However the author covered concepts and principles in very direct and easy to understand manner. I have read other authors that would have no doubt used three times the verbiage and none of the clarity possessed by Jim Brown. All in all I am very pleased with my purchase. - Darrell R Allen Buy Forex for Dummies or something similar for a detailed background of Forex, then buy this book. It is well written and to the point. I recently paid \$40 for a system which did not do much but generate daily emails promoting many more expensive systems. Jim's free system is easy to implement and follow, and it works. Also, there is no upselling. I felt that he wants people to succeed. I also bought his other book, which includes another free system. Both will be valuable to new Forex traders like myself. - Terrence E Winnie This book, using an easy language, explains all things needed to start trading Forex. The included bonus system is also very easy to understand. The system gave me for example 125 pips trading EURUSD on 16 th June. - Amazon Customer

Forex Trading David Reese,2021-02-06 Are you searching for a reliable source of passive income to supplement your salary? Would you like to gain financial freedom and eventually quit your day job? Are you new to investing and looking for expert guidance to help you enhance your skills? If you're ready to take your fortune into your own hands by making smart investments, this is the book for you. Read on! Forex, also known as exchange or FX, involves buying and selling different currencies with the aim of earning profits based on fluctuations in the values of these currencies. This essential guidebook empowers you to understand the ins and outs of forex trading, develop winning strategies and identify the indicators necessary for success. While stock market investments can generate a great deal of profit, the average investor actually loses money over the course of a year. Effective trading requires applying specific strategies and developing a certain mindset. Trading blindly is nothing more than gambling --- and not worth the risk. The forex market is the largest market in the world. Because it is decentralized and even bigger than the stock exchange market, forex attracts a large number of traders, from beginners to experts. This makes finding a buyer or seller easier than in other trade markets. Despite the inherent risks that come with any type of trading, Forex offers many advantages, from leverage to fast returns to simple tax rules. In the past, traders had to go through brokers. Today, advancements in technology enable traders to transact directly using trading platform software and apps. In this guidebook, David Reese will guide you step-by-step with powerful tactics for accessing the foreign exchange market and its great potential to become a highly lucrative stream of income. You will learn all about: Day trading and swing trading strategies in the forex market How to take advantage of volatility and liquidity The 12 greatest benefits of forex trading 7 approaches to fundamental analysis, explained in plain English 8 simple day trading strategies that work Recommendations for the best tools and software to assist you The 5 most common mistakes to avoid And much more! The time-tested practices in this book are simple to follow. If you are willing to put forth the effort, with focus and persistence you'll start to see and benefit from the results. Even if you're a brand-new beginner to forex trading, you can discover confidence and success with the help of the tools and techniques outlined in this book. The Forex Mindset: The Skills and Winning Attitude You Need for More Profitable Forex Trading Jared Martinez, 2011-07-15 Jared Martinez traded the forex market for a decade through the 1980s and '90s before he discovered that successful trading requires 10 percent skill and 90 percent emotional intelligence. He founded the Market Traders Institute on that underlying principle, and now MTI is the most established leader in forex education worldwide. Jared is known as "FXCHIEF" in the industry, and now, in *The Forex Mindset*, he shares his secrets with you. Leadership experts and corporate executives are just waking up to what the FXCHIEF has known for more than 15 years—emotional intelligence matters. With *The Forex Mindset*, you get up close and personal with greed and fear, the two leading forces in the market. Everyone gets in for greed, but without a healthy understanding of fear, you may be in for one of the worst journeys of your life. This performance-oriented guidebook features a potent synthesis of psychology and strategy that will exponentially increase your ability to acquire wealth as a trader. Even veteran traders with bulletproof trading strategies are doomed to fail if they don't know themselves. *The Forex Mindset* prepares you to be a successful trader by helping you identify your unique psychological strengths and weaknesses and how you naturally behave in times of financial crisis. With a newfound understanding of yourself, you can use this book to map out your own path to wealth by: Delving into human nature and market behavior Learning how to improve your emotional intelligence Doing what top traders do to control their emotions in trades and in times of crisis Implementing authoritative strategies for effective thinking in a state of fear If you want to make a living from trading forex, apply the lessons in *The Forex Mindset* and you're already 90 percent there!

A Three Dimensional Approach To Forex Trading Anna Coulling, Is this book for me? If you aspire to become a full-time forex trader, then this is the book for you. Even if your dream is perhaps more modest, and you simply want a second income trading the forex markets, this book is for you. What will I learn? It has been written with one clear objective. To explain how and why the currency markets move in the way they do. Namely, the forces, the factors, and the manipulators. Many aspiring traders simply do not realize that the forex market sits at the heart of the financial world, which, when you think about it logically, is common sense. This is the biggest money market in the world, and if the financial markets are about one thing, they are about money. Making it, protecting it, or increasing the return. It's no surprise, therefore, that the forex market connects all the others. Put simply, the forex market is the ultimate barometer of risk. How will it help me? First, you will discover how changes in market sentiment in the primary markets of commodities, stocks, bonds, and equities are reflected in the currency markets. This is something that often surprises novice traders. After all, why look at a stock index, or the price of gold, or a bond market? The answer is very simple. It is in these markets that you will find all the clues and signals, which then reveal money flow. After reading the book, you will be one of those enlightened traders who truly understand money flow and risk, and your confidence as a trader will grow exponentially as a result. Here are some more

reasons.... Long gone are the days when currency pairs meandered higher and lower in long-term trends, driven by interest rate differentials. To take advantage, you need to understand the forces which now drive the markets. A Three Dimensional Approach To Forex Trading will empower you with knowledge. Knowledge and confidence go hand in hand. Confidence breeds success, and success breeds money, which will flow from reading the book.
