Marketing internacional en América latina Harold Silva Guerra, 2021-01-06 Con un enfoque práctico, el lector puede introducirse en el mundo del marketing internacional. La metodología contempla tres aspectos esenciales que facilitan el aprendizaje: la teoría, los casos y los talleres producto de la experiencia del autor como docente de marketing internacional por más de veinte años en la Escuela de Negocios de la Universidad del Norte en Barranquilla, Colombia. Los casos describen las problemáticas de las empresas latinoamericanas dedicadas al comercio internacional y las diferentes experiencias y barreras que han encontrado en el escenario internacional. Aunque se encuentran en una misma región, los casos de las empresas latinas contextualizan a los estudiantes y docentes sobre nuestros disímiles estilos de dirección y de la diversidad de nuestra cultura empresarial.

Innovative Perspectives on Corporate Communication in the Global World Olvera-Lobo, María Dolores, Gutiérrez-Artacho, Juncal, Rivera-Trigueros, Irene, Díaz-Millón, Mar, 2021-04-23 Today's global markets demand that companies of all sizes look to international markets for potential customers. The successive crises that have taken place in the last decade make the

internationalization of companies essential. This situation is further aggravated in the case of SMEs, as surviving only from national markets is becoming increasingly difficult. Indeed, the economic sphere is in constant flux, which demands that companies have a great capacity for adaptation to face the new challenges of an ever more globalized and difficult market. In this context, new forms of business communication are emerging, especially through the web and new technologies. Digital marketing and the dissemination of corporate information have become key processes for the success of companies. It is therefore crucial to research different digital marketing processes and ways of breaking down linguistic and cultural barriers between users from different sociolinguistic contexts. Innovative Perspectives on Corporate Communication in the Global World contains different contributions focused on the description of methods, processes, and tools that can be adopted to achieve corporate internationalization goals. The chapters provide a comprehensive review of the why, what, and how of disseminating corporate information and promoting corporate digital communication into internationalization processes. These strategies can be related to the development of digital tools, the design of new corporate communication strategies, the proposal of new ways of breaking social and linguistic barriers between technology users, or the creation of new methodologies aimed at evaluating the effectiveness of digital marketing strategies. This book is ideal for marketers, managers, executives, entrepreneurs, practitioners, researchers, academicians, and students interested in new corporate communication strategies and their effectiveness.
