Mario Cerutti

Entrepreneurs and Politics in Twentieth-Century Mexico Roderic Ai Camp, 1989-06-01 Based on six years of research, including interviews with leading Mexican entrepreneurial and political leaders and the assessment of hitherto unavailable materials, this work focuses on the complex political relationship between the Mexican state and leading businessmen from the 1920s to the present. Analyzing nearly 3000 biographies to compare Mexico's two leading competitors for political power, the author uses a humanistic approach to test a number of assumptions about the relationship between the business community and the state and provides new insights into the existence of a power elite, the exchange between economic and political leaders, the self-image of Mexican entrepreneurs, the position of family-controlled firms, and the influence of capitalists on the decision-making process. Camp also provides detailed information on the ownership of Mexico's top 200 firms, including names of stockholders, board members, and managers.

Problemas, conceptos, actores y autores Mario Cerutti, 2018-11-02 Este volumen perfila dos características: por un lado ofrece resultados de investigación y alienta la discusión sobre nociones y conceptos que fueron funcionales en diversos proyectos colectivos; por otro, incluye apartados que convendría considerarlos de divulgación debido a la manera de tratar el material. El primer capítulo está dedicado al análisis de nociones instrumentadas a estudiar las más dinámicas áreas agrícolas del norte de México. El segundo combinó una exhaustiva investigación con la aplicación de algunas de esas nociones al describir y explicar la trayectoria de una poderosa familia (los Sada), componente fundamental del tejido empresarial y productivo construido desde 1870 en la industrial Monterrey.

Propietarios, empresarios y empresa en el norte de México Mario Cerutti, 2000 ¿Pueden haber surgido durante el siglo XIX grupos empresariales regionales de cierta importancia, perdurabilidad, alta capacidad de adaptación y con condiciones de liderazgo a escala del Estado-nación donde operaban? Tal pregunta abre este ensayo sobre la historia económica y empresarial del norte de México, analizada desde el caso de Monterrey, ciudad ubicada a 200 kilómetros de Texas, que ha logrado sobresalir en el contexto mexicano contemporáneo. Propietarios y familias predominantes desde los tiempos en que Estados Unidos se expandiera sobre su inestable vecino del sur se prolongan, hasta hoy, en empresarios, familias

empresariales y empresas que parecen mostrar ductilidad y capacidad suficientes para afrontar la globalización.

The Monterrey Elite and the Mexican State, 1880-1940 Alex M. Saragoza, 2014-10-14 After the Revolution of 1910, a powerful group of Monterrey businessmen led by the Garza-Sada family emerged as a key voice of the Mexican private sector. The Monterrey Elite and The Mexican State is the first major historical study of the Grupo Monterrey, the business elite that transformed Monterrey into a premier industrial center, the Pittsburgh of Mexico. Drawing on archival resources in the United States and Mexico and the work of previous scholars, Alex Saragoza examines the origins of the Monterrey elite. He argues that a pact between the new state and business interests was reached by the 1940 presidential elections—an accord that paved the way for the alliance for profits that has characterized relations between the Mexican state and capitalists since that time. More than a standard business history, this study delves into both the intimate social world of the Garza-Sadas and their allies and the ideas, beliefs, and vision of the Monterrey elite that set it apart from and often against the Mexican government. In so doing, The Monterrey Elite and the Mexican State reveals the underlying forces that led to the most historic battle between the private sector and the Mexican state: the dramatic showdown in 1936 between the Garza-Sadas and then President Lázaro Cárdenas in Monterrey, Nuevo León.

Evolution of Family Business Paloma Fernández Pérez, Andrea Lluch, 2016-02-26 Family businesses are everywhere, but there is little information regarding their growth and development. This book is one of the few to analyse the identity and evolution of the largest family businesses in Latin America and Spain. With contributions from 20 scholars from 12 different countries, the book compares the relationship of families in business within their national economies, foreign capital, migration, and politics. The authors deny the existence of a 'Latin type' of family capitalism in their countries, and highlight diversity, and national and regional differences. This interdisciplinary book will be useful for students and scholars of economics, management, history, sociology, and anthropology. Politicians, family business consultants, family businesses, and international institutions will also benefit from insights within this book.

Latin American Lives Macmillan General Reference Staff, Macmillan Publishing, 1998 Collects the 3,000 biographies from the 1996 reference for schools that would like to include more about the region in the curriculum but cannot invest in the entire set. Stretches temporally from the ancient civilizations of the Olmec, Maya, and Chavin to the present day. Geographically, includes South and Central America, the Caribbean, Mexico, and the historically Spanish borderlands north of the Rio Grande that are currently part of the US. Includes political leaders, artists, philosophers, religious figures, business leaders, educators, scientists, historians, military leaders, musicians and composers, and others who have had either a historical or a popular impact. Well cross-referenced. Moderately illustrated in black and white. Annotation copyrighted by Book News, Inc., Portland, OR
