*The Early Reader in Children's Literature and Culture* Jennifer Miskec, Annette Wannamaker, 2015-12-22 This is the first volume to consider the popular literary category of Early Readers – books written and designed for children who are just beginning to read independently. It argues that Early Readers deserve more scholarly attention and careful thought because they are, for many younger readers, their first opportunity to engage with a work of literature on their own, to feel a sense of mastery over a text, and to experience pleasure from the act of reading independently. Using interdisciplinary approaches that draw upon and synthesize research being done in education, child psychology, sociology, cultural studies, and children's literature, the volume visits Early Readers from a variety of angles: as teaching tools; as cultural artifacts that shape cultural and individual subjectivity; as mass produced products sold to a niche market of parents, educators, and young children; and as aesthetic objects, works of literature and art with specific conventions. Examining the reasons such books are so popular with young readers, as well as the reasons that some adults challenge and censor them, the volume considers the ways Early Readers contribute to the construction of younger children as readers, thinkers, consumers, and as gendered, raced, classed subjects. It also addresses children's texts that have been translated and sold around the globe, examining them as part of an increasingly transnational children's media culture that may add to or supplant regional, ethnic, and national children's literatures and cultures. While this collection focuses mostly on books written in English and often aimed at children living in the US, it is important to acknowledge that these Early Readers are a major US cultural export, influencing the reading habits and development of children across the globe.

**Criticizing Art** Terry Barrett, 1994 *Criticizing Art: Understanding the Contemporary* helps students of art and art history better understand and appreciate contemporary art by studying the principles of art criticism and applying them to contemporary forms of American art. This book provides a framework for critically considering contemporary art through describing, interpreting, evaluating, and theorizing. The diverse perspectives of contemporary critics such as Douglas Crimp, Arthur Danto, Elizabeth Heartney, Donald Kuspit, Lucy Lippard, Peter Plagens, and Arlene Raven on the work of Leon Golub, Jenny Holzer, Frida Kahlo, Elizabeth Murray, Martin Puryear, William Wegman, and many other artists help readers develop their own critical positions. Chapter 5, *Theory and Art Criticism*, offers clear definitions of modernism, post-modernism, feminism, and multiculturalism, enabling readers to understand the critical milieu in which twentieth century critics have been operating. An entire chapter (Chapter 6) devoted to writing and talking about contemporary art leads readers through the process of preparing thoughtful, well-constructed critical analyses. Two student papers provide useful examples of the principles discussed throughout the text. Guidelines for constructive group criticism are also included.--BOOK JACKET.
