The Hurting Parent Margie M. Lewis, Gregg Lewis, 2010-02-07 This classic resource for parents of prodigal sons and daughters has been updated to not only offer tried-and-tested wisdom and hope for the newest generation of prodigals' parents but also to provide fresh insight and added encouragement for hurting mothers and fathers everywhere.

Camel Milk Solomon Barrani, 2009-11-04 This is not a historical record but a vivid sketch of experiences, challenges, colors, people, sandstorms; the sketch of a country as seen from the eyes of the author over three decades. The author lived for three decades in Libya, The Socialist People's Libyan Arab Jamahiriya of Muammar Qadhafi. Witnessed the magnanimity of the Bedouin, his ruthlessness as dictator, the eloquence as a preacher, the dog of the Middle East, and according to Ronald Regan, the shrewd salesman of crude oil. The man who thrived on staged coups, and intimidated, persecuted, imprisoned, and executed his opponents, even murdered persons who survived the gallows. The student of Jamal Abd-el-Nasser, who believed in succeeding him as a Pan Arab Leader. The man who substituted normal education with arms training. The voracious person who inspired and supported every kind of uprising around the world and squandered millions of dollars on terrorism and revolutions. The man who subsidized the devastation of Lebanon and killed every ray of hope for peace in the Middle East, but also fought the so called reactionaries on his own territory, a category broad enough to include Muslim fundamentalists, covetous fellow army officers and members of Westernized business class. He speaks about the man who never celebrated a birthday, because no such records exist for his birthday date. Rumors say that he was born in the spring, or may be in September of 1942, the off spring of an Italian general, and a Jewish Bedouin woman, in the Surta area. But also about the man who built the infrastructure of his country, built whole towns, road networks, hospitals and brought water from the heart of the desert and provided electricity to the last shepherd's tent.

Shine On David Ditchfield, J S Jones, 2020-06-26 Across thousands of years, people have described one of the most astonishing of all human phenomena: the near-death experience (NDE), the subjective experience of an Afterlife, a place where we apparently survive death. The more powerful the NDE, the more profound the after effects. The ambitious reset their priorities. Atheists change their values. Doctors rethink their beliefs. But what if the after effects of an NDE were undeniable? What if someone suddenly developed the ability to produce high quality paintings of their NDE, a new-found skill that went far beyond the artistic ability they had before? And what if that same person then suddenly acquired the ability to

compose classical symphonies after their NDE? And their symphonies were then premiered at sell out orchestral concerts, even though, to this day, they are unable to read or write a single note of musical notation. Wouldn't this be proof that even a cynic would have a hard time explaining? After his NDE, this is exactly what happened to David. And this is his story.

Her Alphas Aflyingwhale,2024-04-23 What happens when you find not only one, but two mates all in one night? This is the story of Savannah Wilcox, daughter of Alpha William Wilcox, leader of the Blue Moon Pack. Savannah's dad orders her to be married within twelve moons. She's forced to attend a party with a list of all the potential suitors that are up to his standards. But as Savannah plans her escape to meet her childhood crush slash boyfriend, she falls into the hands of the Kaiser brothers. Logan, the older brother, is a hot and sexy womanizer with a heart of gold. Harlan, the younger brother, is a cold and tortured soul, with eyes as blue as the ocean. What will happen to Savannah as she finds herself stuck in a love triangle between the two brothers? Will she choose one of them to marry, or will she let go of her senses and be lost in the devil's triangle? Be careful of the devil's triangle, Savannah. Once you're in, you can never get out. This is book 4 of the series.

Forced to keep this shameful secret, he attempts to raise himself and his ten year old brother. He counteracts the deep ache and creeping mistrust caused by his mother's emotional absence by escaping into the intense realm of Chopin and Schubert, the only language he understands. When his brother becomes ill, he is left with enormous responsibilities. At a piano competition in Montreal, Lawrence makes a climactic decision that puts his future on hold in order to salvage his family life. The Multilingual Mind Tracey Tokuhama-Espinosa,2003 The bulk of the world's population is multilingual, and one in seven Americans speak a language other than English at home. Multilinguals crave answers to question both basic and profound, questions relating to linguistic identity, schools, multiliteracy, how languages are actually learned, and why there

are so many variations on individual success. Tokuhamma-Espinosa combines solid research, humor, and real-life examples into 21 informative and entertaining essays about people who experience the world with multiple languages. This book tackles common misconceptions about polyglots (too many languages can cause brain overload, some languages are easier to learn than others, an adult cannot learn a foreign language as fast as a child, etc.) Other topics include: • Curriculum choice • Teaching languages using the multiple intelligences • How different education systems can influence multilingual skills • Language's relationship to mental tasks such as music and math • Languages from the womb and bilingualism from birth • The growth of the trilingual family • The societal situation of third culture kids (those growing outside of their parents' native country) • A special case for foreign language development • The emerging cross-area study of multilingualism and cosmopolitanism • Questions of linguistic identity • Challenges to normal foreign language learning, such as dyslexia, Downs Syndrome, and deafness
