Sugar Cane Cultivation and Management H. Bakker,2012-12-06 This volume is intended for reference by the commercial sugar cane grower. Disciplines are covered for the successful production of a sugar cane crop. A number of good books exist on field practices related to the growing of sugar cane. Two examples are R.P. Humbert's *The Growing of Sugar Cane* and Alex G. Alexander's *Sugarcane Physiology*. Volumes of technical papers, produced regularly by the International Society of Sugar Cane Technologists, are also a source of reference. Perhaps foremost, local associations, such as the South African Sugar Technologists' Association, do excellent work in this regard. In my forty-five years of experience with the day-to-day problems of producing a satisfactory crop of sugar cane, deciding what should be done to produce such a crop was not straightforward. Although the literature dealing with specific subjects is extensive, I tried to consolidate some of the material to provide the man in the field with information, or an overview of the subject matter.

Delicious Geography Gary Fuller,T. M. Reddekopp,2017-03-01 This entertaining book takes us on a fascinating exploration of the world of food. Take a journey with the dynamic father and daughter duo, geographer Gary Fuller and chef Tracy Reddekopp, as they travel around the globe to trace the enduring links of geography and food. Food and its preparation and enjoyment define the major cultural regions of the world and how these regions have changed over time. The authors believe that the peoples of the world have begun to reunite after millennia of dispersal. The sharing of foods and food traditions are prime examples of this global connection. Enriching the trip with thirty-five recipes to extend the experience into our kitchen, homes, and families, the authors also make geography fun by asking trivia questions that turn out to be far from trivial. Among the questions asked and answered are: What landlocked country in South America developed a plant that revolutionized food production in Europe?What bird on the island of Mauritius gave us an expression about mortality?On what Native American reservation, and in what kind of business, do we find the Code Talkers Museum?Why could vanilla be

grown only in Mexico until the mid-nineteenth century?What famous Italian-American was given a nickname derived from a Pan American airliner?(Answers: Bolivia, the potato, "Dead as a dodo," the Navajo reservation in a Burger King; the plant could only be pollinated naturally by a Mexican bee, Joe DiMaggio, the Yankee Clipper)
